UNIQUE BIRTHDAY CELEBRATION

On May 2, 1842, at "Old Champego," a baby in-
fant, which was christened "Provisional
Government," was born at which Joseph
Meek, F. X. Matthews, William H. Gray,
Rev. J. L. Farris, Rev. J. S. Griffin
and "G" others, stood sponsors. The 63d
anniversary of this momentous event—the
birth of civil government on American
territory on the Pacific Coast—will be ap-
propriately celebrated on Tuesday, May
2, prox. Ex-Governor Geer has consented to
act as president of the day, and the
Aurora band will provide music. Hon.
Robert U. Smith, a native son of the state
and ex-creator from Josephine County, will
also be the principal address. Brief re-
marks will be made by others. Hon. F.
X. Matthews, the sole survivor of the dis-
tinguished event in which his parents
participated, and who celebrated his 85th
birthday a few days ago, is in excellent
health and will be present. The Aurora
will leave the foot of the mountain at
Champego at 4:45 A. M., and returning
leave Champego at 4 P. M. for Portland.

CHANGES IN POSTAL SERVICE

When the postoffice is removed to the new Federal
building next month several changes will
be made in the sub-station system. Owing
to its close proximity to the central
office station, it located in Meier &
Frank's, will be discontinued, and a new
station opened on the ground floor of the
Chamber of Commerce building. This
letter station will really take the place of
the former branch located in Woodward,
Clarke & Co.'s, and the work of its es-
tablishment is now in progress. The new
station A, located at 115 Union avenue,
will also be opened next month, and will
be the largest and most important sub-
station on the circuit. The clerks now in
station 11 will be returned to the main
office and the new stations filled from
there. These changes, including the re-
moval to the new central station, are ex-
pected to be made about May 15.

PLANS FOR PUBLIC DOCK AT ST. JOHNS

Councilman J. H. Shields, of St. Johns, has
the plans and specifications for a
public dock to be erected at the foot of
Richmond street, as prepared by City En-
gineer H. J. Smith. It is proposed to oc-
cupy the full lot at the foot of the
street. There will be an upper dock with a
roadway for a lower dock when the
water is low. Everything is now ready to
let the contract, but Councilman
Shields hesitates as there is not money
enough on hand to pay for the work, and
he fears that he might be held responsible
if the contract should be let under the
circumstances. A public dock is
greatly needed, as steamers cannot land
there at present.

GAIN MANY NEW MEMBERS

As a result of the recent membership contest
among the Milwaukee, Wagon, and
Camp, 38, Woodmen of the World, nearly
50 new members were secured, making
the total 118. Cap Kerr led the side
which secured the most members, and
William Jacks the losing side. The lat-
ter paid for an oyster supper given in the
hall last evening, where plates for 70
were set out. A general good time was
held and there was great rejoicing over
the result of the contest.

WATER TOO TURBID

Yesterday at 12 o'clock a horse attached to an
express wagon No. 360 on the Burn-
side bridge with great speed. He plunged
through the gate at the end of the east
side span, which had been closed as the
draw was open. It was expected that the
horse would plunge into the river, but
when he reached the end of the span he
took one look downward and then slowly
retreated out of danger.

REDUCTION OF BILLS

The March bills of the Portland Electric Com-
pany for lighting the city's streets have
been reduced by City Engineer Wanzler
according to the old method as the new
plan has not been adopted by the Execu-
tive Board. The bill as presented by the
company amounted to \$528.12, but after
the deductions were made by Captain
Wanzler it was \$481.12.

day afternoon while playing in the yard
at East Sixteenth and Ankeny streets.
She was romping about playing with the
dog, when it bit her cheek. A physician
was immediately summoned and the in-
jury dressed. It is not believed serious
results will follow.

Representative in every detail,
and comprehensive in its scope will be
the exhibit from Clackamas County at

among the producers of the county in
contributing samples to be used in mak-
ing up the exhibit closed today with the

In the way of agricultural products

perior wheat, oatmeal and corn being

some perfect corn from the field of W.
W. Jesse, at Barlow, in yield being 45
bushels to the acre. In addition there are

paper. The samples will be assorted im-

Believes in Vegetarian Diet for Mankind

By W. H. Galvans.
NEVER has better work been done
in Portland than now by the Women
of the School of Domestic Science
who are endeavoring to show the
community that the city's meat
debt of gratitude for their timely invest-
ment of the butcher shops and fish
and poultry markets, where the mangled
remains of inoffensive animals are sold
to gratify the refined tastes of spiritual
man. They have made a most excellent
beginning, and judging from what they
have already accomplished, it is safe to
assume that they will carry out a most
interesting programme. By this, of
course, I mean that they will give full
publicity to the fact that the people
may know the nature of the stuff they
daily consume, and the actual conditions
under which such stuff is obtained.

W. H. Galvans, Who Has Eaten No

Flesh Food for Many Years.
I rejoice at what is just now being
done through the efforts of the School of
Domestic Science. To me there is an
assurance in such work that the race
will some day redeem itself from the
barbarism of the slaughter-house, an
mistakable prophecy that the future may
bring a reappearance of "a vigorous race
of unadorned mankind," as in the days
of early nature, the age which men called
Golden. And thus, instead of adhering
to the doctrine, "Arise, and slay, and eat,"
humanity will once more turn to the
plant world, the original source whence
all food is supplied us.

