

HEARD BY EMPEROR

Kossuth Tells Object of Victorious Hungarian Party.

LOYALTY TO THE HAPSBURGS

Demand of the Patriot Receives Close Attention as He Maps Out Plan for Independence of Country From Austria.

VIENNA, Feb. 12.—Francis Kossuth, the leader of the independence party in the Hungarian Parliament, was received by the Emperor-King and discussed with His Majesty the political situation and Cabinet crisis in Hungary arising from the coalition of the various minor parties in Hungary with the independence party and the sweeping victory at the polls in Hungary, January 21, which resulted in placing the unopposed opposition parties in control of the lower house of the Hungarian Parliament.

Mr. Kossuth declared that it is impossible to continue Hungary without the aid of the united opposition party. He expressed his views on the Emperor's visit to Budapest, where he will confer with other Hungarian leaders, will do much to help find the solution.

Mr. Kossuth declared that he came to Vienna with the purpose and in the hope of concluding the "Zemlind" treaty, which exists in Hungary, designed to separate the interests of Hungary from those of the House of Hapsburg; that the independence party is loyal, and that Hungary would henceforth be free to develop the dynasty if it were permitted to have free and untrammelled development. He says further that when the independence party's programme is realized all differences between Austria and Hungary will disappear.

The development and strengthening of Hungary as a nation would, said Kossuth, increase the security of the King's throne and in future the independence party and the House of Hapsburg would be closely interwoven through mutual understanding.

Mr. Kossuth's interview with Emperor Francis Joseph is regarded in Austria and Hungary as an historical event, because it is believed it will actually lead to closer relations between the House of Hapsburg and those Hungarians who are opposed to the existing double form of government. The prospects of the independence party's programme are now brighter than ever.

Mr. Kossuth's interview with Emperor Francis Joseph is regarded in Austria and Hungary as an historical event, because it is believed it will actually lead to closer relations between the House of Hapsburg and those Hungarians who are opposed to the existing double form of government. The prospects of the independence party's programme are now brighter than ever.

The Hungarian Parliament, which was elected on January 28, held its opening session on February 17, but in the event that no Cabinet shall have been appointed by that time the session necessarily will be postponed.

Mr. Kossuth's explanations have made a good impression in Vienna, and particularly in certain Austrian circles, where there are entertained regarding supposed revolutionary tendencies of the independence party. In the future relations between Austria and Hungary Mr. Kossuth undoubtedly will play an important part.

When Herr Kossuth drove this morning to the imperial palace the streets through which he passed were crowded with people interestedly watching the historical action of a former revolutionist entering the Viennese Hapsburg residence of the same Emperor who condemned Louis Kossuth, the father of Francis, to death in effigy by Austrian authority.

A few weeks ago would have been considered impossible.

REVIVALIST STIRRING LONDON

Thousands Are Turned Away, and All Classes Are Being Reached.

LONDON, Feb. 12.—The Torrey-Alexander revival rather hung fire in London in the beginning of the week, but the latter days of the week have brought crowded audiences. Tonight Albert Hall was packed and fully 10,000 persons were turned away.

All classes from the highest to the lowest are being reached by these revival movements. One of the conversions reported was that of an army Colonel.

Lord Lincoln is very active in the work and others who are particularly tag are Lord and Lady Wimborne, Lord Overton, the Bishop of Bloniden and the Dean of Ripon.

Alexander's revival songs are beginning to be heard in the streets.

Fighting for a Princess.

FLORENCE, Feb. 12.—The Countess Montignoso has been victorious in the first stage of her struggle with the King of Saxony, her former husband, to have her daughter removed from her care, and for the present, at least, the child will remain where she is. The lawyers of the Countess, after a meeting with Dr. Kovertz, the minister of the King of Saxony, declared that orders of foreign authorities cannot be executed in Italy, and that the case will have to be tried first in the courts of law.

The lawyers assert that even should the King of Saxony be victorious in the courts, there would be difficulty in enforcing a decree taking the child from her mother.

Republicans Strong in Lisbon.

LISBON, Feb. 12.—The general elections, which were held today resulted in a large Ministerial majority being returned. The Republicans obtained a majority in Lisbon City, but Ministerial successes in the surrounding districts and some in the capital gave the latter an absolute preponderance.

