Astoria Preacher Refuses to Unite With Evangelists.

### MONEY CAN BE BETTER SPENT

Rev. W. S. Short, of Grace Episcopal Church, Tells Parishioners Why He Will Not Join In the Revival Services.

ASTORIA, Or., March 30 .- (Special.)-At the regular midweek services of Grace Episcopal Church last evening. Rev. W. S. Short, rector of the Rev. W. S. Short, rector of the church, severely scored the methods adopted by the evangelists who are now conducting services in this city and Portland. A movement is on foot to induce the evangelists who are now at Portland to come to Astoria, and Mr. Short was requested to unite with Mr. Short was requested to unite with the local ministers and others in arranging for these proposed meetings

This Mr. Short declined to do, and for his refusal has been criticized by some are taking an active interest in the mater. His remarks last evening

ed. Mr. Short said:

Beloved Friends and Neighbors: As your fellow-didgen now for well-nigh 20 years, and as your Christian minister (which I conceive to mean the servant of all), I declire to have a pinin talk with you.

Enthusiasm and emotion can be aroused by any traveling crank, fool, knave or prescher.

by any traveling crank, fool, knave or preacher.

True Christianity and truth are not temporary nor mere enthusiasm or emotion, but are permanent life and habit it takes more courage, ability and powers to stay by your guns through ee'jl report and good report; to work in the dark as in the light; in dull times or good; when enthusiasm has died out as when it is at white beat, than when surroundings are all practically favorable. It costs money for traveling teachers as well as for resident instructors, for traveling evangelluts as well as for resident ministers. A traveling wayfarer can stir up more mischief in ten minutes than the resident minister can aliay—before the next traveler comes. As a matter of fact this constitutes a considerable portion of the resident minister; work these days.

Home production and patronising home induarries apply with special force to the

resident ministers here.

A neighboring city is just now in the
throes of a diagraceful jurring and clashing
brought about by outsiders, and wholly uncalled for, as it seems to me by men who
say: "We are not here pressing our individual claims and the evangelist does not flaunt
his former career before the public. He tells
his story because urged to do so and because
men representing the best life of the cities
we have visited have considered it helpful to
those who are sorely in need of cheer. This
service is mainly to be held for men who are
hopcless and helpless."

These statements which I here emphasized
stand for themselves. You must be the
judges of their reasonableness. Fifty thousand dollars for such a thing! (I have read
and been told that these travelers are
hacked up by that hum of money!).
Brethren, think twice before you lend your
influence to such and to such a probable
outcome in your own city, or countenance
any organization which upholds such essautional emotionalism or smotional sensationalism.

ABERDEEN, Wash, March 36.—(Special)—Master in Chancery W. A. Worden, of Tacoma, and United States District Attorney Jesse A. F. Frye, of Scattle, who have been on Gray's Harbor for the past-three days taking testimony in the Humptulips boom case, returned home this morning. The testimony was taken in Hoquiam on account-of the convenience to the witnesses. About 30 witnesses were examined and about 500 pages of testimony was taken.

The case is entitled, "In re the United States and the Humptulips Boom & River Improvement Company," and is similar to the suit brought by the Government against the Wishkah boom, and recently decided adversely to that corporation in the Circuit Court of Appeals at Ban Francisco. Lumbermen see great danger to the lumbering industry in this class of suits, for, as they say, if booms cannot operate on these streams, then these waters was a to the united streams, then these waters was cannot be used at all for the floatoperate on these streams, then these waterways cannot be used at all for the float-

Attorney for Majority of Men Under 150 Indictments Tries to Prevent Sheriff Brown From Drawing the Jurors.

BAKER CITY, Or., March 30 .- (Spe cial.)-Interest in the trial of the socalled whisky cases, under about 150 indictments by the recent grand jury, was intensified this afternoon soon after the second case—that against William Eblin, for keeping open on Sunday —went to the jury, and the third case, that of Gus Anderson, of Bourne, was

The courtroom was crowded, and it was expected a verdict would be reached in a few minutes, and the people waited to hear it. Many leading attorneys and citizens were present. The jury, however, returned at 4:45 o'clock for a reading of their instructions, which were explicit, sithough a little different from the instructions in the first case.

Just at this time a bomb was thrown into the arena by Hon. John L. Rand, who represents the majority of the defendants, by making a motion that the County Coroner, Dr. T. N. Snow, who has held office for many years and is highly respected, be appointed to draw the jurors, instead of the Sheriff, on the ground that Sheriff Brown is an interested party in the trial of the cases, having entered back doors of saloans in person on Sunday to obtain evidence against defendants.

The courtroom soon became packed

as the news spread, and a heated argument between District Attorney Lomax and Mr. Rand ensued, during which the court had occasion to call both gentle-men down. At times it seemed to bymen down. At times it seemed to by-standers that counsel might get into serious conflict. As was the case in the trial of the gambling cases in Port-land, where the Coroner was empow-ered to draw the juries, Mr. Rand charged the Sheriff bad exceeded his duty and was an interested party in the trial, while the District Attorney main-tained the Sheriff was called upon of his own volltion to ferrer out all crime his own volition to ferret out all crime and prosecute and arrest lawbreakers. even without warrants.

There is no other way, and the idea that a medi-cine in itself can purify the blood or sup-ply new tissues and strong nerves is ripiy new (insuea and strong nerves is ri-diculous and on a par with the fol-de-rol that dyspepsia or indigestion is a germ disease, or that other fallacy, that a weak stomach which refuses to digest food can be made to do so by irritating and in-fiaming the bowels by pills and cathar-

tics. Stuart's Dyspepsia Tablets cure indi-gestion, sour stomach, gas and bloating after meals, because they furnish the di-gestive principles which weak stomachs lack, and, unless the deficiency of pepsin and diastase 's supplied, it is useless to attempt to cure stomach trouble by the use of "tonics," "pills," and "cathartics" which have absolutely no digestive power, and their only effect is to give a

One grain of the active principle in Stuart's Dyspepaia Tablets will digest 3,000 grains of meat, eggs and similar foods, and experiments have shown that they will do this in a glass bottle at proper temperature, but of course are much more effective in the stomach. There is probably no remedy so universally used as Stuart's Tablets, because it is not only the sick and ailing, but well people who use them at every meal to insure perfect digestion

and assimilation of food.

People who enjoy fair health take Stuart's Tublets as regularly as they take
their meals, because they want to keep
well; prevention is better than cure, and
Stuart's Dyspepsia Tablets do both; they prevent indigestion and they remove it where it exists. The regular use of one or two of them after meals will demon-strate their merit and efficiency better than any other argument.

Above all other things, we strive to save the thou-sands of young and middle-aged men who are plung-ing toward the grave, tortured by the woes of nervous debility. We have evolved a special treatment for debility. We have evolved a special treatment for Nervous Debility and special weakness that is uniformly successful in cases where success was before and by other doctors deemed impossible. It does not stimulate temporarily but restores permanently. It allays irritations of the delicate tissues surrounding the lax and unduly expanded glands, contracting them to their normal condition, which prevents lost vitality. It tones up and strengthens the blood vessels that carry nourishment. The patient realizes a great blight has been lifted from his life.
