THE MORNING OREGONIAN, THURSDAY, FEBRUARY 9, 1905.

Utah Senator Objects to Appearance of Deal for Annexation of Part of Arizona-Bill May Be Recalled for Correction.

WASHINGTON, Feb. 8 .- The Senate today received from Kearns a disclaimer of the vote in favor of separate statehood for New Mexico, with which the records for yesterday credited him. He said that he had been misunderstood by the clerks and that he had voted against the provision. Several Senators corroborated his statement, but a number asserted that they had understood him to vote for the amendment.

Immediately after the openin, prayer Kearns took the floor and said:

"I rise to a question of personal privilege. In the first vote on the amendment of the Senator from California (Bard), last evening, I voted 'nay" in a distinct manner. It appears hay in a distinct manner. It appears the clerk misunderstood me, and I was numbered among those favoring the amendment. My colleague called my attention to the error, and I was on the point of correcting it, when it was suggested I could do so on the vote to concur in the amendment before the final passage of the bill, in case the amendment should be adopted. This course I pursued.

"The seriousness of this matter did not impress itself upon me until this morning, when I read in the public press the statement that I had voted for the amendment that I had voted for the amendment in order that I might force the managers of the bill to accept my amendment ceding the Arizona strip to Utah. This I deny in

the most positive manner. Such a pro-ceeding I would not countenance nor be a party to. My word had been given the managers of the bill that I would support their measure, and I would not have played them faise for the

hole territory of Arizona. "If this be the proper time, Mr. President. I desire to have the record corrected as far as it relates to my vote upon the amendment of the Senator California in accordance with this statement.

The statement had the effect of bringing a number of Senators to their feet and of calling out from them a num-ber of statements as to their understanding of the Utah Senator's vote. The first of these was made by Nelson, who sits near Kearns in the Senate, and said:

"I was sitting near the Senator from Utah when he voted, and heard him vote 'no' distinctly." He added the conviction that all the other Senators slitting near had heard as he did. On the other hand, Foraker, sitting somewhat further away, received an opposite impression. He said that he had been keeping a tally and had distinctly heard Kearns' vote in the affirmative. "It was a clear aye," he said, "and I found that other Senators sitting near me received the same impression." Other Senators sustaining Nelson's view were Quarles, Clapp, Kittredge, Mc-Comas, Scott and Dubois, while Gallinger, Hansbrough, Clay and Gorman stat-ed that, they had heard the vote in the affirmative, and expressed the conviction that the record of the clerk was justified. Gorman made the point that Kearns had allowed the opportunity afforded him yesterday to correct his vote to lapse, and said that all the Senators sitting

about him had understood Kearns to vote as recorded. Hale also took the view that Kearas should have made his correction yesterday. He said that after the rollcall been read aloud and that it conceivable that every Senator did not watch the reading of the vote on a close ballot like that of yesterday to see that he was correctly recorded. At 1:55 P. M., when the Senate returned to its own chamber, Bacon took the floor on a point of order concerning the status of Kearns' amendment for the annexation of a part of Arizona to Utah. He said that the bill as prepared for transmission to the House includes that amendment. while he contended that that provision had gone out with the other provisions relating to Arizona and New Mexico un-

TWO ASSASSINS WERE FRIENDS

Hohenthal Approved Schaumann's Deed but Condemned His Suicide.

HELSINGFORS, Finland, Feb. 8 .- A mection between the assassination of Governor-General Bobrikoff of Finland in June last by Eugene Schaumann and Procurator-General of Finland Solninen last Monday by Karl Hohenthal has been established, it being learned that Schau-mann and Hohenthal lived at the same boarding-house and were warm friends Hohenthal approved generally of Schaumann's deed, but confided to an acquaint. ance that he was of the opinion that it was not very manly to commit suicide afterwards, considering it was Schau, mann's duty to "face the music," in such a case, if unable to escape. The report that Hohenthal took poison

before entering the late Producator-Gen-eral's apartments does not accord with this view, and the cool manner in which he reloaded his pistol, as later established, and exchanged shots with Solninen's son and a detective speaks volumes for his determination. So many shots were fired in little more than a minute that the apartment was filled with smoke

Three Killed by Dynamite Explosion in Michigan.

CALUMET, Mich., Feb. 8 .- Ten thou sand pounds of dynamite stored underground in a magazine at the eighth level of No. 2 shaft of the North Kearsarge branch of the Osceola Consolidated mine exploded today, killing several men, three of whom have been accounted for, and injuring many others. The force of the explosion was felt for miles around, and men working in other portions of the mine some miles distant were knocked down by the explosion.

