### Honolulu High Sheriff QUIET INVESTIGATION MADE Is Mystified.

#### CHEMISTS STILL AT WORK

Analysis of Contents of Mrs. Stanford's Stomach.

#### INQUEST TO BE BEGUN TODAY

Contents of the Bottles in Late California Woman's Medicine Chest to Be Tested for Presence of Strychnine.

HONOLULU, March 2-The police in vestigation into the death of Mrs. Jane L. Stanford is practically at a standstill to night. High Sheriff Henry is without a theory as to the cause of her death. It had been expected that the report of the chemists on their analysis of the contents of her stomach would be made tonight but the chemists announced that they had not concluded their investigation, and would not be ready to make a report be fore tomorrow morning. It is probable that the inquest will commence tomorrow rnoon. High Sheriff Henry said:

"I am utterly unable to formulate any theory that would account for this tragedy. The San Francisco papers which have just been received, containing fuller accounts of the alleged potsoning case of January 14, have not been of any help to

me. I am awaiting results.
"The analysis of the stomach and the mients of the blearbonate of soda bottle. ingether with the inquest which will follow, may develop some new facts. When these chemical analyses have been comcines of Mrs. Stanford similarly analyzed. Her medicine chest contained a number of bottles, but I believe that the bicarbonwas possible to conceal strychnine."

This afternoon Sheriff Henry, Judge

Stanley and Miss Herner at the hotel went through all of Mrs. Stanford's trunks, which had been packed, locked ory suggested here is that Mrs. Stanford accidenially took a wrong dose of tine by mixing the strychnine with the bicarbonate of sods.

Sheriff Henry says that there was no strychnine among Mrs. Stanford's medcines found in the chest.

The opinion of most of the investigators

#### ENOUGH TO KILL HUNDREDS Over 600 Grains of Strychnine in Bi-

carbonate of Soda Bottle. SAN FRANCISCO, March 2.—The re-ceipt today by Acting Chief of Police John Spillane, of a cable from High Sheriff Henry, of Honolulu, stating that there were no less than 562 grains of strychnine in the bottle of bicarmade to discover who placed the pot-son in the harmless medicine. The police believe that the blearbon-

The police believe that the blearbon-ate of soda and the strychnine were East, she had not forgotten them and purchased here, and secretly dropped into the bottle by a person connected with the Stanford household.

The bottle containing the blearbonate of soda and its death potion, originade a will a few months ago, but that inally were purchased in Australia. But, according to Miss Bertha Berner, contents known to the world. Mrs. Stanford's private secretary, and the maid, May Hunt, the bottle was re-filled at a local drugstore. Dr. W. G. Stevena, a medical expert,

today made this positive declaration: "Six hundred and sixty-two grains of strychnine easily would kill 662 persons. The maximum dose administered is only one-fiftieth of a grain, while the average is one-fortleth of a grain."

cannot be detected easily. Soda has a phenomena.
crystalline appearance and looks like Miss Berr

not discuss the matters under consideration though it is intimated that Mrs. Stanford's will was mentioned.

#### INQUEST AFTER THE ANALYSIS Honolulu Police Suspect Member of

Dead Woman's Household. HONOLULU, March 2—High Sheriff Police here will not express Henry says he expects that the chemory regarding the occurrence. ists who have been engaged since yes terday in analyzing the contents of Mrs. Stanford's stomach will make their report at 4 o'clock this afternoon. The inquest will be held tonight. The chemists' report from analysis of the fatal dose of blearbonate of soda taken by Mrs. Stanford has already positively stated that the soda contained

There are indications to lay that the police of this city suspect a member of Mrs. Stanford's household of having placed strychnine in the bottle of bi-carbonate of soda, a dose from which she took before retiring Tuesday night.

of Mrs. Stanford's household of having placed strychnine in the bottle of bicarbonate of soda, a dose from which the took before retiring Tuesday night. The body of Mrs. Stanford has been embalmed and it will probably be taken to San Francisco on the Pacific Mail Company's steamship China, which will sail from Honolulu on March 15 and in due to arrive on March 17.

J. F. Hackfeid has been appointed the representative of the Stanford interests here, with ex-Judge Stanley as counsel. Dr. H. V. Murray, one of the physicians who conducted the autopsy, says that death was due to strychnine poisoning. Mrs. Stanford had in her poissession when she arrived here, jewelry valued at about \$55,000. This was found apparently intact and has been taken charge of by Mr. Hackfeld.

Wich Sneriff Henry denies a rumor

in circulation here that Miss Bertha

A meeting of natives of California residents in Honolulu, has been called for next Monday evening for the pur-pose of taking measures to show respect for the memory of Mrs. Stanford.

San Francisco Police Get Names of All Possible Witnesses.

