TAX ON LIVESTOCK

New Law Goes Into Effect at Once in Oregon.

RANGE TROUBLE DEMANDED IT

County Assessors Will Have to Take the Measure Into Account in Making Assessments Beginning Next Month.

SALEM, Or., Feb. 27.-(Special.)-When County Assessors in Oregon begin making their assessments next month, they will be governed in part by the new law relstive to the assessment of livestock. This act of the Legislature is one of the very few new laws that carried emergency clauses, and in this instance the emergency was declared to exist because of the range wars in parts of the State of Oregon. Because this act will tend to settle the range difficulties and avert vio-ence, it is declared that the immediate preservation of public peace, health and safety require that the act take effect from and after its approval by the Gov-

The act referred to, H. B. 237, declares that itvestock pastured in more than one county shall be subject to taxation in each county in proportion to the time it is so permitted to pasture or range.

All stock must be assessed in the usual manner by Assessors, and the owner must deliver to the Assessor a written statement, showing a description of the stock with the brands used; where the stock has been kept and will be kept, with the county, and the owner is liable to his home county for the state, county and other taxes. "And the owner shall, un-less sufficient real estate ample to secure the same is liable therefor, pay the Assessor at the time of such assessment the whole amount of said caxes for the full year at the rate of the last preceding

vy, and take his receipt therefor."
It is then provided in the act that, when stock is permitted to range in any county other than its home county, the owner or his agent shall notify the stock inspector of said county of the entry of his stock. The stock inspector must immediately de-mand a statement of the number of head of stock coming into the county, etc., and evidence that the tax thereon has been paid or secured in the home county. The owner is then liable to the county into which his stock has been taken "for the portion of the taxes thereon for the length of time that such livestock has been and will be within said county during said year, according to the last preceding rate of levy in said county for all state, county or other purposes, as other property in said county is liable." The owner must pay said taxes to the

stock inspector or secure the same.

If the stock remains in the county after
the time for which the tax has been paid. the owner must furnish the stock inspector an additional statement and pay a further tax for the time the stock is to remain in the county.

As soon as any such livestock is re-turned to its home county, or if not re-turned, then before the expiration of the year, the owner or the person to whom first assessed shall present to his home county the receipts showing the taxes paid to other counties on such stock, whereupon he shall be entitled to receive from the County Treasurer out of the migratory stock fund "that part of the amount of taxes paid on such livestock in said county proportional, as the total periods of time for which taxes have been paid in other counties within the state, as shown by the receipts therefor and

presented, is to the whole year." Taxes are made a lien upon the stock in any county where the tax is due, and upon any real property of the owner in said county, and such taxes may be col-lected by any proper action or provisional remedy.

Assessors and stock inspectors must make monthly reports showing the stock assessed, the time for which assessed, and the amount collected, which amount must deposited in the County Treasury, where it shall constitute the migratory stock fund. Where rebate for livestock made to a person other than the one by whom the tax was originally paid, such payment must be made upon the certifi-cate of the Assessor or stock inspector, which shall show the name of the person entitled thereto, the number and description of livestock, the time for which the rebate is allowed, and the county or counties in which taxes on such livestock have been paid or secured to be paid other than the home county.

At the first regular term of the County Court, after the 1st day of January of each year, the Treasurer of each county shall report to the County Court the amount of taxes on livestock received by him, and the number, description and owner thereof, and the time for which the tax was paid; the amount paid on re-bates, and the number and description of the stock, the name of the owner and the time for which the rebate was paid. If the report be found correct, the balance in the migratory fund shall be turned into the general fund. No rebate can be allowed after the Trensurer has made his

report for the year.

The provisions of this act do not apply to stock sold by the owners thereof in the home county, upon which the full taxes have been paid, which said stock shall be driven or transported into other counties and kept in enclosures for the purpose of preparing the same for mar-

Persons or corporations owning or hav ing in charge any livestock, who violate the provisions of this act, are liable to a fine of \$25 to \$1000, or imprisonment for 30 days to one year.

