I admiré Dr. Hutchinson very much, and think he is perfectly capable, and do not hesitate to say that he doubtless believes he is doing the best thing for the institution in having me discharged, but I think that, had he not listened to those that have persisted in interfering with my methods of conducting the sanatorium, he would still think me competent. He has listened to a lot of malicious lies, and having no reason to doubt the persons that told them he has mistreated me."

Patients Favor Matron.

The patients were interviewed yesterday as to their intentions when they signed the petilion asking that Matron MeLeod be retained, and without exception they stood steadfast to their declarations that if Miss McLeod was forced to leave the sanatorium they would go also.

As evidence of the esteem in which Matron McLeod is held by the patients, it is stated that when the Japanese help left the patients volunteered to assist in the cooking and did all the work about the kitchen one morning as a help to Miss Mel.cod.

Dr. Woods Hutchinson, the president of the medical staff and member of the board of directors, has taken a great inteerst in the Open Air Sanatorium, and to his efforts a great deal of the success of that institution is due. He was asked to make a statement last night but refused further than to say that Miss McLeod had been discharged for incompetency and refusal to obey the orders of the members of the medleal staff.

Resident Physician Chosen.

At the meeting of the board of directors, held Monday, Dr. E. N. Crockett was chosen as resident physician and he will hereafter live at the institution. Since the organization of the sanatorium the staff prysicians have takenturns in attending to the patients and this is the first appointment of a resident doctor.

Dr. Hutchinson was the first to take his turn at the hospital and was followed by Dr. E. N. Crockett, Dr. H. C. Jefferds was the next in taking charge of affairs, but within a week after his first visit he tendered his resignation us a member of the medical staff, alleging as his reason for the sudden termination of his efforts that Matron Mc-Leod would not obey his orders and that she had not taken the temperature of the patients as ordered.

Dr. Crockett told of his experiences with Matron McLeod, but said that he had no serious trouble with her. He berease as a series and the se
