Polish Strikers Shot Down by Repeated Volleys.

CONFLICT AT SEVERAL TOWNS

Workmen Try to Enforce Strike, but Are Driven Off With Deadly Fire -Renewed in St. Petersburg With New Demands.

BERLIN, Feb. 11.—According to press dispatches from Kattowitz. Russian Poland, a collision occurred between 15,000 strikers and the military at the Russian station of Skarzysko, in which 24 strikers were killed and 40 wounded. The mili-tary, it is also reported, fired on strikers at Ostrowicz, but the casualties are not

The Lokal Anzeiger's Warraw dispatch gives the number of strikers killed at Lodz on Thursday as 19, wounded 112. These figures apply to only part of the disturbances. The sharpest fight took place before the factory of the Schiedler Com-pany, the number of strikers killed or wounded not being reported. Two soldiers and one detective were killed.

A strike is expected to break out on the Warsaw & Vienna Railway.

"A dispatch from Somovic says: "A procession of strikers from Seagorge gong to Sielce, where a demonstration had planned, was dispersed by the mili-who freely used their swords and whips. Troops continue to arrive in large numbers. The strikers have called a great mass meeting for Sunday, which it is feared will cause trouble."

charge of the electrical machinery there join in the strike. A company of soldlers intervened and a Polish officer repeatedly called upon the people to disperse. They refused to leave unless they were accompanied by the workmen,

It is said that a rioter menaced the fficer with a knife, whereupon he gave the order to fire, with the result that 28 persons, including a high school pupil who was passing, fell dead and 26 were severely wounded. The wounded were removed to a hospital, where soven of them have died. A number of others were eligitaly wounded. Many were wounded n the back, and evidently they were trying to escape, A large quantity of dynamite has been

stolen from the explosive stores of the Casimir mines, it is supposed by strikers.

RONWORKERS ARE OUT AGAIN rike Breaks Out and Rapidly Spreads in St. Petersburg.

ST. PETERSBURG, Feb. 16.-The ap prehension of further promble with the strikers was partially justified today, when the whole of the workmen of the when the whole of the workmen of the Puttloff Iron Works and those of the Franco-Russian Works struck because the directors were unable to premise them a work day of eight hours. The men at the buttleft Iron Works poured out the story of their gelevances to the next supply correspondents and the polleomen standing by did not interface. Putlied Works, who restered a mnounced their intention of trying to enforce an eight-hour day, reported at 7 octock, worked an hour, and then demanded to see the director of the works, who conferred with the men's delegates. The latter demanded eight hours, no discrimina-tion against the promoters of the recent tion against the promoters of the recent strike and pay for the week's strike. The director declared he was unable to accede of the dir to the detrands, and thereupon 12,000 men of the Puriloff Works went out. The employes of the Franco-Russian

Works took similar action. In both cases the men marched out quietly and formed ups in the streets. The troops continue to assure the maintenance of order at the Putiloff and Fran-

o-Hussian Works and at the other fac-

Rumors were rife yesterday evening that the men would go out in several large factories, and three English mills decided in view of the gravity of the sit-uation to grant all their employes' demands, including an eight-hour day, incision was condemned by the majority of the employers, but the Englishmen pointed out that it was not advisable to wait until the machinery of the level of the l intil the machinery of the law for forming the conditions of labor had been

set in motion.

Minister of Finance Kokovsoff has sumoned a conference of factory inspectors for February 28, to discuss state lusur-ance, hours of labor, medical aid and labor unions. A proposal of the Minister that the manufacturers hold a similar conference was refused.

Some 5000 of the Putiloff works strikers later traversed the streets with the object of stopping work at other factories, but troops barred their progress on the Zaballanski Prospect, and the strikers then dispersed.

were also some unsuccessful at-

Within a few hours the strike had extended to half a dozen large establishments within a radius of a couple of miles of the Putiloff works. It is esti-mated at this hour that all together 30,-000 have gone out. The strike has not yet extended to the other metropolitan dis-tricts. The Putiloff strikers are quiet. The police continue to allow them to gather in groups in the streets. They also hold meetings in the fields.

A few thousand strikers evaded the troops and marched through side streets towards Nyberg quarter, in order to induce men in the factories there to come out, but the troops barred the way and dispersed the crowd.

The strikers are greatly incensed against Manager Smirnoff, of the Putiloff Iron Works, whom they accuse of cut-ting down wages. M. Smirnoff's residence inside the works is strongly guarded, a company of the Preobrajensky Regiment and 100 police being on duty there.

OUT AGAIN IN ST. PETERSBURG

Being Refused Eight-Hour Day, 30,-

000 Workmen Strike. ST. PETERSBURG, Feb. 10-(II P. M.)-St. Petersburg is again face to face with a renewal of the labor upheaval, the nediate incitement being the fallure of the workmen to secure payment for the time they were out on strike, added to the fact that there has been no adjustnt of the demands which led to the

The Putlloff Iron Works, where the already out within the metropolitan disand the workmen at the torpedo factory in Kolpino, 18 miles distant, have joined the strikers. There is a strong prospect of the movement extending. Only energetic measures by the troops and police prevented the resumption tomarching from factory to factory, and or compelling employes to lay

been no disorder in St. Petersburg, and the authorities appear to have the situ-ation well in hard in this respect. It is generally believed that such precau tions have been taken as will preclude the repetition of the bloodshed of Janu-

However, circumstantial reports that the revolutionary element is about to join with the strikers and resort to bomb-

ion with the strikers and resort to bomb-throwing are causing apprehension.

