Britain Decides Against Greene and Gaynor.

CONDEMNS CANADIAN JUDGE

Privy Council Holds Release of Fugitives Under Habeas Corpus Illegal-They Will Be Extradited to United States.

LONDON, Feb. 8.-The Privy Council rendered its decision this morning in the Greene-Gaynor case in favor of the American Government, The Council reversed the two judgments of Justice Caron, of Quebec, August II, 1902, and ordered the respondents to pay the costs of the appeal. The Council's decision criticises the action of Justice Caron in releasing Greene and Gaynor as "Caron's extraordinary intervention," and adds:

"Where a prisoner is brought before a competent tribunal charged with an extraditable offense and is remanded for the express purpose of affording the prosecution an opportunity of bringing for-ward evidence whereby the accusation is to be supported; if in such a case, on a writ of habean corous, a learned Judge and proceeds to adjudicate the case as though the whole evidence was before him, it would paralyze the administration of justice and reads. of justice and render it impossible for eedings in extradition to be effective." hn R. Carter, Second Secretary of the American Embassy, was present to hear the decision, and also to watch the appeal against the decision of the Supreme Court of Canada in the case of the fishing

steamer Kitty Dee, captured by a Canadian crulser on Lake Bric.

The decision simply reverses Justice Caron's judgments and leaves Greene and Gaynor under remand as before Justice Caron Intervened.

### THEIR STRUGGLE FOR LIBERTY

How Greene and Gaynor Dodged Punishment and Extradition.

WASHINGTON, Feb. L.-Jonn F. Gaynor and Benjamin D. Greene were indicted in Savannah, Ga., December 8, 1899, charged with embezzlement and defrauding the United States Government, together with Captain O. M. Carter, in the performance of Government contracts for the improvement of the Savannah River and other river and harbor work in that district, the illicit profits being estimated at \$2,000,000.

Gaynor and Greene were arrested in New York. They contested extradition to Georgia, and when the United States Commissioner decided that they must go to that state and plead to the indictments, they fled to Canada. They had been at liberty on \$40,000 ball each, and this was

Efforts to extradite Gaynor and Greene from Montreal were progressing favorably and the extradition commission was sitting in Montreal when Gaynor and Greene went to Quebec. A question arose as to whether they could be brought back, and detectives knidnaped them and took them to Montreni. There was a big legal fight over this action, and a Quebec Judge issued a writ of habens corpus, which was served on the jailer at Montreal, who delivered up the prisoners without notification to the extradition tribunal, and permitted them to be taken back to Quebec. Efforts to quash the writ of habeas corpus under which they had been

returned were denied by Justice Caron.

After a long legal controversy Gaynor and Greene obtained their liberty within the limits of the Province of Quebec. The United States Government then appealed to the Privy Council of England, the highest court in that country.

Greene and Gaynor Will Be Arrested and Taken to Georgia.

WASHINGTON, Feb. 8.-Although sufficient detail is not yet before the law officers here to warrant a final opinion as to the effect of the Privy Council's decision in the Gaynor-Greene case, the present understanding is that it will re-sult in the immediate rearrest of Gaynor and Greene, who are now at large in Quebec under surveillance of Washington Becret Service officers. If the renewed application for extradition is granted the men will be taken to Atlanta, Ga., for

The officials feel that their hands have been much strengthened in dealing with extradition cases between the United States and Canada by this particular decision indicating as it does a disposition on the part of the British authorites to waive trifling technicalities and resolve any doubts in the spirit of the extradition treaty rather than in its letter.

### FRANCE WANTS ALL BUSINESS Will Not Lend Turkey Money if She Buys German Guns.

CONSTANTINOPLE, Feb. 8 .- Germany's victory in capturing the contract for the rearmament of the Turkish arithery threatens to result in a serious disturbance of Franco-Turkish political relations. The French Ambassador here, M. Constant, proposes to leave Constantipople soon for Paris to consult with Foreign Minister Delcasse. Meanwrite the Ambassador has informed the Turk-ish Government that the French market is closed to any fresh Turkish loan,