SAN FRANCISCO, March 2.- The poce authorities of this city were tonight expecting a cable from Honoiulu informing them of the result of the chemical analysis of the contents of the stomach of Mrs. Stanford and until that report is in their possession no active move will be made and not then unless there is strong Indication that a crime has been committed. Tet the police have not been idle in the matter and every preliminary detail has been attended to so that if developments warrant, systematic and direct

earlier stories of poisoning have been quietly probed into, but no formal ac-tion has been taken. Captain of De-tectives Burnett said tomight: "I have a number of men in readi-

nes to start out at once should the report from the Honolulu chemist justify such action. But as yet we do not know positively the mnner of Mrs. Stanford's death and I do not like to place the department in the position of starting a murder investigation when the facts to come may demonstrate that a crime has not been committed."

#### PETTY QUARREL OF SERVANTS

"The only time Mrs. Stanford men-tioned the reported poisoning was the day after it occurred, as she came down on the train with me. For my part, I do not think she drank any poisoned water. Strychnine might have been in-troduced into the water afterward for spliteful purposes, possibly a perry quarrel of servants. This is only ... spiteful

wn theory of the matter."

President Jordan said that Mrs. Stanford's death would not have any immediate effect in regard to the univer-sity, as she was fully in harmony with the policy of the board of trustees. ste of soda was the only one in which it | Pending her funeral most outside activities will be suspended, but recitations

#### University Gets Bulk of Estate.

SAN FRANCISCO, Cal., March 2and sealed preparatory to shipment. A Mrs. Stanford did not leave so large an estate as was supposed, for during her lifetime she deeded the property she inherited from her husband to the re-gents of Stanford University, to be held in trust for that institution after her death. The last transfer of importance made by her was about three years ago, when she made over her magnificent residence on California street, and at bere is that, if there has been a crime at the same time practically gave to the all, it was committed in San Prancisco, and possibly at the same time strychnine is said to have been placed in the mineral Leland Stanford, Jr., University, after

Of those who are presumed likely by riends to receive a share of the estate eft by Mrs. Stanford, it is generally be-leved that Miss Jennie Lathrop and her sister and brother, Hermonie and Leland Stanford Lathrop, the children of Charles Lathrop, will fare best, for they were most frequently in her company, and they deeply interested Mrs. Stanford, Besides these relatives, Mrs. Stanford is survived by a brother, Ariel Inthrop, of Albany, N. Y.; two nieces, one in New York and the other in of strychnine in the bottle of blear bonate of soda from which Mrs. Stan-ford took a dose shortly before her death, has aroused the detective force of this city and every effort is being of this city and every effort is being been provided for is generally understood, for Mrs. Stanford had frequently remarked to friends that while she did would remember them in her will. Mountford Wilson, Mrs. Stanford's

attorney, and her brother, Charles La-throp, have stated that Mrs. Stanford made a will a few months ago, but that

### Bottle Packed in San Francisco.

HONOLULU, March 2.—(10 A. M. De-iayed in Transmission.)—Mrs. Highton, wife of Henry E. Highton, the well-known San Francisco lawyer, says Mrs. Stanford cried when telling her of the attempt which had been made to poison Louis Falkenau, who made the analysis of the mineral water drunk by Mrs. Stanford last January, and which was poisoned with strychnine, said today:

Strychuine and bicarbonate of soft. Sirvenuine and bicarbonate of soda sity for the investigation of psychio

Miss Berner, her secretary, says in strychnine. It would require an expert to detect the presence of strychnine, but it could be done very readily."

The finding of the large amount of water with the bicarbonate of soda. sison in the bicarbonate bottle puzzles the strychnine in which made her vio-Mrs. Stanford's relatives and attorneys lently ill, so much strychnine being ab-in this city. M. S. Wilson, chief counsel sorbed that the stomach rebelled and for her, and C. G. Lathrop, her brother, she finally recovered. Miss Berner says, today declined to make any statement until they had received direct advices from Honolulu. They held an extended police, that the bottle containing the conference with D. O. Mills, but would strychnine was packed up in San Francisco five weeks ago, prearatory to coming here, and that it remained un-touched since then until it was opened last night by Mrs. Stanford herself, be-

### Enormous Quantity of Poison.

SAN FRANCISCO, Cal., March 2 .-Acting Chief of Police Spillane today received a cable dispatch from William Henry, High Sheriff of Honolulu, say-

"The Stanford bottle of bloarbonate of sods contained 43 drams, 662 grains of strychnine. An examination of the organs is now under way."

General Booth Off to Jerusalem.

Coast League Players Reporting in California.

#### MANAGER M'CREDIE TALKS

Does Not Promise Pennant to Port land, but Says He Will Be in the Fight-Hughes Case is Not Settled.

Since Wednesday the ball tossers whe investigation may be immediately made.

