

**UNDER NEW LAW
\$5,000,000 Corporation
Is Formed.**

FIRST TO TAKE ADVANTAGE

**Oregon Securities Company
Files Papers.**

RAILWAY WILL BE THE NEXT

**Two Big Eastern Corporations Register
Under the Recent Statute
Passed by the Oregon
State Legislature.**

The first corporation to organize in Oregon under the new law provided for by Senate Bill No. 184 was the Oregon Securities Company, which filed papers yesterday asking a franchise for a \$5,000,000 corporation. It will be followed today by the Oregon Southern Railway Company with a capital stock of \$1,000,000. These two companies control the Bohemia mining district and have formerly been operated under charters from New Jersey, to which they paid an annual tax \$500 and \$100, respectively.

What the New Law Provides.
The new law provides that corporations having a majority of their directors outside the state may become corporations of this state provided the majority of the directors are residents of the state. This gives to corporations operating exclusively in Oregon, but under outside charters, an opportunity to save the tax in the other state and to belong to the state to which their operations are confined.

The Oregon Securities Company owns the Helena, the Musick and the Champion groups and other smaller properties in the Bohemia district, comprising in all about 1000 acres. In the last five years it has expended \$1,000,000 in the Bohemia district. \$200,000 of this has been used in the last 15 months to a 500-horsepower electric plant, a 30-stamp mill and electric railroads connecting the mines. It is said to be the largest mining operation in Oregon. It is now drilling at the rate of seven feet a day an eight by nine-foot tunnel with double track through Grouse Hill, connecting the mines at the mill in Chapman Basin. Active mining will begin within 30 days.

Names of Incorporators.
The incorporators of the Oregon Securities Company are John W. Wheeler, of Orange, Mass., president; George W. Crosby, of Atlanta, City, first vice-president; George French, of North Adams, Mass., second vice-president; G. B. Hengen, secretary and treasurer; John H. Pearson, of New York, assistant secretary and treasurer; Frederick W. Hengen, of Portland; Albert Hawkins, of North Adams, Mass.; and Dr. Herbert E. Smith, of New Haven, Conn.

The Oregon Southern Railroad Company extends for 18 miles from Cottage Grove towards the Bohemia district. It will not be extended further, as the electric road from the mines will be built down 13 miles to meet it. The grade was built last year.

The incorporators of the Oregon Southern Railroad are G. B. Hengen, president and treasurer; George W. Crosby, first vice-president; O. F. Paxton, second vice-president; A. E. Wood, secretary and treasurer.

**FIREMAN PENNEY BADLY HURT
Thrown From Engine While on the
Way to Fire.**

Fire broke out last night in the kitchen and storeroom at the rear of the two-story building on Milwaukee and Beacon streets. It happened to be discovered by a young woman passing along Beacon street when she gave the alarm, which brought out the East Side companies so promptly that the fire was confined to the annex. The entire building is occupied by M. Clapper. On the lower floor is a general merchandise store, while Clapper uses the upper rooms and kitchen in the rear for household purposes. Back of the kitchen, in the annex, were some light summer goods, and in this room the fire started from some unknown source.

Mr. and Mrs. Clapper were both on the West Side at the Portland Hotel on a visit and their children were sleeping on the second floor. They were aroused and hurried out of the house. The building is owned by M. L. Lugg, who carries \$1500 insurance. The loss on the building will not exceed \$100. Mr. Clapper's loss will be about \$500, due to the loss of the goods stored. He was telephoned that his store was on fire and arrived after the fire was extinguished, thankful that his loss was comparatively small. The fire did not enter the main structure.

While on the way to the fire Dan Penney, driver of engine No. 7, was thrown at the intersection of Union avenue and Washington street, and narrowly escaped being killed. At this intersection a spur runs from Grand avenue for the sum of cars used in the East Washington street, and as the engine struck this spur the driver Penney was thrown clear from his seat. He was struck on the back by the wheel first and thrown heavily on the roadway, striking on his head. It was at first supposed that the wheel had passed over his body, but fortunately it did not. No bones were broken, but the fireman sustained some severe bruises. He was removed to his home and Drs. M. G. McCorkle and J. W. Dryborough called to attend him. He was resting easily at 12 o'clock last night.

INSPECTION WORK IS DONE.

**B. A. Worthington Completes Work
for Harriman Lines.**

The special train used by the officials of the Harriman lines in the inspection of the lines in the west side of the Willamette Valley, returned to Portland yesterday. Leaving Portland Monday with three special cars, the party made a thorough inspection of all the west side lines in the Willamette Valley. Several hours were spent in visiting at the Oregon Agricultural College at Corvallis Monday night the train was sidetracked at Corvallis. This trip finishes up the inspection of the Southern Pacific lines in Oregon. In several weeks E. A. Worthington, general manager of the Harriman lines in Oregon, will tour the Washington branch of the O. R. & N.

Mr. Worthington, in speaking of his trip on the Southern Pacific track to Ashland, where his jurisdiction ends, said that work had commenced on the laying of 26 miles of 30-pound rails between Ashland and Divide. The rails to be dis-

placed are 36 and 33-pound rails. Three separate large gangs of men are at work laying the rails, and it is expected the task will have been completed by June 1. This improvement will be rushed in preparation for the great amount of travel to the Fair at Portland.