Tewfik Pashs, the Foreign Minister, tried to compromise the matter, offering to settle the Syrian Railway question in a manner, satisfactory to the French claimants and to purchase equipment to the amount of \$2,300,000 in France. The Ambassador, however, demanded the expenditure of \$5,000,000, being one third of the value of the new armament, with French gun factories and the complete satisfaction of the French demands re-garding the railroads. These terms the Ambassador declared to be final, and not receiving a reply February 6, the Am-bassador informed the Turkish Government that he refused to continue the ne ket was clased to further Turkish loans. As a result of this information the Ottoman Bank withdrew its propos for the projected loan and notified Minister of Finance, Reshed Pasha, that it would not entertain any request of the Government for the advances. The Deutsche Bank then came to the Porte's aid with an offer to assist the treasury. The Germans are thus for the moment in complete possession of the financial field and an irade has already been promulgated ordering the purchase of all the

### PURELY MATTER OF BUSINESS Franco-Turkish Dispute Does Not Enter Into Politics.

PARIS, Feb. 8.-The officials say the uplications with Turkey over the proposed loan and the ordering of guns for the rearmament of the Turkish artillery are more commercial than governmental, although the authorities here are taking an active interest in the affair owing to the magnitude of the French commercial

interests involved.

The official version of the situation is as follows: Turkey, desiring a new loan, offered to give a contract for 100 heavy guns as an inducement for securing the ioan. Thereafter a syndicate of German banks undertook to float a loan and arrange with the Krupps to furnish 100 guns. It recently developed that the Krupps were not likely to be able to deliver the guns within the time desired, owing to the present extensive demand for artillery. Thereupon Turkey again turned to French banking and commercial quarters, which were unwilling to furnish the loans without also furnishing guns. The matter is now pending, with the expectation that the Porte at a meeting today or tomorrow may decide to reopen the ques-tion with the view to placing both the loans and guns with French firms. In the meantime, Ambassador Constant was given large ilberty of action, the steps he has taken being in the main toward has-tening a favorable decision. The officials continue to regard the

question as largely commercial, although they are seeking to assist French in-terests. They state positively that the question does not involve political com-

Germany Getting Solid With Turkey. WASHINGTON, Feb. 8-1: Is known that the French government has for a long time been concerned over the in-creasing activity of German interests in the Ottoman Empire, and Germany's lat-est victory in securing the contract for the rearmament of the Turkish artillery which in the opinion of some are due to the growing intimacy of the Berlin government with the Porte.

Company of The Dalles, was due to sub-ornation of perjury alleged to have been accomplished on January 15.

It is alleged in the indictment that Hendricks procured George W. Hawks and Clyde Brown, on January 15, in Wheeler County, to appear before the Grand Jury and swear that they had taken up portions of land in Wheeler County for their own use and benefit, and not with the view of selling or transfernot with the view of selling or transfering them to any company, individual of corporation for any compensation; that the transaction was not a speculation; that the homesteaders did not take the land under contract to sell or transfer it to another for a consideration. This tes timony was given before the grand jury on January 3, 1966. This indictment is the outcome in part

of the long-drawn-out investigation into the workings of the Butte Creek Land Company. It is said that many other indictments will be returned, some of them covering similar ground while others will have to do with the dealings of the com-

pany, but in a different way.

This Butte Creek Company is Wheeler County corporation, which is alleged to have intimidated settlers, to have fenced in thousands of acres of Government land to the exclusion of those who yould wish to lawfully use it or acquire part of it, and to have secured many claims through fraudulent practices

Meldrum and Others Charged. Henry Meldrum is indicted with George r, former chief cierk in his offi David W. Kinnaird, examiner of surveys; Rufus S. Moore, a land surveyor, and John W. Hamaker and Frank J. Van Winkle, two notaries, for having entered into a conspiracy on or about April 18,

defraud the Government by raudulent surveys.
It is alleged in this indictment that the defendants took advantage of the fact that there had been filed in the office of the Surveyor-General a number of false and forged applications for survey. These applications purported to be requests from settlers in good faith that the lands upon which they were living be surveyed, but it is slieged that the defendants knew that the lands were arid and uninhabited, it is alleged that in pursuance of this

conspiracy charged, and with the knowledge that the applications were false and forged. Henry Meldrum let the contract for the survey of the lands to Rufus S Moore, as a deputy surveyor. It is further alleged that George E. Waggoner, in pursuance of the conspiracy, drew up a con-tract on April 18, 1902, at Portland, which was signed by Henry Meldrum, and later, on April 27, 1902, by Rufus S. Moore, in Klamath Falls. It is further alleged that Rufus S

Moore, on November 9, 1904, at Klamath Falls, made out his account against the Government for having done the work in the sum of \$3754.85.

