SLIGHT EFFECT IN NEW YORK

Industrials and Specialties Still Command the Most Attention-Average of Prices Is Constantly Rising-Exports of Gold.

NEW YORK, Feb. 7.-There were more rallere yesterday, but the relative promnence of the industrials and specialties was The rattroad stocks which were ertive and strong were not of first-rate importance in the representative capacity or in of the most conspicuous favorites in the market were sluggish and comparatively neglected. The enormous diversion of corn traffic from the Atlantic ports to the Gulf already effected is sufficient notice of the serious character of this contest,

The rates for sterling exchange yielded to a slight extent, but inquiries indicated that prac-tically all of the \$5,000,000 in gold bars transferred to New York from the Philadelphia Mint would go cut on Thursday, The realizing of profits cost only a slight

portion of the advances, and the market closed atendy at very little below the best. Sonds were firm. Total sales, par value, 5,740,000. United States bonds were all un-

Slight Fluctuations in Wheat at Chicago—
Corn Market Steady.

CHICAGO, Feb. 7.—The general attitude of wheat traders at the opening was without decided leaning. Initial quotations on May were a shade lower to a shade higher at \$1.05 pt/light. Commission houses were fair buyers. At the same time there was considerable selling by pit traders, especially of the July delivery. After the first half hour the market yielded somewhat to selling pressure, May declining to \$1.165, and July to \$1.015. Some of the selling was based on expectations of a large increase in the world's available stocks. Later, upon announcement of the visible supply statistics showing an increase of 5.220.000 bushels, some operators who had sold early turned buyers. Shorts also were fair purchasers late in the day. The close of a 1.015.

Notwithstanding heavy cales by a prominent elevator interest, the corn market held comparatively steady. May opened a shade to be lower at 45% 55% to 200, and closed at 55%.

Oats were quiet. May opened unchanged to a shade lower, at 20% to 20% and closed at 20% to 20% and close
