Representatives of What Is Believed to Be One of the Earliest Tribes Are Swarthy and Strong in Build.

SEATTLE, Wash., April 21.—(Special.)—Dr. T. K. Hunt, manager of the Igotrote Exhibit Company, and C. S. Moody, financial agent, left tonight for Portland, accompanied by Fomeloey and Domocmot, two members of the head-hunting tribe from Bontoc Province, Philippine Islands. Fomeloey is the high chief of the party of wild men brought to America three days ago by Hunt and Moody for their company for exhibition purposea, and Domocmot is his chief of staff. They are

mormot is his chief of staff. They are highly representative of the strange peo-ple who inhabit the mountain districts of Northern Luzon. They are about 27 years old, very swarthy, strong of build and bear on their breasts the peculiar tattooing which can only be worn by those who have taken the heads of one or more enemies in battle.

The Igorrottes are believed to be among the earliest people to inhabit the earth, their remarkable agricultural development giving evidence that they have existed in their present habitat thousands of years. The wails of stone supporting their rice fields, terraced one above another up the sides of steep mountains to a height of 1000 feet or more, have every appearof 1000 feet or more, have every appearance of having been built ages ago.

At the St. Louis Exposition last year the igorrote village was looked upon as the greatest of all educational exhibits, and was visited by nearly 2,000,000 people. It is said to have done more than any

other feature of the World's Fair to advertise it, and was one of the three only really successful concessions on the

It is reported here that their mission to Portland is to consult with President Goode concerning the exhibit of these strange people at the Lewis and Clark Exposition this Summer?

MORNING MINE IS SOLD.

New Owner Expects to Be Able to Develop Property. BAKER CITY, Or., April 21 .- (Special.)-

Colonel W. F. Butcher, who has in charge the settlement of the complicated affairs of the Morning mine, received a letter from Canyon City today announcing that the Sheriff's sale of the property had pro-ceeded without incident, and that it had been bid in by Fred Fontaine. This will result in soon bringing the property out of its financial difficulties and place it in a position again to resume operations.

There is no mine in the Greenhorn
Mountains that has attracted more attention for the past year or two, and none that has given greater promises of becoming very valuable. The owners became embarrassed in its development and equipment, but it will now pass into hands competent to manage it success-

fully.

There has been considerable rivalry among would-be purchasers to gain con-trol. C. H. Ames, who was the largest individual owner, and who hoped to control the situation, loses out in his contention. Killen, Warner and Stewart, who about four months ago had the property under bond to place with Eastern people, but who falled because of the question about title, will now have the opportunity of guaranteeing a perfect deed to this property, which has been coveted by every expert who has had the privilege of examination.

Great Showing at Hearing of Port Townsend Water Bond Case.

OLYMPIA, Wash., April 21.—(Special.) The State Supreme Court heard the arguments on the application for a writ of mandate to compel the State Auditor to issue a warrant for the purchase of the Port Townsend waterworks bonds, made by the law firm of Coleman & Ballinger of Port Townsend and Vance & Miledell of Chympia, Indee G. Mandell of Chympia, Ballinger of Port Townsend and vance & Mitchell of Olympia. Judge G. Meade Emory, a prominent Seattle jurist, has been associated with the petitioner's counsel and was present at the hearing. E. C. Hughes of Seattle and Frank C. Owings of Olympia represented the respondents in the action.

The principal arguments were made

by General Thomas M. Vance for the petitioner and E. C. Hughes for the respondent. At the request of the court printed briefs will be submitted by both sides and time was given for their preparation.

RESIDENT OF VANCOUVER FOR

The Late John O'Ecane.

VANCOUVER, Wash., April 21 .- (Special.)-John O'Keane, a pioneer resident of Vancouver, died at his home at Eighth and G streets Wednesday night at the age of \$1 years. Deceased was one of the most highly respected citizzens of this place, having been a resident for 40 years. During his career here he has held many public offices. Among the offices filled by him were: Auditor for Clark County, Register for the United States Land Office and Indian Agent at Tuially reservation.

Mr. O'Keans was born in Limerick County, Ireland, June 10, 1824. came to America in August, 1847, and lived in the East until 1862, when he came to Vancouver. He left a wife and one son, James J. O'Keans, both of this city. Vancouver loses a sturdy and stanch citizen in his death,

In his annual address President J. M. Boardman praised President Roosevelt for his stand against the railroads and the packing-house interests, and spoke in fa-vor of a plan to enlarge the scope of the Interstate Commerce Commission in sup port of the policy of President Roosevelt.

Body Found on Tracks.

NORTH YAKIMA, Wash., April 21 .-(Special.)—The body of Frank Boltom was found on the rallway tracks north of this place this morning. He had been run over by a freight train in the night time and was badly mangled. The night operator and baggageman said they heard shots in the direction of where the man was found, during the night, and it is believed the man met with foul play. The Coroner made an examination but could find no bullet wounds on the body of the man. Boltom had been working for the Northern Pacific near Roza.

Panic Coming

In December last I called the attention of the American people to the fact that "Standard Oil" and the "system" having loaded up with billions of the stock and bonds of Wall street, were inaugurating a campaign to fictitiously double their price and unload them upon the people.

There was a tremendous smash, and the "system" was compelled to buy hundreds of millions more to stay the decline at fair prices.

At that time the leading votaries of the "system" hurriedly got together and agreed to contribute \$40,000,000 as a working fund to prevent decline and

The big stock gamblers have billions of stocks and bonds, upon which they are borrowing at the great banks, trust companies and corporations-billions of money, and prices are so high they cannot go much higher. They cannot remain where they are, and the only direction they can take is downdard.

They must come down now or later. Already the big gamblers are getting suspicious of each other, and if one or two stocks break five points suddenly a panic of chaotic proportions will be with us in a liffy.

our family physician called in con

tion another doctor, who had been Resident Physician at our State Insane Asy-They decided the only hope was to place her in a sanitarium, otherwise she would be hopelessly insane before the year was out. On investigation we found

the worst at home. "Upon the advice of a friend, she stopped the use of coffee, of which she was very fond, and began the use of Postum Food Coffee as a remedy for the constination which accompanied the attacks. The result was more than we ex-pected. It not only relieved the constipation greatly, but aided her to break the laudanum habit, for when she found her-self possessed of the desire to 'take something, a cup of strong Postum would allay the desire and soothe and refresh

nourish and strengthen the overwrought nerves, she stendily got better and bet-ter, and today, instead of being in the in-sane asylum, she is still with us in her own home, sounder in mind and body than for several years past. The attacks of dementia have steadily grown milder and less frequent, until now we have every reason to believe that she will soon

be fully restored-sound in mind and

hich is expected to arrive about Afril entirely by the aid of Postum and Grape-The Commercial Club of Vancouver is Nuts, for not since that consultation over aking preparations to give a reception a year ago has she taken a particle of

"In writing this my greatest desire is to bring the use of your products to the notice of some other unfortunate, trembling upon the brink of that most terrible of all calamities, Insanity, and I thoroughly believe and know that leaving off coffee and other drugs and taking good food and drink is the surest means by BUTTE, Mont., April 21.—The jury in which it can be averted. I give the name he Slattery murder case, after being out of our family physician, also the consult-