### Brownell Indictment Amended.

The fourth indictment, that against George C. Brownell, for subornation of perjury, which was returned yesterday, was an amendatory document substan-tially the same as the previous charge returned a week ago. It was thought wise to make a slight change in the wording of the paper on technical grounds, though the charge and the facts alleged were exactly the same.

It is rumored that the grand jury will

not keep quiet for the rest of the week, but that other indictments will be returned today, perhaps of a more sensa-tional nature than those of yesterday. The examination of the witnesses here to the grand jury on January 31, 1965, tion with the land frauds is progressing and many persons are now in the city to appear before the jury. It is thought, however, that there will be time for the the rearmament of the Turkish artillery is looked upon as the culmination of a series of German triumphs in Turkey, which in the online of some are due of the week, or Monday at the latest, may docket well cleaned up and the jury ready for adjournment.

ness Pinero's Charming Comedy. The best proof of the real worth of a play is the fact that the size of audiences increases every night as the week goes "Sweet Lavender" at the Columbia week had a very good Monday night audience, followed Tuesday by an unusu ally well-filled house and Wednesday night there was not a seat to be had on the lower floor. This increasing popular-ity can be due to but one thing, and that is the great beauty and drawing power of the play. "Sweet Lavender," with all its tenderness and pathos, its bright and clever comedy, appeals directly to everyone, and the universal comment as the large houses file out of the theater at the close of the last act is that it is one of the best plays ever seen at the Columbia. Miss Countiss, arrayed in dainty, chic gowns, has a light comedy part in which she is especially delight-ful. Howard Gould, the immensely popu-lar new leading man, has a part re-sembling his great work in "Puddin' Head Wilson" last season, and has made an immense bit this week, while dainty little Fay Wallace, as Lavender, has simply won the army of Columbia patrons with her sweet and naive ways and pretty face. "Sweet Lavender" will continue until Saturday night, after which it will give way to "Quo Vadis."

"Niagara Falls" at Empire. The mechanical effects, the mountings and the scenery of "Over Niagara Falls" are all of a high character, the cast is large and made up of most capable players, and it is a pleasure to note that Portland theatergoers are cognizant of this fact. Last night's audience was the largest Tuesday night assemblage since "The Show Girl" danced and frolicked at the Empire. "Over Niagara Falls" will be the bill for the entire week, including a matinee next Saturday.

### ADMITS BREAKING LAND LAWS Witness in Civil Suit Testifies He Made False Affidavit.

As the result of a suit brought by O. M. Stafford, a timber cruiser, against Will; iam Isensee for the recovery of \$100, alleged to be due the former for service rendered in locating a timber claim in Lewis County, it developed that the defendant had filed upon the land without first having visited the land and ascer-taining the nature of the claim, all of which is contrary to the Federal statutes. The trial was held before Judge Sears, of the Circuit Court, and it was while Isensee was testifying in his own behalf

that he admitted having subscribed false-ly to an affidavit in the United States Land Office at Vancouver, Wash, Stafford first took the witness stand and re-lated the story of an agreement between the defendant and himself that Isensee pay the sum of \$150 for information of the claim about to be located. Of the amount alleged to be due \$50 was paid at the time, but the defendant has since re-fused to pay the balance, it is said. Stafford also testified that the claim was worth at least \$2000, and in this he was corroborated by Edward Turney and other witnesses.

Isensee told the court that, after filing his claim at the Land Office, he visited the land and discovered it to be worth-less. This was also the story of Julius Bremer and Charles Merritt, who admitted that they had taken some of Uncle Sam's timber land without first having visited it, and later had discovered that they had been taken in by the cruiser.

Judge Sears took the case under advise and will render a decision at a later date.

NOMIA CHARTERED BY PACIFIC EXPORT COMPANY.

Disengaged Fleet in Portland Reduced to Two Vessels-Bids for Construction of Steamer.

