ADAMS' CASE IS COMPLETED Result of Colorado Contest Hangs on Exclusion of Fraudulent Votes.

DENVER, Feb. 14.-Governor Alva Adams closed his defense in the contest for the office of Governor tonight and tomorrow the contestor, ex-Governor James H. Peabody, will begin the presentation of evidence in rebuttal, for which five days are allowed under the rules governing the contest. The legislative committe hearing the contest is required to report its findings to the Legislature March 1, and on March 2 the contest will be decided. This afternoon the attorneys were instructed by Chairman W. H. Griffith to hand their briefs to the committee at the conclusion of the hearing of testimone. conclusion of the hearing of testimony and these will be considered by the committee in answering its conclusion.

Today was taken up in listening to re-ports of Democratic experts on ballotboxes from Huerfano County. Cross-ex-aminations developed that the experts be-lieved that many of the ballots written in two or three handwritings in different precincts were written by clerks and judges in assisting illiterates, although the poll books, save in one or two cases. failed to show that any assistance was given. It will probably be admitted by the Democrats that these ballots were written by election officials, but they will also make the claim that they were cast by the officials without the actual presce of the alleged voters.

Three experts reported on 15 precincts in Huerfano County. They testified that 1688 Republicans and 162 Democratic ballots out of a total of 2607 votes were written by two or three persons. Peabody received 1928 and Adams 628 votes in these precincts. Should these precincts be thrown out, Peabody would lose 1300 votes. With the same sction taken in regard to Las Animas County boxes, which the Democratic experts examined. Peabody would lose a total of 1929 votes as a result of the work of the Democratic experts. Should the Assembly agree to throw out all the precincts in which all the experts, both Republican and Democratic, discovered evidence of fraud, Gov-ernor Adams would retain his seat by a

County Clerk Montez, of Huerfan County Clerk Montez, of Huerfano County, who it was reported had escaped from the custody of the sergoant-at-arms of the committee while he was being taken to Walsenburg last night to get the ballot box from Precinct 23, of that county, appeared before the committee to-night. He had transportation over a different line from that on which the offi-cers traveled, and that fact gave rise to the rumor that he had escaped.

Mr. Montes produced the box tonight, and, when it was opened, it was empty. Mr. Montez swore that the box was received from his predecessor in office in its present condition, and he could not account for the absence of the ballots cast. He also testified that the fact that so many ballots were in the same hand-writing in Huerfano County could be explained, by the fact that nearly all the residents there speak Spanish only, and the judges were compelled to mark their Robertson's Position May Be Gone.

Witnesses were introduced tonight to prove that ballots used in Denver were not always numbered consecutively by the printers, and frequently a space of 10,000 was made in numbering the ballots to be used in the same precinct. At the conclusion of the hearing tonigh adjournment was taken until 7:30 o'clock tomorrow evening, when rebuttal evidence will be started for Governor Peabody.