The cause of the disaster is shrouded in mystery and may never be discovered, as William Pollit, Jr., who was in charge of the powder, was probably blown into thousands of pieces, no trace of him having been found up to this hour. The list of the known dead: WILLIAM POLLIT, JR., in charge of

could have forced the authorities to make far-reaching concessions.

The masters themselves are still not united. Many of them oppose conces-sions, fearing that it will handlcap them in competition with the mills of Moscor and St. Petersburg, where wages already are lower than at Lodz and the hours of work longer.

It is reported that the strikers have de cided to resort to serious violence in case the mills are closed. Everything is quiet here today.

TO CARRY STATEHOOD IN HOUSE

Democrats Claim Enough Republican Votes to Make Majority.

WASHINGTON, Feb. 8 .- The statehood as it passed the Senate did not reach the House today, as was expected. Nev ertheless there has been lively work in that body on the part of the friends and opponents of the measure in its new form. When the bill is received it will be re-ferred to the committee on territories. There is little doubt that this committee will ask for a conference. Should this occur the advocates of the measure in its present form will demand a vote on a motion to concur in all of the Benate amendments

It is understood the Democrats of the House will support this motion and the claim is made tonight that at least 27 Republicans have been secured to support it also. This would insure co rence, so that the remaining step in the statehood plan would simply be the signature of the President to make the bill a law.

FAVORS ARBITRATION TREATIES

Senate Committee , opts Amendments to Meet Southern Objections.

WASHINGTON, Feb. 8 .- The Senate committee on foreign relations by una report on the arbitration treaties between the United States and several foreign governments. An amendment was adopt-ed providing for the submission to the Senate of each claim to be arbitrated under the treaties.

treaties are with Great Britain, Portugal, France, Switzerland, Germany, Italy, Spain and Austro-Hungary. They have been before the Scnate throughout the entire session. Southern Senators opposed the treaties on the ground that it was believed they would permit the arbitration of claims held against South-ern States by reason of bonds issued after the Civil War, and Senator Bacon offered two amendments, which had been adopted by the Senate in the Oiney-Paumoefote reciprocity treaty with Great Britain. These amendments provided tilat matters affecting the rights of any state should not be arbitrated and that question to be arbitrated should, first be submitted to the Senate.

The people of Norway were animated by a desire to continue the good inderstanding with neighboring nations, but the present conditions of the union are undesirable and caunot continue vithout endangering these relations,

It was the duty, he said, of the Storio-ng to make an unrestricted provision for the assumption by Norway of the national and international position to which she is ntitled as a sovereign state, and more free working forms of co-operation must be considered, if the existing bonds of union between Sweden and Norway ar

Danger of Renewal of General Strike in St. Petersburg.

ST. PETERSBURG, Feb. 9 (2 A. M.)-A partial strike at the Putiloff Iron orks and the complete tleup of the St. Petersburg car factory gave rise to rumors yesterday of a general recrudescence of the strike movement here, but the strike has not extended to other establishments and the success of the managers of the Putiloff works in preventing the great body of workmen from follow ing the example of their comrades in two of the shops, who had walked out, gives basis for hope of an amicable settles The present trouble involves the questions of pay for the time the men were out on strike and the eight-hour day, which were discussed at a meeting of em-

ployers last night. The employers came to no absolute decision, but determined to adopt a con-cillatory attitude. They probably will concede a nine-hour day, which will satisfy the employee, pending general legis-lation on the matter of an eight-hour day, which will be binding upon employers throughout Russia. At present six government factories and 13 private estab-lishments are working 57 hours or less weekly, and 28 other large enterprises

nore than 57 hours, The question of allowance for time on strike is not so casy of settlement. Some works, including the American Westinghouse Company, have voluntarily paid their men for the whole week they did not work, but several large establishments, including the St. Petersburg car factory and the Putiloff Iron Works, refused to do so, claiming that it would swallow up most of their yearly profits. The Putiloff works, where the strike

originated and was of double duration, would be especially hard hit, as the strike payroll would amount to \$130,000. The St. Petersburg car factory already has paid three days, but is unwilling to con more.

Governor-General Trepoff does not wish to interfere, this question being purely economic, but he has intimated to the nasters that it is desirable that they reach a settlement with their men. It is hoped, in view of the conciliatory attitude of the masters and the apparent readiness of the men to listen to argu-

ments, that another crisis will be avoided. DEADLOCK IN STRIKE AT LODZ