In the same time it will thus redeem

itself from the civilized savagery of feast-
ing upon the flesh and blood of victim-
ized, tortured and mangled fellow-crea-
tures, who, as far as all audible and vis-
ible evidence points, have sprang from
the same source with the paragon of animals,
and as such must share the same des-
tiny.

For almost one-half of my life I have

subsisted upon a vegetarian diet, and I
am firmly convinced of the great advan-
tages such a diet affords. But above all,
I rejoice in the realization of the fact
that the maintenance of my life does not
require a daily sacrifice of the lives of
any living creature. Would that all oth-
ers might see this matter in the same
light.

SEEKERS OF OFFICE

Republicans Are in a Great
Majority.

FEW DEMOCRATS ON PETITION

New Deal by Nominating Commit-
tee Hopes to Secure Control
of the City Central Com-
mittee Next Time.

CANDIDATES WHO SEEK OFFICE

Table with 3 columns: Name, Party, and Status. Lists candidates for Mayor, City Attorney, Municipal Judge, etc.

Unless the several Republican organiza-

tions, including the "machine," look
sharp, the "New Deal" will capture the
new City Central Committee, which is to
be composed of one man from each of the
38 city precincts. The 38 patriots are to
be elected in the primaries, and, according to
some authorities, are to supplant the 38
city precinct committeemen on the City
and County Central Committee chosen by
the county Republican convention a year
ago.

New Dealers are nominating candidates

for the 38 seats on the committee, and are
evidently electing a majority of them,
so as to control the organization of the
body. The duties of the committee are to
manage the campaign after the manner of
central committees heretofore, but inas-
much as no delegates to conventions are
hereafter to be named by central commit-
tees, a very important function has been
taken away.

Leaders of the "machine" say that

the election of precinct committeemen at
the primaries may be illegal, and that
the men then chosen cannot supplant the
present members of the City and County
Central Committee. It is not unlikely that
the dispute will go to the courts. But
S. C. Beach, chairman of the New Deal,
says that in America about 2,000,000
Polish, only 5000 of whom live west of the
Mississippi River. There are only a hand-
ful in Oregon.

CHILDREN PLANT MANY ROSES

Work of Civic Improvement Board
Goes Merrily On.
The public school children of the city
are planting roses this week, with the
aid and encouragement of the Committee
on Parks, Trees and Flowers of the Civic
Improvement Board of the Chamber of
Commerce.

Yesterday-afternoon, Chairman G. H.

Lamberson, of that committee, gathered
together a whole wagon-load of the rose
slips for distribution to the florists of
the city, and made the rounds of the
public schools. At each building starts
for at least 100 rose bushes were left with
the principal florists. The roses are
all of old selected varieties and will make
valuable bushes when grown. These slips
were distributed during the day and
kept home by the children entered in
the contests to plant on their home pre-
mises.

Many of the schools have started

roses around the school properties, the
roses being donated by the florists of the
city, who have in some instances assisted
the pupils in planting the young bushes in
the proper manner. At several of the
schools complete hedges have been set

Superintendent Ashoff and Large

Crew Get It Under Control.
A bad fire raged until yesterday fore-
noon in the Bull Run Timber Reservation
last Tuesday. It was some distance
from the head works of the Bull Run
pipe-line, near Marmot, and burned a
tract about three miles in length and two
miles wide. Superintendent H. Ashoff, of
the Western Cascades district, first sent
out Ora Hickman, forest ranger, to look
after this fire, and then afterwards called

up the neighbors to get it under control.

Some hot and hard work had to be done,
but with the assistance of the rain yester-
day morning it was finally stopped.
The territory through which this fire
burned was covered with a mass of dry
ferns. It burned rapidly, as the fire was
driven by a heavy southwest wind. A
man who took part in fighting this fire
said last evening that he came near being
overcome by the dense smoke, and at one
time Ranger Hickman was cut off by the
fire. He was endeavoring to head off the
advance, when it worked itself around
to one side, surrounding him on all sides,
but he managed to get out safely. Every
possible effort is put forth to keep fire
out of the Bull Run Timber Reservation so
as to preserve Portland's water supply.
A forest fire this early in the season is
something unusual. Superintendent Ashoff
is preparing to have his rangers out in
his district by next Saturday, to be pre-
pared to meet any emergency.

POLES ARE COMING TO OREGON

Plan is Made to Colonize Them on
Farming Land.
The National Polish Alliance is plan-
ning to send thousands of people from
the provinces of Poland to the country
in Oregon. A commission from the
alliance will be in Portland within a
few weeks to investigate the possibilities
of obtaining farms for its countrymen.
Frank J. Heller, a member of the alliance,
was in Portland yesterday and immedi-
ately upon the favorable report that
he will make to the commission on his
return, Heller will come here to make
further inquiry and to obtain lands upon
which the coal miners will settle. The
members of the commission, who are all
Polish, are: Mr. Heller, Mr. Heller,
Michael F. Blenski, Peter Pavinski, Frank
Gnat and Ignatz Maszyk.

For several years, according to Mr.

Heller, we will fill all Easter Rab-
bits and Chicks under 60c each with
Dainty Sugar Eggs.