The act is general in its nature, and ap-plies to all counties and all livestock subject to assessment and taxation. According to the language of the act, all As-sessors must require the specified state-ment to be made when they assess livestock. Proportionate assessments, how-ever, are only made upon livestock that is "kept, driven or pastured, or is permitted to range or graze in more than one county of the state during the year.

RICHER THAN FIRST REPORTED Strike in Bohemia Mine Improves on

Further Development. COTTAGE GROVE, Or., Feb. 22-(Special.)-The strike in the Crystal Consolidated mine in Bohemia, made over a month ago, of six feet of ore, partly free milling and partly base, has greatly improved since then. The drift has been extended some 25 feet and the ledge now shows seven feet of solid ore. The ore is high grade. Tests were made on the ore at the time of the strike and assayed \$4 per ton, carrying copper,

One of the miners just arrived from there reports that the ore is now much better than it was when the test was made. The company is getting every-thing ready to start its stampmill as soon as the weather will permit, probably April The object of milling this ore is to reduce it to concentrates, which will probably be 4 to 1, and separate the copper, lead and zinc on their con trators. The concentrates will then be shipped to smelters where that class of mineral is treated.

Reorganizing Chamber of Commerce. ABERDEEN, Wash., Feb. 22.-(Special.) -A meeting was held here Monday night to reorganize the Chamber of Commerce, which has been inactive for some months.

WEBER KILLED MOTHER

JURY RETURNS FIRST-DEGREE VERDICT AFTER 15 HOURS.

Auburn, Cal., Youth Also Accused of Slaughter of Father, Sister and Brother.

AUBURN, Cal., Feb. 22.-Adolph

Weber was today convicted of murder in the first degree, for the killing of his mother. The jury was out 15 hours.

Adolph Weber, who is only 20 years old, was tried for the murder of his mother, but is also accused of killing his father, sister and brother and of burning the family residence. The tragedy occurred November 10, 1904, at Auburn, the county seat of Placer County. On that day, soon after Adolph left his home, it was destroyed by fire and the other four members of the family perished. An examination of the bodies taken from the ruins of the house proved that the mother, father and daughter had been shot, while the dead boy had been struck on the head with some blunt instrument.

Adolph arrived at the fire before it was extinguished and threw into the flames a bundle found to contain his blood-stained trousers, which a few minutes before he had exchanged for a new pair. This and other circumstantial evidence led to his arrest. He is the sole heir to the estate, which is quite valuable Eminent counsel were engaged in

his defense, while the Attorney-General of the state conducted the prosecution. The trial occupied 28 days, during which the prisoner maintained his composure to a remarkable degree.

MONEY FOR INDIAN VETERANS Appropriation of the Legislature Becomes Available May 18.

SALEM, Feb. 22.-(Special.)-Indian War veterans who have not yet been paid the money allowed them by the state are pouring inquiries into the office of the Secretary of State regarding the appro-priation made by the Legislature at its recent session, and find that the act makeffect for 90 days, or until May 18.

This appropriation differs from that made in 1903 in this respect, that in no case can the money be paid to the estate or any heir of a veteran who has died since having his claim, audited, though in case of such death the money may be paid to the widow.

There are now 250 claims awaiting payent and \$45,000 was appropriated to them. For the information of the many people interested directly or indirectly in this law. Secretary of State Dunbar has caused the act to be printed and has prepared a circular letter explanatory thereof. The letter says:

As a claimant under the provisions of an act of the Legislature of 1903 providing for compensating volunteers for services ren-dered the Territory of Oregon during the indian Wars of 1835 and 1856, having a vouch-er approved by the Adjutant-General on file in this office, which has not been amilited. owing to the fact that the sum appropriated by said act became exhausted before the filing of your claim. I send you herewith for your information a copy of an act passed by the Legislature which has just adjourned, providing for compensating the volunteers for the services of the Territory of Oregon during the Indian Wars of 1853 and 1856, who were not provided for by the act of the Legislature of 1903.

