Mrs. V. Crawford is organist and Miss Kathryn Linehan musical director.

Heard in the Rotundas

W. K. Brown, engineer, and James F Farraher, attorney for the Klamath Canal Company, hurried to Portland this week in response to the restraining order issued by the Federal Court which ordered that they appear before Judge Bellinger forthwith. The document received by the Klamath Canal Company officials was a copy of the original. It should have read within forty days after the injunction had been served. The error was made by one of the clerks.

"We have been grossly misrepresented by both the Government officials and outside persons who have had no intimate knowledge of the real conditions," said Mr. Brown at the Hotel Portland yesterday afternoon. "Why, even Engineer W. H. Sanders, of the Board of Consulting Engineers for the Government, has the temerity and audacity to make the statement that our company is the aggressor the shound. The Government report of the reclamation service, compiled by Chief Engineer, Newell, states that in 1994 no investigation had been made of the Klamath projects. We were in there in 1903. There was never a whisper of Government irrigation in Klamath County until last Summer, when a corps of surveyors made their first trip into that

negligent on the part of the canal com-pany not to have applied to Congress for permission to divert the waters from Klainath Lake. Before we secured our right of way, we consulted with several of the ablest attorneys in Oregon. They advised us to secure permission under the laws of the State of Oregon, which

"The Government claims that Klamath Lake is interstate water because it is connected with the lower lake by Link River. We do not deny that the lower lake is not interstate water, but Klamath Lake is not for the simple reason that the stream which connects the two bodies of water is not navigable. If Link River was navigable it would be different. Link River is nothing more or less than series of waterfalls, in which no box ould survive. That makes Klamath Lake an entirely separate body of water and as it lies wholly within the borders of the State, we do not think we have transgressed on any of the rights of the

"Besides, I believe the majority of the furmers favor our project, as they realize that it would be several years before the Government could irrigate any land. If we were let alone we would have water on the arid lands which are included in our project by next year. The farmers also believe that we will furnish them water as cheaply as the Government. Of course this is not the universal opinion "We have contracts signed for over 40,-(0) acres of land. We first intended to irrigate 150,000 acres, but if the Government decides to go ahead we will probably lose the greater part of this. We recently purchased 375 head of horses, so you can see that we are determined to push right ahead with the work just as soon as we can secure the dissolution of the injunction. If we are released we will put 200 men to work immediately. Part of the land we will water this year. "We have just completed the immense tunnel which is 6000 feet in length. At first we dug a small tunnel and turned in the water. Then we biasted the walls of

the tunnel and the great rush of water carried the rock and debris out into flumes, where it was deposited on marsh land. We had just begun to try this method when the restraining order was issued. This method will greatly decrease the expense entailed in the digging of the tunnel. The rock and earth which will be washed out will be used to reclaim valuable land which is covered marsh. We procured the land at a very low figure, but as soon as it is recialmed, at almost no expense to us we will be able to sell it at a very high figure.

"We have a stream near Klamath Falls in which can be caught the finest moun-tain trout in the world," said W. K. Brown, of that city, at the Hotel Portland last night. "It is a small stream which starts from several large springs. The water in the creek is nearly at a freezing temperature all the time. In fact it is only one degree above freezing point the year round. A trout taken from that creek is so cold that it cannot be held in your hand more than a few seconds at a time. This cold water makes the trout gamy, and its meat is excellent.

"We did not think we needed a railroad up there in Crook County several weeks ago, when the two large automobiles from Portland began freighting between Madras and Bend on the new road that had just been built," said L. V. Bailey, a stockman who lives near Paulina, at the Imperial Hotel yesterday afternoon. "One of the automobiles could seat 15 passengers and had a wagon attached in which was carried freight. The smaller ma-chine carried both passengers and freight.

chine carried both passengers and freight.

"Early one morning two or three weeks ago the large automobile started out loaded with passengers and merchandise to distribute to the small stores along the line. The first hour or so everything went along very smoothly, and the passengers said it was better riding than in a train. But as luck would have it, the automobile broke down away out in the sarebrush. broke down away out in the sagebrush, miles from any house. Well, the passen-gers had to walk, and the automobile was hauled back to Helsler by three six-horse

teams. "Of course we thought it was rather "Of course we thought it was rather strange that the machine should break down on her maiden trip, but we thought the other automobile would be all right. It started out soon after the other machine, and it also broke down after it covered a few miles. Another lot of passengers had to walk. Those machines are still up at Heisler waiting for some new machinery to arrive from the East. Some of the boys say they will ride in the autoof the boys say they will ride in the auto-mobiles again, but say they will have their horses tied on behind, so they won't have to walk back home any more automobiles may be all right, but I pre-

fer a railroad. "Say," continued Mr. Bailey, "I under say, continued Mr. Bailey, 'I under-stand that the Japs are flocking into Cali-fornia by the hundreds. I don't know for certain, but I would be willing to bet that lots of those Chinese cut off their queues and come to this country as Jans. Yes, I know the Government authorities are supposed to be able to distinguish them apart. But judging for myself, I can't understand how any one could tell the difference between a Jap and a Chiness. They all look alike to me."