Reserves to Be Called Out.

LONDON, Feb. 12.—Special dispatches from Constantinople report that the Minister of War has decided to call out all the reserves in Macedonia in anticipation of an insurrection in the Spring.

Made Warden of Cinque Ports.

LONDON, Feb. 12.—King Edward has appointed the Prince of Wales Lord Warden of the Cinque Ports, in succession to Lord Curzon of Kedleston; but in future Walter Castle, instead of being the warden's residence, will be thrown open to the public.

COLDEST IN YEARS

Great Suffering Among the Poor of Oklahoma.

NEGRO IS FROZEN TO DEATH

High Wind in Kansas Piles Cuts Full of Snow, Resulting in Accidents—Danger of a Coal Famine.

KANSAS CITY, Feb. 12.—The coldest weather in years prevails in this section tonight. At Kansas City it was 3 degrees below zero; at Concordia, Kan., 22 below; at Lawton, Okla., 6 below; and at Tulsa, I. T., 40 below.

In Oklahoma and Indian Territory the weather is the coldest since 1888, and there is much suffering among the poor, who were caught unprepared. Cattle also are suffering.

Great anxiety is felt for the Indian tribes, who are in no condition to withstand the storm, and experts say that dozens of them will die as a result of the blizzard.

A negro froze to death at Fredonia, Okla., and a Comanche Indian succumbed to the cold near Lawton.

Railroad traffic is impeded in Kansas by the high wind, which has piled the snow in the railroad cuts. Most passenger trains are using double headers, and freight trains are carrying only non-perishable freight.

The West-bound Santa Fe through passenger train No. 5 today collided with a freight train which was stuck in a snow-drift near Newton, Kan. One engineer was hurt and both engines smashed, but no passengers were injured.

At Ottawa, Kan., where it is 11 below, coal famine is threatened. The drain upon dealers because of stocks of intensely cold weather has depleted stocks, and the mines in that vicinity are unable to fill orders because the railway is practically tied up with snow.

INTENSE COLD IN COLORADO

Below-Zero Weather Clear Down to the Mexican Border.

DENVER, Feb. 12.—Reports of intense cold, accompanied by snow, from Colorado, Wyoming and New Mexico. In Southern Colorado and Northern New Mexico, the worst storm since 1888 is raging. In New Mexico the storm reached the proportions of a blizzard and great damage to stock is reported. In the southern part of New Mexico, where cold weather is rare, the zero mark was reached at certain points.

The cold snap which has prevailed on the eastern slope of the mountains in Colorado for several days, is feared, last night, the thermometer dropping to 27 below zero in Denver at 6 o'clock this morning. The cold also penetrated the western slope tonight, and Telluride reports 20 below.

At Fort Collins, in the northern section of Colorado, 22 degrees below was registered today, and at Montrose, on the divide south of Colorado Springs, it was 20 below. At Twin Lakes, near Leadville, 22 below was reported.

In Wyoming the cold has not abated and much loss to livestock is feared, will result. Railroad traffic in all directions is seriously impeded, and telegraph and telephone wires are being snapped by the cold.

Peter Casagrande and Rudolph Sarchetti, Austrian miners, lost their lives today in a snowslide at Irene, seven miles from Silverton, Colo. They were snowed out of the mountain property, and are avalanche swept down upon them, burying them deep in the snow. The cabin in which the men lived was crushed, and with difficulty rescued. One was killed, and an effort is being made to recover the bodies of the victims of the avalanche. They were unmarried.

CARRIED AWAY BY ICE GORGE

Ohio River Steamer and a Number of Barges May Be a Total Loss.

CINCINNATI, Feb. 12.—Half a million dollars' worth of property was placed in jeopardy, one steamer carried down the river in the ice, 150 barges left loose and sent down the river and several other steamers seriously damaged today from the breakup of the ice gorges at this point in the Ohio River.

The steamer New South, one of the best boats on the river, was torn from her moorings and carried down the river in the ice. She is lodged in the ice pack and may prove a total loss.

A rise of ten feet in the river which occurred during the day by the resurgency of ice at a point farther down the river, the steamer Bonanza out of the water on shore near the foot of Main street, where she is in a bad condition.

