City's Offenders Before Judge Hogue

J. E. Hazeltine is so strongly prejudiced against liquor, and against men who sell it and those who are engaged in the sa-loon business, that he could not serve as

a juror in the case of the city against Herman Schroeder, in the Municipal Court, yesterday morning. After he was closely questioned by Judge Hogue and by Attorney Watte, the latter for the defense, he was excused. He said be would not give as much weight to the estimony of a bartender, or attache of saloon, even if it seemed reasonable and rue, as he would to another witness. Judge Hogue at first thought Mr. Ha-seltime did not fully understand the ques-ions that were asked, but when the juror

requires all liquor establishments to be closed between 1 and 5 A. M. A jury composed of Ben Selling, Thomas McCus-ker and G. U. Phillips tried the case, and found the factors found the defendant guilty. Judge Hogue fined him \$25, and an appeal was taken. Schroeder was arrested upon complaint of Patrolman Lee, of the second relief of police, who charged that the saloon was open and doing business at 1:45 A. M., April 4. Lee testified that he saw lights the place; that he peered through a crack in the door and saw the bartender

there; that he heard volces with heard the rattle of poker chips. He also said he watched until he saw the door said he opened and three men walked out of the Patrolman E. S. Nelson, who was going

home after his hours of duty, also test fied. He merely saw lights in the saloon as he passed, and saw Patrolman Lee standing across the street, watching the

Frank Schroeder, father of Herman Schroeder, size testified. They all swore that there was no liquor sold after that hour, but the jury, by its verdict, showed the balance of the sources. It belleved otherwise. Contempt proceedings against Attorney

Voltempt proceedings against Actionary W. T. Vaughn were indefinitely postponed yesterday, when Municipal Judge Hogue mounted the bench. This is because of the filmess of Attorney T. G. Greene, chief counsel for the defense. Arguments were to be made, and citations of author-titles given as to why Judge Hogue who

is the complainant, should not try the cane. Briefs are to be submitted to Municipal Judge Hogue today in the case of the dty of Portland against the lessees of the Pacific States Packing Company, charged with maintaining a public nuleance and with operating a slaughter-house inside the corporate limits, contrary to law. The cases will not go to trial, but a definite date will be set

"Usually when I take vacations I have fairly good luck, but this year the odds seemed to be against me," said Alden J. Biethen, editor of the Seattle Times at the Portland Hotel yesterday, who was in this city on his way home after spend-ing two months in Lower California. "I have been down in California for eight weeks, and nearly all the time the weather has been chilly and disagreeable. But here in Washington and Oregon I under-stand you have been experiencing the most delightful weather, and that prac-tically every day I have been away the days have been warm. In California it has been raining almost constantly, but here you have had but yare utile wat here you have had but very little wet reather

"I was really surprised when I got to San Francisco to find that we are do-ing more building in Scattle than they are there," continued Mr. Blethen, "There are twice as many buildings being erect-ed in Seattle as there are in San Fran-cisco. I understand that Portland is also going ahead in rapid strides, but I have not had the time to look over your city. "I rather hate to say it, but it is a fact that Los Angeles is building up fas-ter than any town on the Coast. It is really wonderful. Business blocks, ho-It in tels and magnificent residences are going up in all directions. It is progressing far more rapidly than San Francisco."

Wallace, a taxidermist from Omaha, Neb., employed at Burns, mounting the specimens of the different birds and ani-mals such as we have in the eastern part of the state. The greater part of the expense entailed in the gathering and mounting of the bird and animal exhibit falls upon' the citizens of Burns.

Onbeing our nearest point, and it tural for us to become aroused we get to talking about a railroad. Several times it has looked as though we would get a line built in there, and I firmly believe that inside of two or three years we shall be con-nected with one of the main lines. It

may take five or six years but we shall eventually get our road as the coun try tributary to Burns is too rich and productive to be without adequate transportation facilities for very much longer.