The Denver & Rio Grande scenery is even more beautiful in Winter than Sum-mer. Travel East vis that line and spend and it is that the city

FAIR GROUNDS

Government Will Establish Complete Station in Charge of an Experienced Force.

WORK ON BUILDING STARTS

Postmaster Minto Will Supervise Installation and Conduct a Complete Postal Service-Custom-House in Agricultural Hall.

All the principal public institutions common to a big metropolis are to be opera-ted at the Lewis and Clark Exposition Announcement was made yesterday by President H. W. Goode that the Government has decided to install a model postoffice, which completes the list of utilities. A force of men commenced work during the day on the construction of a post-

office building adjoining the Fire Depart-ment on the south. Under the direction of Postmaster Minto the postoffice will be made a model in-stitution, having all the facilities of a big postoffice. There will be a full force of clerks and carriers, and visitors will be able to receive their mail there, send money orders, or transact any business that the Portland Postoffice could attend to. The force will be made up of experienced men, and the office will be conducted in a manner that shows to the best advantage what the Government's postal service is like.

The office will be part of the cluster of buildings constituting the entrance group. In this group will be office buildings an express office, telegraph offices, checkroom and information bureau. The customs department will not be located here, as was at first planned. Mr. Goode has been advised that the customs branch will require a large force of men, and it was necessary to give this department a portion of the gallery in the big Palace of Agriculture. All goods and exhibits im-ported for the Fair will be passed without inspection by the Portland office but will have to undergo a rigid examination by the Exposition customs officials. The Government is rapidly completing

the details of its participation and will be ready in every department as promptly as the other portions of the Exposition. The big Government building on the pen-insula is very nearly done, and a large crew is at work installing exhibits

SALMON EGGS FOR THE FAIR

Yaquina Hatchery Furnishes Material for an Exhibit.

ALBANY, Or., April 21 .- (Special.) -- A large shipment of salmon eggs went through Albany to Portland to-day. They came from the Yaquina hatchery at Elk City, and will be used at the Lewis and Clark Fair in connection with the fish-eries exhibit from Oregon and Washington and for the Federal Government. The development of the eggs will be under the supervision of the Oregon State Fish Commission.

The shipment contained a large num-ber of eggs from one of the best hatch-eries in Oregon. They will be kept in cold storage until the fair opens, and will then be taken out as they are needed for the exhibit. From these eggs visitors will be given as opportunity to see the embryo fish develop into a small salmon.

The hatchery at Elk City, from which eggs were brought, is doing great work this year. In years past the ex-pense of this hatchery has been very large and it was considered a losing in-vestment. This year, however, its productiveness is so great that it is con among the best hatcheries in the state.

THINKS ESTIMATE TOO SMALL

Austrian Commissioner Asserts Attendance Will Reach 2,000,000.

A. Mosler, commissioner from Austria to the Lewis and Clark Exposition, has arrived in the city after a tour of the United States, during which he has been studying conditions in this country. Mr. Mosier states that he has talked with people in many communities throughout the country, and finds the Portland Exposttion is the topic of greatest interest and that every one is expecting, planning or hoping to make the trip. He believes the official estimate of attendance of 1,000,000 paid admissions is much too small. His own figures show that 2,900,000 people will pay to go through the gates. His country will install a big exhibit of fine glassware, jewelry and handmade goods.

FIVE MILLION ADMISSIONS.

Latest Estimate of Attendance at the Exposition.

According to the experience of exposition managers, there is a certain approx-imate percentage of attendance at all If more than ordinary skill in playing brings the honors of the

game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the

genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists and that full name of the company - California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

Louisville, Ky.

department of the Exposition, thinks that the total number of admissions to the Fair for the season will be something

close to 5,000,000 people.

Arguing that each person to visit the Exposition will make at least three trips to the grounds, it is estimated that Oregon will furnish 60,000 admissions; Washington, 487,500; Idaho, 60,000; Montana, 41,-000; California, 165,000; Utah, 18,000; Wyoming, 6000; Nevada, 1500, and British Co lumbia, 9000.