At least 150 barges of them loaded with coal, were caught in the ice and have gone down the river, probably all being a total loss.

DERAILED IN THE STORM.

Engineer is Killed and Four of the Crew Are Scalded.

OMAHA, Feb. 12.—Sixteen degrees below zero was recorded here tonight, with a prospect for lower temperature before morning. Reports from over Nebraska and Western Iowa indicate a similar severe condition of temperature.

Railway trains in all directions have been badly delayed. Westbound Burlington passenger No. 42 was stuck in the drifts near Seward, Mo., for 11 hours. The passengers had many instances were without food. Later the train was sent back to Lincoln, headed by a snowplow.

Near Creston, Ia., a passenger train drawn by two engines on the Burlington road was derailed. Engineer E. P. Allen, of Lincoln, Neb., was killed and four members of the crew were scalded. The passenger coaches did not leave the rails and no passengers were injured.

ICE FIELDS ARE BROKEN UP

British Schooner Carried Ashore in Vineyard Haven.

VINEYARD HAVEN, Mass., Feb. 12.—The expected break-up of the great ice field at the head of the harbor, in which several schooners had been held fast for more than two weeks, began this morning, when a portion of the field broke away and carried ashore the British schooner Greta, from New London, Conn., to St. John, N. B.

All the wharves on the west side of the harbor with the exception of the steamboat wharf were demolished.

At 2 o'clock a high southerly gale prevailed, with considerably warmer weather, and it was expected that the remainder of the field with other ice-bound schooners would start.

Rain Freezes on the Rails.

NEW YORK, Feb. 12.—Rain, which began falling early this afternoon, froze as it fell, and for some time seriously impeded traffic on the elevated railroad lines.

Rain is Falling in Alabama.

MOBILE, Ala., Feb. 12.—The heavy rains of the past week are beginning to make themselves felt in the interior to make

FROZEN BODY FOUND

Miner Wandered in Blizzard Until He Was Overcome.

MISSOULA, Mont., Feb. 12.—The frozen body of William Sausbury, the miner who was missing from Borax, was found this morning about one mile from the camp. The man had wandered around during the blizzard, and evidently became exhausted and had fallen down to rest.

SEARCHING MAN FINDS CABIN

Gets Back to Camp in the Cour d'Alenes in an Exhausted Condition, Just as Others Bring in Sausbury's Body.

MISSOULA, Mont., Feb. 12.—The frozen body of William Sausbury, the miner who was missing from Borax, was found this morning about one mile from the camp. The man had wandered around during the blizzard, and evidently became exhausted and had fallen down to rest.

Temperature Rising at Helena.

HELENA, Mont., Feb. 12.—The temperature in Helena this morning reached the lowest of the Winter, 39 degrees below. This afternoon it began to rise, and since 8 o'clock it has gone up at the rate of 1 degree an hour. It is 19 degrees below tonight and cloudy.

Newspaper Glamour.

HELEN Winslow in Atlantic. Celebrities of all kinds become so familiar to the newspaper woman that the word "glamour" might well be eliminated from the dictionary. She learns to meet them on such off-hand, free-and-easy terms as to offend both the celebrities and the onlookers. It does not take her long to discover that geniuses are only men and women with some particular faculty a little more developed, that the rest of us are ambidextrous, we cannot get both sides perfectly straight, and even if he is, it's a mighty difficult matter.

Thermometer Goes to Ten Degrees Below Zero.

WEISER, Idaho, Feb. 12.—(Special.)—Last night was the coldest of the season. The thermometer began dropping very early in the evening and continued falling during the night, and at 7 o'clock this morning registered 10 degrees below zero. This is unprecedentedly cold weather for this section. The coldest day of the Winter previously to this morning the thermometer registered 2 degrees above zero. The weather has moderated considerably since the onlookers. It does not take her long to discover that geniuses are only men and women with some particular faculty a little more developed, that the rest of us are ambidextrous, we cannot get both sides perfectly straight, and even if he is, it's a mighty difficult matter.

Eugene Water-Pipes Frozen.

EUGENE, Or., Feb. 12.—(Special.)—Last night was the coldest of the Winter, and this morning
