CHECK JAPANESE IMMIGRATION

Hawalian Delegates Desire It, as the Islands Are Half-Way House.

WASHINGTON, April 21.-John Mc Guire, a representative of the Trade and Labor Council of Honolulu, Hawaii, was In conference today with Secretary Mor-rison, of the American Federation of La-bor, relative to the immigration of Jap-anese coolies to the Hawalian Islands. He told Mr. Morrison that the Japanese are coming in large numbers, and that, as a rule, after remaining a short time, they tinue their journey to the United tes. The plan they pursue, according to Mr. McGuire's statement, is to have as many come to this country from Ha-wall as land there direct from Japan. By this means they keep down the num-ber in the islands and also find opportunity to learn the English language and to get a little money ahead before reaching our shores.

Grand Jury Will Investigate.

CHICAGO, April 21.—State's Attor-ney Healy went before the grand jury today and repeated to it a statement concerning the strike of garmentworkers at Montgomery Ward & Co.'s, made to Mr. Healy yesterday by the Chicago Employers' Association. The jurors informed Mr. Healy that they had de-cided not to add further publicity to their proposed investigation of strike. From other sources, however, it was ascertained that the grand jury proposed to make exhaustive inquiry the causes of the garmentworkers' disagreement with Ward & Co.

Sitron says he holds a \$2000 policy in the society, and that his inter-ests are being dissipated by the officers and directors of the society. He names specifically President J. W. Alexander and Vice-President James H. Hyde. In the bill, President James W. Alexander and Vice-President James H. Hyde ander and vice-President sames it. The bill also declares that for 10 years the charter of the company and the laws of New York have been violated, inasmuch as the officials have felied to distribute the results of the company among the policy. profits of the company among the policy-holders. The complaining policyholders are seven in number, each holding poli-

cies of \$1000 to \$2150.

Mr. Schuyler, who fied the bill, said the complainants had a meeting and decided to take the matter into the Federal Court. It is their wish, he said, to have a receiver appointed and the af-fairs of the society ended, so that the policyhoiders may have a just distribu-tion of the funds and profits now on hand. No further steps than the request in the bill have been taken for the appointment of a receiver, but Mr. Schuyler said that within a few days he will go into court in this connection.

The bill alleges for a number of months the president and vice-president and directors of the corporation have engaged in a controversy in relation to the management of the business transactions of the company, and reso in relation to the disposition and custody of the assets. This controversy, it is declared, is proving detrimental and destructive to the business of the corporation and the interest of the policy-holders. The controversy, it is alleged, is between James W. Alexander and James H. Hyde and other offi-

cers of the society. The pelitioners allege fear on their part that the coniroversy may result in the dissolution of the corporation. The bill

further recites:
"James W. Alexander and James H. Hyde and certain directors and execu-tive heads of the corporation have in vio-lation of the corporation's charter and the laws, fraudulently applied money and assets of the company to their own use and have fraudulently used, manipulated and dissipated and otherwise disposed of the money and assets in such a way and manner that the corporation has lost money and assets so manipulated by Alexander, Hyde and other directors, and that Alexander, Hyde and the directors have made large profits as a result of these manipulations. The profits, while belonging to the corporation, have been unlawfully and fraudulently retained and appropriated by Hyde and Alexander to their own use, without any accounting for the assets so used or for the gains and profits so, as aforesaid, unlawfully and fraudulently made by them in the manipulation of the assets." Another allegation of the bill sets

forth, "that one or more of the officers and directors under the unlawful and fpaudulent guise of pretenses of promoting the business of the corporation by advertising, have charged to the company large amounts expended by them for their own personal use and pleasure, and for which the corporation never received any benefits; and that the officials have paid back to the company out of the money taken from the assets and used for their own benefit and pleasure large sums of money, and that these sums are but an insignificant part of the amount drawn out of the assets of the corpora-tion and appropriated by the officials for their own pleasure and individual profit, and not for the benefit of the corporation or its policy-holders."

FRANCE BETWEEN TWO FIRES

Tries to Avoid War With Japan or Offense to Russia.

PARIS, April 21.—As a result of com-munications between the governments of Paris and St. Petersburg the Russian gov-ernment has forwarded urgent orders to Admiral Rojestvensky to respect rigorously the neutrality of French waters. This is a precautionary reessure. In addition, special instructions have been sent to the Governor-General of Indo-China, M. Beau, and Foreign Minister Delegans have been Delcasse has instructed the French Min ister at Tokio to give the Japanese Minister of Foreign Affairs assurance that it is France's purpose to observe strict neutrality, these being similar to the assurances given to Dr. Motobo, the Japanese

Minister at Paris.

