#### VETO WAS ALREADY WRITTEN

Senate Has Replaced \$18,000 to the Credit of the Normal Schools Removed During Passage in the House.

SALEM, Or., Feb. 17.-(Special.)-The Republicans of the Legislature and Governor Chamberlain fixed up a compromise on the general appropriation bill, late this afternoon, whereby the Legislature expunged the emergency clause and the Governor agreed not to veto the measure. This will hold back the operation of the act until 99 days after adjournment and will give opportunity to call a referendum on the act, in which case the act will not become a law unless ratified by the peo-

The bill carries appropriations for the penal, reformatory and charitable institutions of the state at Salem and for the Normal Schools, the State University and the Agricultural College. The Governor demanded that the Normal Schools be provided for in a separate bill or he would veto.

Republican leaders did not believe the Governor would dare to veto the appro-priations for the necessary state institutions, such as the penitentiary and the abylum, to satisfy his hostility to the present normal school system, but they were convinced that the Governor meant what he said by a message which he sent to the House this morning, saying: "If the bill passes in its present shape I cannot conscientiously give it my ap-

proval." Republicans held a council of war and decided to seek an audience with His Excellency. They found him in a defiant mood, but good-natured, with his veto message all written to shoot into the House the moment the bill should arrive

Until the Governor sent his message to the House, the Republican chiefs pro-fessed to believe that the threats eman-sting from his office were hot air. They did not believe he would dare to take the responsibility of depriving the state institutions of wherewithal to keep up their diet during the ensuing two years.

President Kuykendall, Speaker Mills,
Chairman Farrar of the Senate committee on ways and means, and Chairman Vawter, of the same committee in the House, put their heads together during a recess of the two houses and called on His Excellency. The pariety was as sweet as milk and honey and efteoons the callers emerged from the sanctum with satis-

fied faces.

"Since they've agreed to take the emergency clause off, the bill," quoth the Governor, after the pariey, "the people can call a referendum on the bill, and I shall not veto their measure. I'm sure I've done my duty and got what the people want, but I've had to fight for it like the devil. A veto might have made it necessary to a veto might have made it necessary to the Legislature.

The expunging of the emergency clause is a victory for the foes of the Normal schools, for they insisted valuey against Their scheme was to have the schools provided for in a bill by themselves, in order to refer them to the people under the referendum, but they were headed off. Last week the House, led by "Josephine" Smith, cut down the three Western Oregon schools \$5000 each below the recom-

mendations of the ways and means com mittee, but the Senate put back the ap propriations to the original figures today in committee of the whole and the House concurred, against the unrecognized protests of "Josephine" Smith, by a vote but Speaker Mills put the question to a vote at once and shut him off.

in the Senate, Miller of Linn, a Demo-crat, like "Josephine" Smith, tried to prune down the appropriations, but failed each time to move the Senate with his eloquence. His motion to cut out \$10,000 for the Eastern Oregon experiment staamount to \$15,000, whereat Miller raised himself to his feet and exclaimed: "Gentlemen, you have voted away \$2.

250,000 of the people's money at this session. Why don't you vote to put more money into the treasury before voting to take more out?"

But without beeding Miller's admoni-tion, Loughary induced the Senate to raise the appropriation for the Monmouth Normal School from \$30,000 to \$36,000; Cgrthe share of the Ashland School from \$25,000 to \$31,000, and Booth The vote on passage of the bill was 20

PORTAGE EXTENSION BILL IS LOST IN THE HOUSE.

Multnomah and Willamette Valley Contingents Are Arrayed Against the Eastern Oregon Members.

SALEM, Ov., Feb. 17 .- (Special.)-Lacking just one vote for passage. Senutor Whealdon's bill appropriating \$30,000 for the extension of the state portage railway from Big Eddy to The Dalles failed to pass the House this morning. Multnomah County and the Willamette Valley defeated Eastern Oregon, for, though there were breaks in both ranks, the ballot was cast largely by seography. The plan of the extension was to connec the portage railway with the Great South-ern at The Dalles.

McLeod of Union first put his shoulder to the wheel, but Newell of Washington read a portion of the report of the joint investigating committee, of which he was a member, which showed the com-mittee could not agree on the benefit of the extension

"Washington County also wants relief in freight rates," said he. "Why cannot Bastern Oregon put up this \$50,000." Cornett of Linn kept the hammer busy, Linthicum of Multnomah declared there was no unanimous call from Portland merchants for this aid to the portage rallway. Mayger of Columbia followed suit, and Richle of Marion asked perti-nent questions. Laws of Clatsop stated

requesting support for the measure.
'I was opposed to the construction of the road, but if this appropriation is necessary to make it effective, it should be passed," said Smith of Josephine. But Miles of Yambill made a brief protest, and the following vote was cast.
