TROOPS TO CRIMEA

Fire of Revolt Breaks Out in New Part of Russia.

AMONG MODERATES ALARM

Revolutionary Propaganda Causes Bombthrowing in Warsaw, Riot-Ing at Yalta and Peasant Uprisings F and Wide.

ST. PETERSBURG, March 28.-C:30 A. M.) The internal situation is causing great anxiety, though it is said that the "intellectuals" and the educated classes generally disapprove of the revolutionary spirit which is permeating the peasantry and laborers in Poland. The Crimea is burning with discontent, and the strong hand of the military force has been loved to crush the incipient revolution at Yalta, near the Emperor's Summer resi-dence. The spirit of disorder has spread

Moderate Liberals in St. Petersburg are becoming alasmed at the situation, re-ports having been received showing that an actual revolutionary propaganda is be-ing pushed with vigor in many sections of the empire. The authorities of the government at

Saratoff are closing the schaccount of the peasant disturbances.

NOT EXPERT BOMBTHROWER Baron Von Nolken Owes Life to Assassin's Blunder.

WARSAW, Russian Poland, March 27 (Liss P. M.)—Baron von Nolken, chief of police of Warsaw, who was injured by the explosion of a bomb yesterday, owes his life to the bad aim of his assailant, who threw the bomb behind, instead of underneath the carriage. The body of Von Noticen is full of innumerable splinters of the bomb. His assailant has not yet been found.

The man who previously threw a bomb The man wan previously threw a some into the police station at Praga, a suburb of Warsaw, injuring six policemen, is believed to be dying. He was injured by a fragment of the bomb, as well as by bullets fired at him by the police. He refuses to reveal his identity, but dechares himself to be a Socialist. The greatest excitement prevails throughout this city. Baron Von Nolken is believed to be out of danger, but he is suffering intensely.

Further investigation shows the care with which the plans of the conspirators were laid. A number of persons of the poorer class proceeding on different streets in the direction of the place just before the bomb was thrown were warned by persons evidently posted for that purpose to go in some other direction.

NOBLES OPPOSE CONSTITUTION

But They Favor Putting Brake on Arbitrary Rulers.

MOSCOW, March 27 .- A meeting of the nobility of the government of Moscow, in which there were participating also representatives of the nobility from various sections of Russia, has pronounced against constitutional government of the kind enjoyed by the nations of Western Europe, considering such institutions un-suitable to this country on account of the geographical and ethnological conditions of Russia and the political development of the Russian people. The nobles are of the opinion that some degree of pop-ular representation should be introduced, but there should be no limitation of au-

but there should be no limitative arbitraritocracy but on administrative arbitrariness, and that the ruler and the people
should be brought into closer touch.

The bar of Moscow at a meeting adopted a resolution calling for a popular assembly to formulate a constitutional act
defining and limiting the governmental
system. The meeting also advocated the
formation of a civic militia for the protection of citizens and control by municipallities or Zemstvos, to which control of
the police should also be transferred.

As showing the faith existing in remote sections of Russia that the imperial rescript of December 25 assures the estab-lishment of a Parliament, petitions are already being received addressed to the "National Assembly," and last week the Parents of school children at Ekaterino-the same city and with the dates of slav, South Russia, met and adapted for-mal resolutions for submission to the Parliament, asking for the enactment of great convenience to active men in all hiws giving the public share in the ad-ministration of the schools and the free gloa. The Pope also referred to the persecution of the church in some of the South and Central American republics, especially in Nicaragua and Ecuador, citing the laws passed by the last named republic against the church, providing for the confiscation of the property of the religious orders, in interfering with the liberty of the religious associations and putting obstacles in the way of the appointment of new bishops.

To offset this, the pontiff mentioned the fact that the arbitration between Chile and Peru had been entrusted to the papal representative, which had caused the Holy much satisfaction.

See much satisfaction.

Another passage in the allocution says:
"Among other things it grieves our souls that the horrors of war are now devastating the extreme East with fire, blood and death. O, what tears are shed there! Those who represent on earth him who was the author of the gospel of peace we ardently beg may receive from God inspiration to advise Princes and peoples to come to peace. So many and so great are the svils that afflict the human race everywhere that there is no need to have recourse to war to make things worse."

The allocution ends by recalling the recourse to war to make things worse."

The allocution ends by recalling the recent jubilee of immaculate conception and praying the virgin to intercede for the joys of peace that are so much desired.

WEAKENS FRENCH INFLUENCE

Kalser's Visit to Morocco Causes Alarm in Paris.

PARIS, March 27 .- The situation in Merocco causes serious apprehension in official quarters, and it is understood that the French Minister at Fez has been requested to bring to a speedy conclusion the negotiations whereby he seeks to secure the Sultan's approval of France's policy in administering the country. In the meantime Emperor William's proposed visit to Morocco cromises to cause the Sultan to delay arriving at a decision and to encourage a demonstration against the French policy. There is a growing belief in high quarters that the German Emperor's visit is coincident with Ger-many's asserting strong claims relative to Morocco

SPEAKS A WORD FOR HIMSELF Duke of Orleans Issues Manifesto In Favor of Monarchy.

PARIS, March 27 .- The debate on the bill providing for the separation of church and state was renewed in the Chamber of Deputies today. Count Boni de Cas-tellane (Republican), who was among the speakers, maintained that the measure did not mean the separation of church and state, but the extinction of the

church by the state.

A manifesto issued by the Duke of Or-leans is attracting much attention. It says a restoration of the monarchy is ssary to restore an orderly adminis tration of the country and to insure re-ligious liberty. The manifesto is regarded as an ap-peal to the clerical element.

THE LAXATIVE OF KNOWN QUALITY There are two classes of remedies: those of known qual-

ance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience

ity and which are permanently beneficial in effect, acting

gently, in harmony with nature, when nature needs assist-

containing nothing of an objectionable or injurious character. There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the
