Last Day But One—Today—of the Unprecedented and Unequaled Values in Fine Footwear for the Family
Afforded by the Exceptional Bargain Opportunities of the New Administration Sale Good Shoes
First Floor—West Annex.
Steps in the Making of Shoes:
Few shoe merchants really understand the goods they sell—fewer wearers do. That's where this shoe store steps in. The first and most important feature in the making of shoes is the lasting—the stretching of the upper over the last. In some shoes this is done but once before the sole is fastened on. Result, poor fit and a poorer wear. Time is money, and these shoes must compete with low-priced ones. You'll find such shoes as these heralded with a splurge and a sort of monkey chatter—through the newspaper columns—in competition with our GOOD SHOES. In such shoes as pass the "O. K." of this store, where a few paltry pennies are not quite so important a consideration, this process is repeated two or three times at intervals of twenty-four hours, until the leather is so evenly stretched and fitted to the last that it never loses its shape after.

MR. S. C. JAMESON
Decides on a thorough reorganization of the lines, in order to start his first season with the house with a complete new stock of BETTER THAN EVER SHOES, you may rest assured you are bound to wear THE BEST SHOES IN THE WORLD (made by the best shoemakers in the world—Americans), if you select your footwear at this "DIFFERENT STORE." In order to reduce present stocks to the minimum, we shall continue THESE PHENOMENAL SHOE BARGAINS FOR 2 MORE DAYS—UNTIL 6 P. M. TOMORROW.