According to the official view the foregoing steps should exercise a distinctly ilming influence upon Japan, as they now that France directly and through Russia has adopted all available means to insure respect of neutrality of French

The officials say that the only additional measure open is the use of French warships to employ force in expelling Rojestvensky's squadron. Such a course, however, is said to be impossible, owing to the small number of French ships in Indo-Chinese waters. Moreover, as an official remarked, France is not in the habit of resorting to such extreme measures as using force. This is particularly true in the case of Russia, owing to the complications which might arise from France adopting forcible steps against Russia. Therefore, the instructions al-ready given from Paris and St. Patersburg are relied upon to prevent Admiral Rojestvensky from encroaching upon French territorial waters.

Dr. Motono said his request was that France observe neutrality by adopting all the necessary measures for preventing Admirai Rojestvensky's squadron from re-maining any longer in French territorial waters at Kamcanh Bay. The Minister added that the Russian ships were quite inside French waters and not outside of

Japan's representations have had the efect of bringing the Franco-Japanese in-ident to the front rank of public attention. The leading newspapers here adopt the government view that Foreign Minister Delcasse's assurances calm the sit-uation. Deputy de Lanessan (Radical Republican), the former Minister of Marine, and at one time Governor of Indo-

ina, says in the Siecle: 'We cannot ignore the fact that the Japanese people are greatly excited by the war, and that public opinion may drive the Tokio Cabinet to take extreme action. We therefore insist that the Rouvier Ministry rapidly adopt steps in conformity with the interests of France and the maintenance of peace. All France agrees that the government has the duty of protecting French nautrality and thus rving the world's peace

The Humanite, Socialist, says: "If the impending mayai battle occurs in Indo-China waters "and the Russian squadron seeks refuge in our ports, then France may suddenly be dragged into a conflict in spite of herself that would mean war, and the government, which brough feebleness or blindness per such a catastrophe to occur, would bear one of the most terrible responsibilities history has known."

notices have been given of questioning the government in the Chamber of Deputies concerning the observance of neutrality. M. de Pressense (Socialist) and M. Vallant (Bianquiet Socialist) will ceiver be appointed to take charge of the money, property and assets of the ask the government that measures be taken to guard the neutrality of French waters in the Far East. M. Deloncie (Republican, representing Cochin-China in the Chamber) will address a question to the Minister of the Colonies, asking what measures he intends to adopt to assure the maintenance of the neutrality of the waters of Indo-China.

The Minister of the Colonies has accepted a debate on M. Deloncle's question for tomorrow. MM. de Pressense and Vaillant ask that their questions be discussed today. The Temps says the instructions sent to Governor-General Beau require him to report the exact location of Admiral Rojestvensky's ships, whether they are or are not within the three-mile limit. M. Beau's reply has not yet been received. The afternoon papers print a report that it is the intention of the government to send an armored cruiser to the Far East to assist in the surveillance of neutrality. This apparently is an outgrowth of the intention of the Marine Ministry to send an armored cruiser to replace the armored cruiser Sully, recent-ly wrecked in Allong Bay, Tonquin.

RUMORS DOUBTED BY RUSSIA

Does Not Believe Fleet Has Reached Formosa Straits.

ST. PETERSBURG, April II, 5:36 P. M. The latest word of Admiral Rojestvensky was the dispatch from the agent of the Finance Ministry at Shanghal saying the undron had passed through the Straits Formosa, but the authority given by the agent for his statement is considered doubtful. The Admiralty professes a good doubtful. The Admiralty professes a good deal of skepticism regarding all the dis-patches from the Far East reporting the deliberately. The officials here neither deny nor affirm the report that Rojest-versky is still at Kamranh Bay.

The Foreign Office displays no anxiety as a result of the protests made by Japan over the alleged violation of French neu-Chality, expressing confidence that when all the facts are known it will be found that the Russians did not violate the neutrailty of France. Serious complications

trailty of France. Serious complications are not anticipated.

The retieration of the story that the Russian protected cruiser Askold, interned at Shanghai, is taking on coal and preparing to slip out is again denied.

Nothing has been heard from the fourth division of the Russian squadron, commanded by Admirai Nebogatoff. Most of the next many men express the emission that the naval men express the opinion that Rojestvensky will not await a juncture with Nebogatoff, but will allow this weaker division to trail behind him.

BRITAIN MAY SEND PROTEST

When France Replies to Japan She May Speak.

LONDON, April 21.—All the government offices were closed today, and most of the officials were out of town, making it statement regarding Great Britain's contemplated or actual action in connection with the neutrality question in the Indo-Chinese waters. The Associated Press is in a position to say, however, that the question was discussed yesterday between Baron Hayashi, the Japanese Minister, and Foreign Secretary Lansdowne. The Baron said to the Associated Press this afternoon that he was not prepared to discuss the question whether or not Great Britain would send a note to France on

"It is a pending matter," he said. "I am not prepared to make a statement which might embarrass both my own government and the governmeent of Great

It would appear, however, that it is not improbable that Great Britain is awaiting France's reply to the Japanese protest before taking definite action. Sir Francis Bertle, the British Ambascador to France, left London today for Paris, and it is considered likely that he is the bearer of spe-cial instructions from Foreign Secretary Lansdowne, directing him to take action under certain eventualities.