It is estimated that 300 reople will reach Portland dally from the East, which will give a season's travel of 122,000. Residents from Portland and suburbs are expected to add 450,000 admissions to the Exposition for the season, while it is estimated that the average dally attendance at the Fair will be 13,000.

From the present outlook, the daily ex-cursions to be run into Portland during the Exposition will add 1000 people each day to those otherwise visiting the Fair. which will make a total increase of 117. 000.

It is estimated that 2000 persons will reach Portland each day over the O. R. & N., the Northern Pacific. Southern Pacific, Astoria & Columbia River Railroad and the various boat lines running on the Willamette and Columbia Rivers.

Altogether, the excursion bureau takes a rosy view of the Fair attendance, and is of the opinion that the Portland Ex-position will have proportionately as large a number of admissions as any similar exposition held in the country.

M. Laruelle Is En Route to Portland With Big Exhibit.

Director of Exhibits Henry E. Dosch was advised yesterday that M. Laruelle, the French Commissioner to the Lewis and Clark Exposition, has sailed from Paris and is due in New York at an early date. From New York he will come direct to Portland to superintend the in-stallation of the French exhibit. France is participating in the Exposition on a larger scale than any other foreign countre having on two occasions, asked for the prospect of a car line in the near an increase of its space award. All French future and the improvement of Second products and manufactures will be shown. and one feature will be a salon in which will be shown all the latest and rarest creations of French millinery art. The French, like most other foreign participants, are in search of a new field of trade, and are especially anxious to get in closer touch with the Orient.

Will Maintain State's Precedence.

State Commissioner R. Scott was at the Exposition grounds yesterday arranging for the installation of a large butter refairs and expositions, and arguing from for the installation of a large butter re- of honor, and Rev. George Thompso this as a basis, C. H. McIsaac, head of frigerator in the Agricultural building. Ignatius McNamee, masters of cerem

Exposition that this is the greatest dairying country in the world, must maintain that ground against strong competition. Mr. Scott stated. Accordingly, no pains are to be spared to make the best possi-ble showing in butter, dairy products of all kinds, and grains and grasses. Com-missioner Scott is convinced that Oregon will be able to maintain its position and to add many other laurels to its record.

Proclamations for Opening Day. The opening of the Exposition is to be

announced throughout the Western States by special proclamations issued by the Governors of the various states. In response to requests sent out a short time ago by Theodore Harder, assistant to President Goode, the chief executives of Oregon, Washington and Idaho have al-ready communicated their readiness to issue the proclamations requested. Similar replies are expected shortly from Utah, Montana, Wyoming, Nevada, Call fornia, Arizona. New Mexico, Texas, Col-erado. Nebraska. North Dakota, South Dakota and Wisconsin.

Inspectors at Astoria.

ASTORIA Or. April 21.- (Special.) - Gov. rnment Inspectors Edwards and Fuller were in the city today and inspect steamer Miller and M. F. Hazen and the bar tug Wailulu.

Second-Street Property Sold.

FRENCH COMMISSIONER SAILS Second and Stark streets was said yesterday morning to Thomas Scott Brooke and Dr. A. J. Geisy for \$50,000. There are frame structures upon the quarter block involved in the deal, and these will be improved as soon as possible to meet the demands of renters.

Fred Bickel has been the owner of the property for M years, and it cost him, with the present buildings, about \$17,500. Years ago the Washington Guards, Port-land's crack militia company, had their headquarters in the building, and it was from their rooms that General Camby, who was killed in the Modoc war, was buried. Second and Stark streets is in the heart of the financial business center, and with the prospect of a car line in the near street will doubtless continue to increase in value.

Services for Good Friday. Large congregations attended the dif-

ferent Good Friday church services yes-terday. At the Cathedral Archbishop Christie was celebrant at the 8 o'clock A. M. service; Rev. H. J. McDevitt, assistant priest; Rev. M. A. Quinian, deacon; Rev. Father Phelan, sub-deacon; Rev. J. D. Murphy and Arthur de Lorimer, deacons of honor, and Rev. George Thompson and

Heart, St. Francis', Precious Blood, St. Mary's and Holy Rosary Catholic Churches, Appropriate services were sitso held at St. David's, St. Mark's and Trinity Protestant Episcopal Churches. To Holy Saturday in the church world.

The Misery of Piles

41.4

New York . N.Y.

Thousands know it and thousands daily submit, through their ignorance, to the torture of the knife.

They are ignorant of the fact that there is an internal remedy that will positively and painlessly cure.

Dr. Perrin's Pile Specific The Internal Remedy

strikes at the prime causes of piles-indigestion, congestion of the liver and consti-pation. These causes are removed and removed for good. Get a bottle today and see how well it proves the truth of this