The German bark Nomia, which has been in port since September 29, was chartered yesterday by the Pacific Export Lumber Company to carry a cargo of lumber to China. Her engagement leaves but two unchartered vessels in the harbor, the Dumfriesshire and the Caristel. since August 29, the latter arriving

wo weeks ago. The fixing of the Nomia for lumber business adds a fourth vessel to the fleet of foreign sailers taking cargo at the lumber docks here and makes the ninth craft of this kind chartered for this purpose since July last. The opening afforded by the foreign lum-ber demand and the lack of steamers has given employment to these ships which otherwise would have been compelled to lie up until next season. for not enough grain was exported to give them all charters. The fleet of what is classed as graincarriers which have sailed with lumber or are preparing to sall will take out from her omething over 16,000,000 feet of this Oregon product. The vessels and their cargoes are as follows, the last four still being in pert:

German ship Elfrieda.
British ship Durbridge.
British ship Hampton.
German bark Anna.
British ship Fairport.
German ship Carl.
British bark Holt Hill.
British ship Oweenee....
German bark Nomia.

It is not probable that the two ships remaining on the disengaged list will be taken for grain loading, as the freight market is so low that nothing but a subsidized French vessel could do business on a 14s rate. It is understood that a grain cargo is here awaiting shipment, but the difficulty to be to find a vessel to transport it.

### TESTS RIGHT OF HOMESTEADER Suit Filed Involving Right to Make Two Land Entries.

A suit involving the right to take up two parcels of Government land was filed in the United States Court yesterday with George W. Jones plaintiff and Charles E. Hoover, defendant,

The complaint filed by Jones alleges that under the act of Congress which provided for the allotment of lands to the Indians residing upon the Umatilla reservation and which further provided that upon the establishment of the new boundary lines the residue of the reservation should be appraised and classifie into timber and untimbered lands and sold to settlers, he, the plaintiff, took up and bought from the Government through the La Grande Land Office a tract of land under such act. It appears that after settling on this tract his right to it was contested by the defendant, who alleged that the plainiff had before settled upon Government land,

The contest case was appealed to the then Commissioner of the General Land Office, Binger Hermann, who decided in favor of the contestant, Charles E. Hoover, which decision was later sustained by the Secretary of the Interior. Mr. Jones is now trying to secure po-session of his land through the courts.

Lake Steamers Frozen In at Chicago. CHICAGO, Feb. 8.-Two passenger steamers plying between Chicago and Milwaukee are fast in the ice off the entrance to the Chicago river. Both vessels have a number of passengers aboard, but it is asserted that there is no danger of an accident to either boat.

# **HEAD SOLID SORE**

Awful Suffering of Baby and Sleepless Nights of Mother.

# BY CUTICURA

Skin Fair as a Lily with no Scar to Recall Awful Sore Writes Mother.

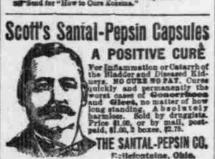

"I herewith write out in full the beginning and end of that terrible disease eczema," says Mrs. Wm. Ryer, Elk River, Minn., "which caused my babe untold suffering and myself many sleepless nights. My babe was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in course of time broke. It did not heal but grew worse, and the sore spread from the size of a dime to that of a dollar. I used all kinds of reme-dies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuticura Soap and

Ointment right away. "To please him I did so, and to my surprise by their use the sore began to heal over, the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily, and she has no scar left to recall that awful sore, and it is over eight months and no sign of its returning."

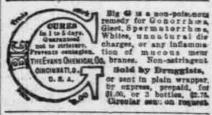

# CURE PERMANENT

"Your letter of the 19th inst. received, asking in regard to the cure of my baby some six years ago. the disease has never returned to he head which at that time was a solid sore on top and down the back.' MRS. WM. RYER, Elk River, Minn.

Columbus, Ohio, May 20, 1903 Six years ago I had a severe attack matory Rheumatism. I was laid up in hed for six months, and the doctors I had did me no good. They changed medicines every week and nothing they pre-scribed seemed to help me. Finally I be-gan the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time my joints were so swollen and pain-ful that I could not close them when opened. I was so bad that I could not move knee or foot. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and to-day I am a sound well man and have never had a return of the disease. S. S. S. purified my blood and cured me of this severe case of Rheumatism after everything else had failed. I have reccommended it to others with good re-R. H. CHAPMAN.

The poisonous acids that produce the inmation and pain are absorbed into the blood and Rheumatism can never be conquered till these are neutralized and filtered out of the blood and system. S. S. S. goes directly into the circulation and attacks the disease itself. It purifies and restores the blood to a healthy, vigorous condition. It contains no potash, alkali or

other strong minerals, but is guaranteed entirely vegetable. Write us and our physicians will advise without any Our book on Rheumatism sent free. The Swift Specific Company, Atlanta, Ga.
