Three Men Proclaim Their Candidacy.

Enforce All Laws, While Fisher Announces He Is Opposed to the Tom Word Policy.

Three men yesterday proclaimed themselves candidates for the Republican nomination for Mayor—H. S. Rowe—ex-Mayor and general agent for the Chicago, Milwaukov & St. Paul; Willis Fisher, commercial traveler; W. B. Giafio, commission merchant. With George H. Williams there are now four avowed aspirants for the Grant's Pass Miners' Association, Greeph Moss, J. H. Howard and Charles Meserve was appointed to present the the Republican nomination.

bearer of the closed town element; George H. Howell, also of the closed town contingent; Fred T. Merrill, open town stalwart, and possibly Raiph W. Hoys and Dr. S. E. Josephi.

Rowe preceded Williams in the Mayor's seat and retired from the City Hall nearly three years ago. Owing to the fact that during a large part of his administration the town was open, some reformers have been looking askance at his candidacy, but his friends point out that inasmuch as he had no control over the police Jorce under the old charter, he cannot be held accountable for the open town policy pursued by the police commission at that time. Mr. Bowe yesterday filed notice of his primary petition of the Rev. Schaeffer, speaking to an ecount in today's Orrgonian of the Rev. Mr. Rowe remarked that he had come out as a candidate because urged to do sh by many persons. He said he had conferred with the leaders of none of the old-time Republican factions nor with the leaders of any political club nor with the chiefs of the Municipal Association. Neither had he consulted with any candidate for the office.

Figher for Liberal Policy.

Willis Fisher comes out boildy for what reformers call an open town, but for what he himself calls a properly regulated town. Just so with a city, When a minister is offered a higher salary by another church, he takes the higher salary,

Merrill to Challenge Albee.

Much interest centers in the candidacy of Albee who thus far has refained from saying whether he plans to enter the saying whether he plans to enter the primaries. Merrill has said that he will not go into the primaries unless Albee shall do so. Unless Albee shall speak soon. Merrill declares that he will challenge him to combat in the primaries.

Albee fi understood to have been holding back at the advice of his counsels until other candidates shall have annou themselves. His boomers have feared that if he should encounter Williams single-handed in the primaries he would be worsted. But some of them yesterday saw, in the advent of Rowe and Fisher and Glafke and Merrill, a bright light, in-asmuch as their candidate is the acknowledged closed-town champion and could draw the solid vote of that element, whils the open-town vote would be split between several candidates.

This evening the Missouri Society will held its weekly meeting for the purpose of enrolling new members and the appointment of various committees. The new officers are working very hard to make the Missouri Society the largest society in the city in the point of numbers. Robertus Love, recently from St. Louis, now engaged permanently with the advertising department of the Lewis and Clark Fair in this city, has consented to be present and give a reading from his poems, entitled. "Poems All the Wag From Pike." Mr. Love is the author of this volume, and he is considered to be to Missouri what Riley is to Indians.

All Missourians are cordially invited to be present on this occasion and join the society in extending welcome to Mr. Love.

WILL NOT BE INDICTED. Both Bridges and Booth Will Escape That Fate.

J. T. Bridges and J. H. Booth, the Register and the Receiver of the Roseburg Land Office, are not, in all probability, in danger of indictment from this Federal grand jury, which is about to reconvene for a term-ending session of five days. It has been rumored for a long time that both of the Roseburg officials would be indicted when the jury came together once more, but this is not now thought to be the case. The time is too short, and other things of greater importance are pressing on the Government

for recognition, so it is thought. It is not thought, however, that the lack of attention suffered by the two officials at the hands of the grand jury will of necessity shut them out from action coming from other sources. There is said to be little doubt in the minds of those connected with the Government but that the absolute removal of both Bridges and Booth from office will be given by Secretary Hitchcook inside of a month, that it is sure to come during

A long-drawn debate broke out over the question of appointing a committee to confer with the other political organizations as to bringing out of primary candidates. The proposal came trom Balph Hoyt, and was opposed by Mr. Keady, who argued that though such a committee was salvisable, its appointment was as yet premature in assuuch as precinct organizations had not yet been prefected. America, has a violin virtuoso created so great a furore as has young Fritz Kreis-ler. He has already been ranged side by side, in the opinion of the public, with the world's greatest violinists, and some critics have even placed him above any other of the present players. Kreister's programmes, which are unique in compilation, will be selections from the old composers, and there is no doubt of the royal satisfaction he will give. It takes a large degree of intelli-gence to appreciate the fine tachnique of so great an artist, but even without this special training and knowledge, the violin is the instrument that appeals surely and certainly to everybody. Mr. Kelly said that the rumer to the effect that the Longshoremen's Union was attempting to absorb all of the dock-workers associations and then break away from the American Federation of Labor, instituting an independent organization, was untrue and without foundation. The longshoremen wished to concolldate all of the marine workers into one large and well-ordered body, but had no desire to form any other organization from it.
