Of the men who escaped, Henry Mcin is regarded as the most desperate, He was serving a term of 60 days for vagrancy. He is but 19 years old, but has been arrested repeatedly. Four months ago he was taken into custody with two other men for holding up seceral people in the Albina Ferry Ex-change Saloon. He was never charged with the crime, turning state's evidence, Frank James went to the penitentiary for five years, and Charles Mehan was tried

Ben Darwin, who is believed by the police to have instigated the plot to break ball, is the man who escaped from Guards Mallett and Rulme, in charge of the rockpile gang, two weeks ago. He was recaptured but four days ago, after a thorough search of the city by officers. He was arrested for living off the carnings of his wife, was found guilty before Manieta Ludwe House and and the hore Municipal Judge Hogue and sent to hard labor for six months. Seattle Signs a Couple of Players From Albuquerque.

ALBUQUERQUE, N. M., Feb. 24.-(Spe ctal.)-Bert Vorhes, second baseman, and Fred Star, pitcher, both crack players of the local baseball club, have signed to play with the Senttle, Wash., club of the Pacific Coast League, and will leave the city next Wednesday. They have been ordered to report for practice at Santa Barbara, Cal. Several clubs the last few years have made flattering offers for Vorhes' services, but he turned them all down until this offer from Seattle arrived. The two St. Louis league clubs were anx-lous for him, especially the American League. He is a good all-around player, and strong at the bat.

Hughes Is Slow In Signing.

\$1200 at an Old Game. SAN FRANCISCO, Feb. 24.-George F Hall, Consul-General to Turkey, has admitted that he has been made the victim of an old-time swindle to the extent of \$130. Some time ago he received a letter signed "Estanalo Cortinas," which said the writer was dying in a Spanish prison and was so closely guarded that it was only through the kindness of a priest that the letter was sent.

Cortinas said he had a beautiful daugh-ter and he wished Hall to become her guardian, the Consul was a distant relative of Cortinas' dead wife. EXTEND TIME ON SHIPMENTS Railroads Make Allowance for Re-

turn of Exhibits From St. Louis.

Owing to the delay in providing for the return shipment of the exhibits from the St. Louis Exposition, it is announced by the railroads that the limit on shipment has been extended from the latter part of February until the latter part of March.

According to the agreement made by the railroads it was provided that all exhibits at St. Louis must be started on their return journey before the last day of February. This, for many reasons, was found not to be possible and there-fore the extension was made. This change will perhaps have some effect on the exhibits now being shipped to the Lewis and Clark Fair, as it will give a longer time in which to prepare them and get them on the road in good con-dition.

WORKMEN WILL NOT STRIKE Agitators Fail in Effort to Bring on Labor Trouble.

Those who have been closely watching the agitation of a strike among the worken on the Government building at the Lewis and Clark Fair grounds say that the possibility of such a movement has been reduced to a minimum. The work-men seem satisfied and the feeling of un-rest which was noticeable among them several days ago is now entirely absent.

The professional agitators who tried to influence the workmen employed in the construction of the Government building have become disheartened and they realize the hopelessness of the situation so far as they are concerned. The conservative element of the workmen proved too strong for the agitators, who were supported only by a few of the radical laborers.

What the Fair Has Cost.

Up to February 11, the cost of the Lewis and Clark Exposition to the State of Oregon amounted to \$294,237.07, as shown exercises in the California building, Governor Pardee, his staff and members of Lewis and Clark Commission. The Ag-

ricultural building has been the most expensive, aggregating \$73,263.54. During the month of January the Palace of Machinery and Transportation and the Auditorium called for expenditures of \$4000 each. The Fereign Exhibits building has cost \$2,288 and the Oriental build-ing has cost \$51,529.39.

HE ASKS POINTED QUESTIONS Wants to Know Why Wittenberg Opposes Public Will.

PORTLAND, Feb, 24.—(To the Editor.)—The frequent expression of Director Herman Wittenberg's views concerning location of the new high school on the East Side leads one to inquire: What is the motive of this man, who alone is so determined to set aside the will of the meaning expressed at the above the people regularly expressed at the annual school meeting? THE LAXATIVE OF KNOWN QUALITY There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assist-

rarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refreshand cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know

containing nothing of an objectionable or injurious character. There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.
