WHITMAN AT THE FAIR.

Colfax Commercial Club Is Urging an Individiual Exhibit.

COLFAX, Wash., Feb. 3.-(Special.)-The Coltax Commercial Club today held a meeting to secure an individual exhibit of Whitman County products at the Lewis and Clark Exposition in Portland this Summer. It was agreed to ask all Chambers of Commerce, Commercial Clubs and Boards of Trade in Whitman County to operate and organize for the purpose of preparing and maintaining this exhibit at the Fair

Letters are being sent to all towns in the county, urging co-operation, and a generous response is expected. It is being urged that this is the best opportunity to advertise the products and wealth of this section ever offered, and if the plans outed today are perfected a fine exhibit will be prepared and maintained during the entire Fair. The club today elected he following officers: R. Burgunder, president; F. A. Russell,

PARDEE SIGNS FAIR BILL.

Money is Now Available for Califor nia's Exhibit.

SACRAMENTO, Cal., Feb. 3.-Governor Pardee this afternoon signed Assembly-man Biles' bill appropriating \$70,000 for California's exhibit at the Lewis and Clark Exposition at Portland.

The Governor also signed Senator Cog-gin's bill granting to the United States Sovernment all lands in the Klamath Basin, now covered by lake water, which may be uncovered as a result of proposed reclamation work.

House Exhibit Will Be Complete.

EUGENE, Or., Feb. 3.-(Special.)-E. M. Warren, superintendent of the Lane County exhibit for the Lewis and Clark Exposition, has returned from Portland, went to select space for the exhibit. Mr. Warren is determined to have a creditable exhibit, and has been at work some months preparing for the He alrendy has good samples of same. every known grass and grain that grows in the Willametto Valley, as well as many specimens of other products.

By the time of the opening of the Ex-solution Mr. Warren expects to have a good display which will include almost everything that grows in Oregon. He has a sample of Winter wheat which he is now curing which is somewhat remarks. ble. It is 32 inches high and was cut in January.

Children Busy on Exhibit.

EUGENE, Or., Feb. 3.-(Special.)-At the monthly meeting of the School Board yesterday the matter of a school exhibit for the Lowis and Clark Fair was taken up and the City Superintendent was instruct-ed to go ahead and prepare a suitable exhibit. This subject has been one of much debate among the school children for a week past. All the pupils, large and have to get an outfit of paint and crayons and work on maps, and those se-lected as the best products are to be taken for the school exhibit.

Board also decided to purchase a site for another schoolhouse to be built mer in the Fairmount Addition, but were undecided as to a selection

efore the Executive Board at its meeting yesterday proved to be the only fea-ture of particular importance. The letters in question bear on a discrepancy in the channel at the Morrison-street bridge, and recall the dictation of the War Department specifications furnished before

he construction of the bridge. All navigable rivers are under the immediate control of the War Department, and at the time of the contemplation of the Morrison-street bridge it was required that a channel 25 feet in depth be main-tained. This depth is stipulated insofar as the Morrison-street bridge is of draw construction, and requires piers, which serve to gather all river sediment carried down stream. This has a tendency to fill

the channel, and for that reason the Stoot depth was specified. Upon the completion of the bridge it

was opened without the city dredging to the required depth. Major Langfitt, of the Government service, advised District Attorney Heney that the city had falled to arrange for a channel of the stipulated depth. He immediately sent formal notice to City Attorney McNary that a channel of 15 feet

depth was required. The correspondence yesterday was ac companied by a letter to the Executive Board from Mr. McNary asking for instructions as to what move he sho take in dealing with Mr. Heney. It not thought that any dissensions will arise vice-president; G. H. Lennox, secretary; E. T. Coman, trensurer.

The meeting of the board was unusually brief and not replete with the spirited discussions that had been expected on all sides. A claim of the Pacific Construc-tion Company for the balance due them on the Morrison-street bridge, amounting to \$66,626.09, on motion of W. L. Boise was referred to the bridge committee fo adjustment, inasmuch as there is but \$55,-000 in the fund.

Fire Chief Campbell's monthly report was received. Aside from routine expenditures, he suggests that injured fire-men be given full pay rather than the \$40 allowed them from the fire and police relief fund. This was referred to a joint eeting of the fire and police committees, operintendent of Fire Alarm Telegraph Walker's report, affixed to that of the Chief, was referred to the fire committee of the Executive Board.

The matter of determining the value of a franchise for the Oregon Traction Company's Hillsboro electric road was refer-

made by the

red to the street committee of the Ex-ecutive Board. Resolutions were adopted suggesting the removal of the tracks of the Portland Consolidated Railway from Savier street in the vicinity of the Lewis and Clark

Fair grounds, so as to afford a good driveway to the Exposition. The tracks may be replaced upon the closing of the

With reference to the Macadam-street sewer, it was found that the Riners were forced to use more than 400 cubic yards of concrete in excess of the City Engincer's estimate that 100 cubic yards would be required. The claim of the contract tors for this extra concrete was referred Water to the City Engineer and City Attorney, Frederick A. Bailin's report on the con-struction of the Albina ferry, and the cordially welcomed

ferry-boat Lionel R. Webster was re-ceived and read. Mr. Ballin makes nu-merous suggestions for the installation of little extras, which he feels will facilitate the forry service. The boat, he re-ported, is ready for use whenever the streets to the ferry approaches are prop-erly completed. It was ordered that the County Court be advised of the completion of the ferry, and a formal tender of trial at 9:20 tomorrow morning.

TIDY GIRL PAPERS

A New Feature for the Woman's Page of The Sunday Oregonian.

Every woman, whether rich or poor, whether she lives in city or country, is deeply interested in the problem of making her clothes look as well and last as long as possible. To the household department of The Sunday Oregonian Miss Ruby Douglas will contribute a series of articles entitled "Tidy Girl Papers," giving practical suggestions for prolonging the life and freshness of the entire wardrobe. The first article, "Gloves and Their Care," will be published tomorrow.

The other articles to be published every other week, will deal with the "Care of Shoes and Stockings," "The Piece Bag and Its Possibilities," "Rainy-Day Toggery and Its Care," "The Dressing Table as an Assistant to Deft, Quick Toilet Making," and under the head of "Things That Slip," an interesting article will describe all the new devices fc- holding together shirtwaists, stocks, girdles and veils.
