Steamer Founders on Wild Nova Scotia Coast

Captain, Four Passengers and Part of Crew Being Driven to Sea in Awful Blizzard-Terrible Sufferings of Those Who Escape.

HALJFAX, N. S., Feb. 7 .- During a raging and blinding snow storm which has swept the Nova Scotia Coast for the past 24 hours, the ocean steamer Damara, of the Furnessia Line, ran on the rocks at Mosquodoboit, 20 miles cast of Halifax, early today and is believed to have foundered with the loss of many lives. The first officer of the ship with 18 of the crew escaped in one of the lifeboats and landed at Pleasant Point, after a terrific struggle

ith wind and .aes Captain Gorst, master of the Damara, four passengers and the rest of the crew left the vessel in another lifeboat. They have not been heard of since and it is feared that they have perished.

The occupants of the boat which reached shore were utterly exhausted

and many of them were badly frost-bitbattling in the darkness for hours in the open boats with tempestuous seas on a treacherous coast, with the thermometer 19 degrees below zero and an Arctic blizzard raging. They landed on shore some time during the day and reached the telegraph office at Mus-quedoboit harbor tonight, whence they wired the first news of the disaster to Halifax, to which port the Damara was

ound. The survivors say that the steame struck about 2 o'clock this morning, when the blizzard was so thick that it was impossible to see a ship's length ahead, on what proved to be Mosquodo-boit Ledge, five miles from the main-

An immense hole, through which the sea poured in torrents, was smashed in the bottom of the steamer. The shock of the impact awakened everyone on board and huge breakers swept the vessel fore and aft. Lifeboats imme-diately were ordered over the side and all hands left the ship.

It is believed that the steamer must have foundered quickly and small hope is entertained by the survivors of the wreck that the captain and other occu-pants of the missing lifeboat could have successfully withstood the ex-treme rigor of the weather prevailing on this coast for the many hours which have passed. The wind tonight was off The wind tonight was off shore and, if the missing boat has not already swamped, it has been driven seaward many miles and is now probably adrift on the Atlantic in the worst weather of the Winter.
Tugs were dispatched from this har-

bor tonight to search for the boat and to locate the hull of the Damara. The Damara left Liverpool on January 24 for Halifax, by way of St. Johns, N. F., and left St. Johns for this port

The names of the survivors could not be learned tonight, but it is known that all of the crew were shipped in

last Saturday.

The Damara was a schooner-rigged steamer of 1146 tons net. She was owned by Furness, Withy & Co., of Glasgow, and was built in 1885 by Stephens & Sons, of Glasgow. Her principal dimensions were: Length, 275 feet; breadth, 25 feet, and depth.

HARRISBURG, Pa., Feb. 7,-So numerous have been the requests from all over the country from people who want Jovernor Pennypacker to commute life imprisonment the sentence of Mrs. Kate Edwards, who is to be hanged at Reading on February 16, that it has been found necessary for the executive department to prepare a circular letter in anawer to these requests. This letter quotes the state constitution to show that the Governor has no power to commute a death senence to life imprisonment, except upon the recommendation in writing of the Board of Pardons.

While these were in progress, Mclumber proposed as a substitute for the provision admitting a state com-posed of Oklahoma and Indian Territory combined, an amendment admit-ting Oklahoma alone as a state.
