QUESTION UP TO NEW COUNCIL.—The present Council of St. Johns has passed the question of buying the fire apparatus contracted and paid for in worthless warrants up to the new Council, which will step into office next Monday night. The bill is \$150. Perhaps the new Council will want to investigate the "purchase" before acting finally. However, the new Council will first take a look into the treasury vaults, which are said to be as empty as "Mother Hubbard's" cupboard. The finance committee will find something to worry about at the start, for the new city must have cash, and plenty of it. Besides the little bill for fire apparatus there are several small accounts to adju-dicate, and a bond issue looms up in the near future.

PICTURES FOR EDUCATIONAL EXHIBIT.— Principal Teuscher, of the St. John's Public School, is having many pictures taken for the educational exhibit for the Fair. Interior views of the Portland Woolen Mills, Jobes' Flour Mills, the saw-mills and other industries are being taken. These photographs will show the processes of all these industries from the start to the close, litustrating the methods of manufacturing. School children of the higher grades will be taken through these establishments and given opportunity to learn about them. Then they will write out in condensed form their ideas of what they have seen, which will be placed alongside the pictures, thus forming the Illustrated story.

CLACKAMAS COUNTY HAS CENTENARIAN.— Deputy Assessor Morris, while in the vicinity of Wilsonville, Clackamas County, discovered a centenarian, in the person of Edward Loney. Mr. Loney celebrated his lotth birthday last October, and says he intends to celebrate several more birthdays. He is a hale and hearty man, and one would hardly believe he has lived 100 years. He cats three hearty meals a day, and does not depend on predigested health food, but parinkes of good solid victuals. He gets up bright and early every morning and can do a fair day's work. Mr. Leney is probably the only man in the state who has reached the

Colo. and at Pendleton, Or., and it is now desired to locate in some central point and centralize its officers and business at that place. Fortland is regarded with favor by the membership. However, in order to secure the headquarters of the order some substantial inducement will be re-quired. A building jot will have to be