**BOARD POSTPONES ACTION.
Amalgamation With Chamber of
Commerce To Be Considered.**

Owing to the small number of members the matter of the special meeting of the Portland Board of Trade yesterday afternoon to receive the report of the committee appointed to consider the advisability of amalgamating the trade bodies of this city as proposed by the Chamber of Commerce, the meeting was postponed until Friday at 4 o'clock. There were 12 members present, a sufficient number to constitute a quorum, but those who were there did not believe they were justified in acting upon such an important matter in the absence of the greater number of those who compose the organization. The members of the Board of Trade will all be notified of the meeting to be held Friday and will be especially requested to attend.

There is no unanimous understanding on the part of the members of the organization regarding the consolidation of the trade bodies. Some are decidedly in favor, but it is said that those who oppose such action are in the majority. The committee, which was appointed to investigate the matter and the inducements to be offered by such a consolidation, will submit its report Friday, as was intended for the meeting held yesterday.

It is believed from reliable sources that the committee will recommend the Board of Trade to consolidate with the Chamber of Commerce on certain conditions.

It is said that the conditions to be suggested by this committee would involve a very radical change in the fundamental principles of the Chamber of Commerce. It is understood that the committee will amend its by-laws in such a way as to provide for an open body. The members of the organization would hold regular meetings at the Chamber of Commerce building, but it is said that those who oppose such action are in the majority. The committee, which was appointed to investigate the matter and the inducements to be offered by such a consolidation, will submit its report Friday, as was intended for the meeting held yesterday.

**SAYS FORCE IS TOO SMALL
Police Chief Declares He Needs
Twice the Number.**

In answer to critics, who of late have caused much to be published detrimental to the department of which he is the head, Chief of Police Hunt last night declared that there were but half enough patrolmen to police Portland properly. He said that the laws were being well enforced, considering the very small number of officers on the force.

"Captain Bailey, having charge of the city when the saloons are supposed to be closed, had but 13 patrolmen yesterday morning," said Chief Hunt. "Can any person tell me how so small a force could be expected to keep close tabs on 200 or 400 saloons? Again, can any police captain or sergeant go out and watch them all? If people would only help us to perform physical impossibilities, they might get better results. By that I mean that the number of patrolmen should be doubled. Then better police work could be done, saloons could be watched more closely and routine business transacted. It does not surprise me to hear of a few saloons being open for a while after they should be closed; we have not got enough men to watch them closely. When I say this, I am not censuring any officer. I am free to state that all are doing their duty as best they can under the circumstances."

Councilman A. E. Fieschel, who has been taking an interest in the saloon-closing ordinance, yesterday said that he was willing to present evidence to General Beeda and Sheriff Slichter, consulting with Mayor Williams, the police committee of the Executive Board, to prove that saloons had been violating the ordinance. Five saloons were complained of through his efforts, and one arrest was made. J. B. Moore, just granted a renewal of his license to run the Cosmopolitan, was booked for keeping open after the proper hour.

**BLAIR T. SCOTT HAS RESIGNED
Portland Man No Longer General
Manager of Washington Life.**

Blair T. Scott, of this city, for a number of years Pacific Coast general manager for the Washington Life Insurance Company, of New York, and since last Summer director of agencies of that company for the entire country, has tendered his resignation, to take effect early in March.

Mr. Scott's resignation will come as a great surprise to his many friends here, owing to his prominence in business and social circles.

It is understood to be the result of a change of management at the main office of the company and while no charges of any sort are made against him, it is said that his administration of the important office which he holds has not been entirely satisfactory to the directors.

The new manager of the company assumed charge on January 1, and shortly afterward Mr. Scott was given to understand that his resignation would be accepted.

Henry R. Veinvalye, a representative of the New York office, is in the city checking up accounts and will have charge of this office until Mr. Scott's successor is appointed.

Mr. Scott is out of the city, presumably on his way to New York, and has made no statement of his side of the case.

**AIM TO PROMOTE GOOD ROADS
Oregon Development League Members
Asked to Take Up Work.**

A request that each organization in the state connected with the Oregon Development League appoint a permanent road committee was formulated at a meeting of the special good roads committee of the Commercial Club, held last evening. This committee is composed of John S. Beall, A. L. Craig, W. E. Coman, G. W. Evans, H. W. Goddard and W. M. Calk.

Each of the organizations in the state is also requested to send a delegate to the second annual meeting of the league, which will be held in Portland in April. The members of the local committee have been asked to attend this good roads convention, which will be held March 29-31 in Grant's Pass.

Bequeaths All to Wife.

The will of O. O. Benson, deceased, was admitted to probate yesterday. The property, consisting of 26 acres of land on Columbia Slough and other real and personal property, valued altogether at \$6000, is bequeathed to Martha M. Benson, the wife.

Lindsay Light 79c Complete

The "Lindsay" 300-candle-power Incandescence Gas Light will be found the best all-around Incandescence Gas Light on the market, the most economical gas consumer, because the mantle is of practical size and air is added to the gas before the flame is reached. The adjustment patent is the handiest to be found on any light in the market. The flame envelopes the entire mantle. No part is left unheated. All the mantle gives out light. Also the mantle is made of heavier thread than usual—a special chemical treatment makes it light up more brightly than mantles of other incandescence gas burners. Demonstration in the Basement.