The workmen today held a number of orderly meetings in open fields, and big assemblages are scheduled for tomorrow. Sunday will be the crucial time. The position of the workmen is distinctly, weaker than it was three weeks ago, for they are without money, while the authorities are not repeating the mistake of underestimating the gravity of the of underestimating the gravity of the movement or neglecting precautions. Father Gopon's organization still exists, but secretly, and it is less effective.

On the other hand, the employers realize the importance of a prompt settlement of the workmen's grievances, but have allowed weeks to slip by without deciding on combined action. A few have made concessions, but the majority have referred. have refused, asserting that to allow the demands of the workmen would mean bankruptcy for the employers and they have resigned themselves of the care of the Government. They appear to think the Government is trying to make them shoulder the onus of settling a political difficulty and have appointed a committee to draw up a memorial to Finance Min-lster Kokovoff setting forth the position that the Government's persistent effort to conciliate the men has not borne the expected fruit and that the anger caused by the events of January 22 has been augmented by the delay in settling their

grievances. Reports from many factories show that the hands are ripe for trouble and are likely to strike

Father Gopon's organization is reported to have appointed 23 delegates to request Governor-General Trepoff to per-mit the workmen to send another repre-sentative delegation to see the Emperor and present a programme of labor re-forms, and in case of refusal of this re-quest to repeat the attempt to march to the Palace Square. But there is no confirmation of this report, and it is doubtful whether the men can be induced to re-enact their part in the tragedy

of January 22 The dispute at the Putiloff Iron Works centers on the question of hours. The men since the resumption of work there have been quitting at the end of cipit hours. The manager offered a propor-tionate reduction of their pay, and yes-SOSNOVIC Feb. 16.—On Thursday a meb invaded the yard of the Kathrinen works, demanding that the workmen in charge of the electrical machinery there delivered their nitimatum of eight hours with no reduction of wages. palyes of the chemical works and a signr factory to join them, and the ear works and other establishments in the neigh-borhood are already tide.

The accessions to the ranks of the strikers have reduced to idleness the en-tire region between the Moscow and Narva cutes except the Busing American Narva gates except the Russo-American Rubber Works and one other factory. The scenes in the vicinity resemble those of the trouble some time in January. Strong forces of Cossacks and mounted police during the day trotted about the points during the day trouted about the strike region or stood at case beside their horses at points where trouble was experied, and infantry and marines pledded grout the reads. Strong guards at the principal roads powtented strikers from passing out in bodies to proscipte the workmen of other quarters.

of the killing of police cpies are current, but the strikers themselves profess ig-norance of any such affairs. A police-man, who has been for many years on the Putlloff beat, confessed today that he had never seen the men in such an ugly mood, for which he blamed students, he said, are inciting them to at-

tack the works. Student demonstrations in the Nevsky prospect, in evidence of their refusal to resume their studies until reforms are instituted, forebode the active participa-tion of students in the present strike. While the workmen in the Putiloff quarter were resorting to a strike to settle their grievances, the employes in

Troops Fire on Mob Which Demands Pay-More Trouble Threatened.

LODZ, Feb. 10.-Conflict between troops and strikers took place here this afternoon. According to one report, atrikers fired on a detachment of soldlers from windows, and the latter then fired a volley into the crowd in the streets. other report says one striker was killed and four wounded. Other persistent reports estimate the number of killed at 20 and say that 50 were wounded. The contempts to force an entrance into fac- flict occurred at Louis Geyer's factory, where troops were lined up to prevent the men from entering to demand their pay. The strikers generally are enraged at the refusal of other manufacturers to give them their pay, and several encounters between mobs and troops are reported from different directions. A number of people were said to have been wounded. The greatest alarm prevails here. The shops were closed early this afternoon and the windows were boarded up. The whole district is constantly patrolled by horse guards and Cossacks, lesserves are held ready near the Narva that unless they return to work February The manufacturers today agreed on an It is reported that the Socialist organi-

Today the strikers are clamoring for another installment. The Governor has issued an order prohibiting further payments, and sent troops to one factory today to prevent the men from approaching the premises. STERLING VALUES FOR SATURDAY SHOPPERS

MARK THE CLOSE OF THE ANNUAL INVENTORY SALES AT THIS STORE

Three things especially distinguish the Greater Olds, Wortman & King Stores -plent; of light, the utmost personal safety in shopping, and an abundance of fresh air. Cheerfulness and good health rank above sales in this establishment. We have provided in our fireproof steel building every modern convenience to assure absolute personal safety, regardless of expense or architectural show-human life is more precious than mercantile profit. This is a "Daylight Store," also, because we are satisfied to do all selling in the daytime. Night storekeeping savors of the old "corner grocery" of ante-bellum days, where villagers gathered for gossip about their neighbors and spitting tobacco saliva on a much-abused old stove, rather than for business. The foremost merchants of America discountenance the antediluvian custom today. We are of that class. We believe that we can serve our patrons to their entire satisfaction during regular business hours, and shall not impose unnecessary hardships upon our employes by keeping open any evening after 6 o'clock, merely for our own gain. Therefore we urge our great public to do today's shopping BEFORE 6 P. M.

A few printed advantages of shopping before the close of INVENTORY SALES, tonight at 6 P. M .- mere examples of thousands that go unmentioned in the store news.
