Another Strike Will Con vulse Chicago.

CAUSED BY RIVAL UNIONS

Labor Federation's Strife With Socialists.

FIGHTING TO SAVE PRESTIGE

Teamsters Will Strike to Help the Locked-Out Garment-Workers, and Disorderly Scenes May Result.

CHICAGO, April 6 .- (Special.) -- Beginning at 8 o'clock tomorrow morning. Chicago will face a general strike of teamsters, a labor movement always accompanied by riots and bloodshed. Judge Dunne, the incoming Mayor, may find something to distract his attention from municipal ownership until the strike is settled. The strike will be of the "sympathetic" variety, always more vicious and disorderly than where men directly interested are involved. Chicago has been singularly free from labor disturbances since the disastrous stockyards strike, and there are many scores to settle.

After a conference tonight between R. J. Thorne, of Montgomery, Ward & Co., and a committee of the Chicago Federation of Labor, the union chiefs announced that they would order all union drivers to stop doing any work whatever for the big mail order house after 8 o'clock tomorrow morning.

All Teamsters Will Be Drawn In. If the strike is ordered, all of the railway express wagon-drivers in the city are expected to be drawn into the con flict. Most of the clothing made by the nonunion garment-workers who took the places of strikers last November is handled by the express companies. The strike is to assist the striking garmentworkers, and the first move of the wagon

men will be to stop delivery of nonunion clothing by those companies. General agents of the express companies have determined upon a course for tomorrow. Any of their employes who refuse to do their work will be discharged. This, according to Mr. Barry, business agent of the express wagon men. will be the signal for a general strike of railway express teamsters and con-

Coal, furniture, truck and provision wagon-drivers will be drawn into the strike. No union driver will be permitted to do any work for Montgomery. Ward & Co. until the garment-workers' grievances are adjusted; according to inbor leaders. 1

Federation's Fight for Life.

The Chicago Federation of Labor, urged on by the American Federation of Labor, will pay all striking drivers benefits. During the last year the American ing with the lumber drive, and when the Federation has seen a number of its United States Marshal served the writ, strongest unions wiped out of existence. drove him away with a revolver. He A rival organization has been started by the socialists. It is said to be the plan of President Compers to take a hand here and win the garment-workers' strike and prevent the destruction of the union. The stockyards unions, the machinists and the metal frades, the flat and office building janttors' unions have been broken up, and the American Federation has determined to save the garment-workers and its own prestige in Chicago.

It is feared that the socialists will be up the American Federation, if the old National body does not get out in the field and win the garment-workers' The teamsters have been chosen to do the work, but the indications are that, if they start to cause a general disturbance here, the business interests will be united and put an end to many of the outrages to which they have been subjected by the unions for several years.
