It may be the Chief of Police keeps a private record in order that he may cneck up the Jelinguents. If he does no one but himself ever sees it. It is certain, though, that there are no delinguents.

The Chief of Police sends the money into the Municipal Court. It goes in instaliments, as hall deposited by a fictitious person. The Smlths, Browns, and Does, who are disorderly once a month, deposit ball for their appearance in sums that vary as the police treasury is affected by the receipt of sporting money. Whenever the sum on hand is deemed sufficient to be turned into the treasury a fictitious Smith or Brown fails to appear to answer a material charge of disorderly or some similar accusation. The money on hand appearing in Police Court as bail money is promptly turned over to the Treasurer as forfelted ball.

This is the programme as outlined by the Chief of Police, who knows what is done. The Municipal Court officials declare they do not know and there is no reason to believe they do. The Controller only knows the amount of Police Court fines, though he has tried several times to learn the sources from which the money flows.
