#### BUTTER SELLING FREELY.

Demand Stimulated by Monday's Reduction -War Not Likely.

The all around cut made in butter prices market to a considerable degree and there is no reason why the activity should not increase. too high all winter and have restricted much buying. The local market, though active, is barely steady at the new prices and is almost sure to go lower. San Francisco dropped yeaterday to the 20-cent basis, which will again give the Californians an opportunity to sell in this market and may bring local prices for extra creamery down to 25 conts or even 22% cents at Ban Francisco, however, the market will cease to trouble Portland, as the California dealers will then begin storing their surplus. Should the Portland nurket get down sufficiently low, buying will also begin here for staring at San Francisco. This, with the cold storage operations in this city, will bring the market to its true basis, so far as supply and demand is concerned, consequently a butter wer is improbable.

### PORTLAND MARKETS.

TENNESSEE COAL WAVERS

ITS ERRATIC MOTION UNSET-TLES STOCK MARKET.

Unusually Large Number of Minor Specialties Dealt In, but Aggregate of Transactions Smaller.

NEW YORK, April 4.- The complexion o oday's stock market was decidedly mixed. As unusually large number of separate issues were dealt in, notwithstanding the smalle aggregate of the transactions. Many usually neglected specialties and industries were dealt in. Both the principal gains and losses were found under this classification. Railroad stocks were sluggish throughout and for the most part were heavy,

The decline in the stock market seemed to be in part due to the unsettling influence of the erratic fluctuations in Tennessee Coal. Prices of that stock were up and down all day, and operators in the market were at a loss to determine whether the terms of the proposed merger or the distross of an uncov-ered short interest was responsible for the wavering inction of the stock.

wavering motion of the stock.

The passage through one house of the New Fork Legislature of the stock transfer iax and the belief that its enactment into law was certain had some revived influence in the uncertain mood of the speculation. The inquisi-torial tendency or tegislation and public policy toward corporations and the prevalence of in-vestigations into their affairs came in forconsideration. The emblitered controversy which has sprung up in the affinitization of the Equitable Life Assurance Society and the Investigation thus prompted has the effect

f emphasizing this impression. The very prominence of the low grade in-dustrial stocks, even where they give evi-dence of strength, is regarded as an evidence that the high grade stocks have exhausted their resources for an advance and begins sus-picion of the stability of the whole market. Some of the day's abortive movement in the better class of stocks was suspected of being better class of stocks was suspected of being manipulative and designed to offest this char-acteristic of the market. The absence of long expected announcements, which have been supposed simply to await the conclusion of the Northern Securities case, induces a feel-ing of suspense and distrust over the extent to which mysterious alturations and rumous have been allowed to influence great speculative movements in various stocks. There is a feeling that some of these musterles must either be dissolved soon or be replaced for effective new factors if prices are to be sur

tained at their present high level.

The tope of the money market shows some relaxation in consequence of the completion of the April settlement, but not to the extent that sanguine speculators hoped, and the nor longation of higher rates of interest. It is evident that many important capital issues have been planned to take advantage of the nermal accumulation of resorves at this time of the year, both here and abroad, and this blane of requirements will, of course, take procedence in stock market borrowing.

The most substantial sustaining influence is oday's market was the heavy accumulation of United States Steel stocks. Reported large soying of pig fron by that corporation is a of response in the securities of the company has been the cause of dissatisfaction in the market. The rire in the Southern Railroad group was attributed to the enlarged cotto movement and to the advantages to acreue from a rising scale of freights on from due to a sliding adjustment in harmony with from prices. London was a seller of stocks in this market to an extent sufficient to harden the rate for exchange by reason of the demand for remittances in payment. There was suc-tained strength in a few of the industrials. but the persistent heaviness of the railroads made the closing irregular. Ronts wave irregular. Forst sales, par value, \$4.810,000. United States bonds were all

unchanged on call.

Eastman Buys Another Paper. CHICAGO, April 4.-John C. Eastman, owner of the Chicago Journal, today confirmed the announcement from Columbus, O., that he bad added the Evening Dispatch of Columbus to his newspaper holdings. "The formal transfer of 75 per cent of the stock was made to me Wednesday of last week." he said. "It was a cash transaction. No change in the policy of the Dispatch will occur. The present organization will be retained and several men who have been prominent in the management will be promoted to executive offices in the company, as I shall re main in Chicago. My Chicago paper and the Columbus Dispatch will work to-gether along many lines, but the proper-ties will not be consolidated."

Forest Fire in the Alleghenies.

HAGERSTOWN, Md., April 4-Efforts to check the forest fire raging on South Mountain, east of this city, have been futile, and the mountain people are pray ing for rain. The fire has swept a disthe mountain, from Smoketown to Beave Creek, and crossed the range in Frederick County. Residents have been fighting the flames day and night for five days. fire that has been burning on the Hearth-stone Mountain, of the North Mountain range, west of here, has been checked in vicinity of Casey's Knob. The loss is heavy.

ST. PETERSBURG, April 4 -- M. Bakm the diplomatic agent of in Bulgaria, has been appointed Russian Minister at The Hague, in place of M. Struwe, who resigned on account of ill health. Mrs. Bakhmetcff was formerly

THE PERKINS. A Balley, Seartle G Weber, Greenhor Inter Berenson, Thos J Smith, do John Levans, do

SAN FRANCISCO, April 4.—(Special.)—Local handless of heps are quoting a firmer market with an advance of I cent over the recent quotations for spet goods. Contract figures we remain as before. The market, which has been rather quiet, is showing a little more activity all around.

Receipts of wool are increasing but the bulk of arrivals represent stock contracted for, in the country on private terms. No definite local quotations have been established. The feeling is firm.

The Chicago market being closed, local speculation in wheat was at a standstill. An easier feeling prevailed, but prices had little change. Heavy receipts of barley caused a weaker tope to that careal. Outs were dub but held steady. Feedstuffs were in light supply, quiet and firm.

Receipts of uranges were lighter on account.

Master Berenson.
