

BRINGS GOLD SACK

Big Nuggets Dazzle the Eyes of the People of Baker City.

TWO LEDGES DISCOVERED

With Crudest Sort of Tools Two Partners Clean Up Over \$4000 in a Month's Work on Their Find.

BAKER CITY, Or., April 26.—Today for the first time since the wonderful strike of Gilkey and Kershaw in the Greenhorn mountains have the people of Baker been gratified with a sight either of the men or the gold that has set all the upper country on fire.

F. E. Gilkey showed up at 1 o'clock this afternoon at the Sagamore. It did not take many minutes for a crowd to gather to see the contents of the old flour sack. They were not disappointed, although this was the fifth trip since the strike was made a month ago.

Sixty ounces of gold nuggets, ranging from 50 cents to \$20, and several ounces of dry amalgam were brought into sight. Gilkey said that he and his partner washed this last batch out with a pan and hand mortar for six assistance in less than six hours. This story is not generally believed.

A month ago the strike was made and with the process mentioned above these two men have banked over \$4000, which is all on exhibition either in this city or in Sumpter. Most of it will be preserved with a lot of beautiful quartz half given to the Lewis and Clark Exposition.

F. E. Gilkey and E. Kershaw last fall stirred up this whole community when they turned in over \$3000 which they had taken out of a little placer claim on Vincent Creek. The surprise came in from the fact that the two men had not worked very hard and had only made a short run.

Above these placers a year ago they found a ledge. They made a location and called it the Belmont. The ledge was all in ore which assayed from \$20 to \$300. They erected a three-stamp mill, a crude affair, but could not save the values. Water came in and drove them out of the shaft.

Kershaw, an old pocket-hunter, went tracing for richer ore. Thirty feet below the Belmont ledge 20 days ago he found this rich shoot. It was a wonderful piece of ground with a giant and pounding up the loose quartz they got over \$3000. Both ledges are wide, but low wide they have not determined. There is little doubt but that the permanency of a rich large mine has been established. The ledge matter consists of quartz talc and calciferous. The walls are slate and porphyry. The country all around having been scratched more or less. At the Old Hoved cabin, about 200 yards from this new find, \$30,000 was taken out 20 years ago. It is only three or four miles from the old Carpenter diggings.

A couple of peculiarities are worthy of mention connected with this find. There is a great deal of white quartz. In fact, the pockets of black oxide of manganese. There is a heavy white metal which lies behind the gold in the pan and experts have told Mr. Gilkey that it is platinum. It would be a wonderful thing if coarse platinum be found thus associated with the gold in a ledge. The largest nugget so far found was taken out last week and weighs a little over three and one-half ounces.

JUDGE MAY VISIT GROUND. Arguments Heard in Coeur d'Alene Debris Case. BOISE, Idaho, April 26.—(Special.)—Judge Seatty today heard the arguments in the Coeur d'Alene debris case. He announced he would make an examination of the affidavits, and if he were then in doubt about the facts, he should probably visit the ground, as he might be able to secure competent witnesses upon the physical facts entering into the case. The arguments covered many points. One feature was the discussion of the value of the case. The plaintiff's counsel contended that the debris was worth \$100,000 in the California debris case, in support of their contention. The defendant's attorneys held that the decision did not apply in this case, and that it disclosed the distinction between that case and such a one as this.

The California lands damaged were Mexican land grant lands, title to which antedated the mining legislation of 1862. In this case, the water rights of the mining companies were secured during the '60s, while the river lands were not taken up until after the opening of the Coeur d'Alene Reservation by the act of 1870 provided that all patents thereafter issued should be subject to water rights acquired and existing.

ENTERTAINED BY THE DALLES Chicago Business Men See Industries and Government Work. THE DALLES, Or., April 26.—(Special.)—Today The Dalles entertained a greeting to the gentlemen representing the Chicago Commercial Association, who were the city's guests from 9 o'clock in the afternoon until late tonight, when they took their departure. The Chicagoans were met at the depot on their arrival by Mayor Sargent and a reception committee and were taken to Cello in a special car.

Unable to Climb Ladder for Lack of Water. OREGON CITY, Or., April 26.—(Special.)—Between 500 and 1000 fine salmon were taken from the Willamette River in the vicinity of the falls in this city last night and today. During the last few days the river has receded rapidly, leaving these salmon high and dry and entirely out of the bed of the river, and separated from the fish ladder, which, because of the scarcity of water, is useless now in enabling the salmon to reach the upper river.

Apprehending the situation yesterday afternoon, permission was granted the

fishermen here to take the salmon from the many pools, and the cream of the schools were captured during the night, but boys and citizens in large numbers visited the scene today and helped themselves to enough for their own use. One of the chinooks taken last night weighed 65 pounds, being the largest that has been taken here this season.

SHEEPHERDERS ARE SLAIN. Report of Fatal Clash With Cattle Interests in Klamath.

KLAMATH FALLS, Or., April 26.—Two men, supposed to be shepherders, are reported to have been killed in the range war in the southeastern part of Klamath County.