The name of every obtainable witness has been secured and the death of Mrs. Stanford together with the in addition to the Coast League players. who will train in California, 17 players of who will train in California, it players of the Chicago National League team the other day started for Santa Monica, where they will repair themselves for the com-ing Summer campaign. All of the Port-land team started for Bakersfield on

Manager McCredie has hit San Fran-cisco and has told the baseball critics of that city all about his team. The local manager discussed the Jay Hughes case, but stated that he would give up the big twirler in case Seattle sought to make trouble. While in San Francisco, President Bert informed Manager Mc-Credie that the National Board had decided that D. E. Dugdale did not have the power to release Catcher Steelman. As McCredle had aiready turned Steel-man adrift, this bit of information did not count for much. Of his team Mc-

Attempt on Mrs. Stanford's Life.

STANFORD, Cal. March 2.—David Starr Jordan, president of Stanford University, said today:

"Mrs. Stanford's mind was perfectly clear the last time I saw her, which was on January 15, the day after the reported poisoning in San Francisco. Since that time I have had several lether in the saw they are not saying team requires a lot of scheming. I am not saying that Portland will win the pennant in a walk, but I do say the pennant in a walk but I do say the pennant in a w the pennant in a walk, but I do say that Portland will give them a battle for it. There are too many good teams in the league for anyone to have a walkover, but I think we are as strong as

Danny Shea, the old Portland back-stop, has reported to Uncle Hank Harris. On his arrival Shea said:

On his arrival Shea said:

"Yes, Portland has a strong aggregation, but I think McCredle will have trouble handling his bunch. He has some bad actors. I hope Mac gets along all right and his team wins. Portland is going to be a good baseball city. That Fair ing to be a good basehall city. That Fair will make it good. Quite a bunch of players wintered at Portland. Andy Anderson worked in a cigar store. He has not signed yet, though he has offers. Castro tended bar. He is going to Kansas City. Ike Butler and Charley Shields were there. As you know, Ike refuses to go to Atlants, where he has been sold."

President Bert is awaiting the arrival of "Tip" O'Nelli, president of the Western League, and Howard Griffiths, president of the Jersey City Club. These

president of the Jersey City Club. These two men are on their way to San Fran-cisco to confer with the Coast League mogula in regard to Class A leagues forming a compact.
"I don't know what propositions they will make us," said President Bert, speaking of the coming of Griffith and O'Nelli, "so can't anticipate what action this league will take. I know when I was back Bast I heard a lot of talk about the dictatorial method of the American League. When we drew up our new drafting measure we were told that Ban Johnson would fight us, but we thought Herrmann and Pulliam, who are on the National Commission, would be forming a compact.

on the National Commission, would be able to pull him down, but it turned out able to pull him down, but it turned out that they weren't. It looks to me as if the Eastern Class A leagues propose to give the big leagues battle, and they want us to join them. I think our peo-pie will go a little slow about getting into another fight. We are doing very well as we are, but of course will listen to what they have to propose. Of course,

## What To Do For Heart Trouble

I back up my advice with this Remarkable Offer:—A Full Dollar's Worth of my Remedy Free to Prove that I am Right.

There is nothing to promise, nothing to pay—either now or later. To any heart sufferer who has not tried my remedy—Dr. Shoop's Restorative—I will gladly give, free, not a mere sample, but a full dollar bot-

I am warranted in making this unusual offer because mine is no ordinary remedy. It does not vainly try to stimulate the heart. Such treatments are worse than useless. It goes straight to the cause of all heart trouble — the heart nerves—and strengthens them and vitalizes them and restores them. Then that is the end of heart diseases.

heart irouble — the heart nerves—and strengthens them and vitalizes them and restores them. Then that is the end of heart diseases.

For the heart itself has no more self-control than a common spongs. It is made to hear by a tender nerve so tiny that it is scarcely visible to the maked sys. Tet ten thousand times a day this delicate nerve must cause the heart to expand and contract. The heart is about the sias of your clenched fist. Open and close your fist a dozen times, even, and you will see the monstrous labor this little nerve must do.

The heart herve must do.

The heart sympathetic nervous system. Each branch of this system is so closely allied with the others that weakness or inguity allied with the others that weakness or inguity at any point is apt to spread. Heart trouble frequently arises from Stomach trouble through sympathy, and Kidney trouble may also follow. For each of these came sympathetic nerves—the inside nerves. The bond of sympathy between the nerves that operate the vital organs has a useful purpose, as well. For what will cure weakness in one branch will surely cure weakness in over branch will surely cure weakness in over branch will surely cure weakness in every branch—what will restore one center will surely restore them all.

There is nuthing new about this—nothing any physician would dispute. But it remained for Dr. Shoop to apply this knowledge—to put it, is nearctical use. Dr. Shoop Restorative is the result of a quarter of a century of endeavor along this very line. It does not dose the organ or deaden the pain—but it does go at once to the nerve—the inside nerve—the power nerve—and builds it upon a strengthens it and makes it well. If you have heart trouble and have never tried my remedy, merely write and sak. I will send you an order on your drugglet which will send you an order on your drugglet which he will accept as glaidy as he would accept a dollar. He will hand you from his shelves a standard-aired bottle of my prescription, and he will send the hill to me. This offer is
