HE LAXATIVE OF

KNOWN QUALITY

There are two classes of remedies: those of known qual-

ity and which are permanently beneficial in effect, acting

gently, in harmony with nature, when nature needs assist-

ance; and another class, composed of preparations of

unknown, uncertain and inferior character, acting tempo-

rarily, but injuriously, as a result of forcing the natural

functions unnecessarily. One of the most exceptional of

the remedies of known quality and excellence is the ever

pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of

plants, known to act most beneficially, in a pleasant syrup,

in which the wholesome Californian blue figs are used to con-

tribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system

gently and naturally, and to assist one in overcoming consti-

pation and the many ills resulting therefrom. Its active princi-

remedy has therefore met with their approval, as well as with

the favor of many millions of well informed persons who know

of their own personal knowledge and from actual experience

that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers: those who are informed

RECORD OF ESCAPES.

Three prisoners out of six escaped from Patrolmen Smart and Carlson, acting as guards for the rockpile gang, yesterday afternoon. Among the men to gain at east temporary liberty was Ben Darwin, whose record of escapes since his arrest here on a charge of vagrancy

who escaped yesterday were Tony Gallagher, serving 90 days for agrancy, and Ned Buker, serving 150 days for vegrancy. \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

There was a very quiet but exceedingly bumiliating escape from the city rockpile at 3 o'clock yesterday afternoon. There was nothing sensational about it except the sensations experienced by the three prisoners as they slid under the fence to liberty and that of Patrolmen Smart and Carlson, acting as guards, when they made the discovery, three men were left.

Among those who gained freedom was Ben Darwin, the veteran "escaper," who has now broken all records in that line. This was his third break from the po-lice since his arrest early in February. Once before he got away from the same rockpile, and once he went out through the top of the bathroom of the City Jail with three others.

With Darwin yesterday in the flight were Tony Gallagher, serving a term of 50 days for vagrancy, and Ned Buker, serving a term of 140 days on a similar charge. The escape was reported to police headquarters immediately after it occurred, and all patrolmen were notified to be on the headquarters.

It was the aggravating quiet with which he prisoners got away that is the cause of such chagrin to Patrolmen Smart and Carlson, acting as guards at the time.
"Why, it just makes me sick," said Patrolman Carlson, "It was so easy and so simple for them to get away that it makes me feel like 20 cents. There was a high pile of rock next to the fence, and under the fence nothing but a pile of dirt, soft as flour. The three prisoners simply waited until I was watching the other men on the opposite side, slunk along behind the stone, shoved the dirt from under the fence and walked away. When I missed them I investigated, and were gone,

Of the prisoners who have escaped of late, all have been recaptured except frank Gnartrahe, who escaped with Darwin; O. Kelth and Henry McGlotn from the City Jall bathroom, and those

who got away yesterday.

To add to-the humiliation of the case, yesterday was the last day of service of Patrolmen Smart and Carlson as guards. It had been planned for some time by Chief Hunt to transfer them to regular patrol duty, and an order to this effect was posted last night.