The act contains no emergency clause, and consequently does not take effect until 90 days from the end of the assion, which will be May 18, 1905, and under no circumstances can claims be audited or warrants issued prior to that date. The Supreme Court in the case of Boyd vs. Dumber holds. "the authority of the Secretary of State is owing to the fact that the sum appropriat-

Court in the case of Boyd vs. Dunbar holds. "the authority of the Secretary of State is limited to the terms of the act, and he cannot go beyond its provisions, nor can the courts compel or authorize him to do so." It will be observed that section 5 of the act provides that "the claim for services rendered by said volunteers shall only be made by the volunteers themselves, and in no event can the claim be filed by his widow, heir, or estate; and in no event shall the claim for said services of said volunteers than the claim for said services of said volunteers. the claim for said services of said volunteer be payable or due to any person except the volunteers who have actually served in said Indian Wars, except in the event that the volunteer in said Indian Wars has died since the filing and proving of his claim before the Adjutant-General and the Secretary of State, in which event the amount found due shall be paid to the

the amount found due shall be paid to the widow of said deceased volunteer, if any, but in no event shall such amount be payable to heirs, either direct or indirect, or the estate of such volunteer, and should the deceased volunteer leave no widow, then the amount found due said volunteer shall revert to the State of Oregon."

Satisfactory evidence therefore must be furnished this office that the claimant is living on May 18, 1965, blank form of proceeding herewith inclosed. In the event of death, and the claimant leaving a widow, satisfactory evidence must be furnished this office in the form of a sworn affidavit as to the identity of the widow—form of which affidavit will be furnished upon application.

Clatsop Tax Roll Is Ready. ASTORIA, Feb. 22 .- (Special.) - The work of extending the 1964 tax toll was completed today, and it will be placed in the nands of the Sheriff for collection tomorrow morning. The total amount of tax is \$200,134.59. The 1903

roll was \$173,447.91, an increase this year of \$26,686.68. This increase is due principally to the additional 3-mill levy for the construction of a new Court-house, and the fact that of the 16 road districts in the county all but four made special levies of 10 mills each for road purposes, and one of the latter made a four-mill levy.

One of the greatest American millionaires once said to his physician, "A million dollars, Doctor, for a new stomach," and then the sick man grouned and turned away. One of a man's greatest pleasures is that born of a keen appetite, vigorous digestion and a good dinner, and this belongs to many a good fellow who is living on small wages, but the rich man without a stomach has to forego the good things of the table because his stomach rebels. Without a healthy stomach and a good digestion, our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. In this condition man is prey to the germs of influenza, consumption, malaria and all the ills that he is heir to. Consumption can be treated by natural methods which

the ills that he is heir to. Consumption can be treated by natural methods which are as close to nature as possible.

Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood this disease, and after a long period of experiment discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that would be easily procured and ready to use. This he called Dr. Pierce's Golden Medical Discovery. It gives no false stimulation because it contains no alcohol and no narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. Instead of a cod liver oil, against which the already sensitive stomach will declare open rebellion, this tonic has a pacifying open rebellion, this tonic has a pacifying action upon the sensitive stomach and gives to the blood the food elements the They have been confronted with many problems. Another trouble has been a deficiency of \$5000 for the university. It appears to be in the nature of an overdraft at a bank. As this was not authorized by the state board, the appropriations committee has refused to make provision for it.

Above all other things, we strive to save the thousands of young and middle-aged men who are plunging toward the grave, tortured by the weeks of nervous debility. We have evolved a special treatment for Nrvous Debility and special weakness that is uniformly successful in cases where success was before formly successful in cases where success was before and by other ductors deemed impossible. It does not stimulate temporarily, but rostores permanently. It allays irritations of the delicate tissues surrounding the lax and unduly expanded giands, contracting them to their normal condition, which prevents lost vitality. It tones up and strengthens the blood vessels that carry nourishment. The patient realizes a great blight has been litted from his life.

We want all MEN WHO ARE SUFFERING from any

disease or special weakness to feel that they can come to our office freely for examination and explanation of their condition FREE OF CHARGE, without being bound by any obligation whatever to take treatment unless they so desire. We cure Stricture, Varicocele, Nervous Debility, Blood

Poison, Rectal, Kidney and Urinary Diseases and all diseases and weaknesses due to inheritance, evil habits, exceases or the result of specific diseases.