Following the slaughter of part of a band belonging to Klum & McKendree, April 12, a gang of nine masked men went to David Ehler's camp and burned his things and personal effects. Ehler is said to have armed his herders on receipt of the news of this outrage and instructed them to defend his property by force. The clash is supposed to have resulted in the deaths of the two men and the cattlemen.

The Sheriff of Klamath County and a deputy are now in the vicinity of the trouble, but nothing has been heard from them.

Sheriff Will Be More Stringent. ASTORIA, Or., April 26.—(Special.)—Many of the gambling games and nearly all the slot machines that were closed by Sheriff Linville a few weeks ago were started up last night and today, and the slot machine owners have taken our licenses under the city ordinance for the quarter ending June 30. No arrests have yet been made. Sheriff Linville is at Oregon City attending the Circuit Court, and is not expected home before tomorrow, but he stated before he left that he will close all the machines and games as soon as he returns. He also stated that his right is made he will close the town still more tightly by shutting down the dance halls and enforcing the Sunday closing law.

Hatchery on Willowa River. ASTORIA, Or., April 26.—(Special.)—Ferguson & Houston, of this city, have completed the plans for the proposed new salmon hatchery to be erected by the State Fisheries Department on the Willowa River. The plans are for a frame structure 230 feet long and 53.4 feet wide. It will contain 236 troughs, each of which will be 15 feet in length and hold six egg baskets. The capacity of the plant will be 15,000,000 eggs each season.

The appropriation for building the hatchery was made by the Legislature, and bids on the construction will be called for soon after that. The intention is to have the plant ready for operation this year.

Rothschild at Bay City. SAN FRANCISCO, April 26.—Baron A. Rothschild, of Vienna, Austria, a member of the famous banking-house of that name, arrived here from the East today. It is understood that the Baron is in this county to study American financial methods and that he has associated himself with the banking-house of August Belmont, New York, for the purpose of observation. He is eightytwo at present and declines to talk with reporters.

Murderer Gives Himself Up. BAKERSFIELD, Cal., April 26.—Newly Walker, who shot Dr. Burton, the wealthy mineowner, and a man named Bagby on Monday, has been captured. Sheriff Kelly and his posse surrounded him at a farmhouse near Kernville today, and Walker, seeing that resistance would be futile, gave himself up.

New Principal at Albany. ALBANY, Or., April 26.—(Special.)—The board of directors has elected Professor L. L. Baker to succeed Professor J. B. Leatherman, who resigned as principal of the Albany public schools. Professor Baker is a New York State man, and came here recently from Southern California.

NORTHWEST DEAD. Funeral of M. S. Damon. MEDFORD, Or., April 26.—(Special.)—The remains of M. S. Damon, who died at Salem Monday, arrived here this morning at 11 o'clock. The funeral was held this afternoon under the auspices of Chester A. Arthur Post, G. A. R. Major Damon was a native of Vermont and enlisted in Company G, Seventh Vermont Infantry, in 1862, and served the rest of the service with the rank of Sergeant. He came to Medford about 15 years ago and was one of its first business men. He was twice married and is survived by his second wife and three sons.

John M. Bloss. CORVALLIS, Or., April 26.—(Special.)—The college flag flies at halfmast tonight over receipt of the news of the death of John M. Bloss, president of the Oregon Agricultural College from 1892 to 1896. He was successor to the late President Arnold, and was succeeded by H. B. Miller, whose term of one year preceded Thomas M. Hatch, present incumbent.

John M. Truesdell. SALEM, Or., April 26.—(Special.)—John M. Truesdell, aged nearly 80 years, died at the home of Dr. J. Reynolds, yesterday evening of old age. Deceased was born in Albany, N. Y., in 1825, but removed to Ohio while yet a boy, and there grew to manhood. For 40 years he conducted a general store at Beverly, O. In 1881 he came to Salem. He was a devout member of the Methodist Episcopal church, and was for 25 years a member of the I. O. O. F. He left one daughter and two sons, Mrs. J. Reynolds, of this city, and W. S. and J. F. Truesdell, of Muskingum, O.

Mrs. Fred Salzer. CENTRALIA, Wash., April 26.—(Special.)—Mrs. Fred Salzer, for 32 years a resident of Lewis County, died at the home of her sister, Mrs. Caleb Berry, in Centralia today. Mrs. Salzer was the daughter of Mr. and Mrs. Joseph Shimek and was born in Bohemia in 1856. She came to this county in 1872 and has made this her home since. She was married to Fred Salzer, of Centralia, in 1885, and has three children living. She is a cousin of ex-State Representative Austin Zenkner, of Centralia.

Damage Is Very Slight. SALEM, Or., April 26.—(Special.)—There was a light frost in this vicinity last night, and it is reported that in some places strawberry blossoms are nipped. The damage, if any, will be very slight.

Celebration by Oddfellows. PHILMATH, Or., April 26.—(Special.)—Backensto Lodge, No. 126, Independent Order of Oddfellows, celebrated here tonight the 86th anniversary of the

founding of Oddfellows. The local Rebekah lodge was in attendance and the exercises were witnessed by a large audience of nonmembers. The programme rendered consisted of impromptu speeches by members of the lodge and reading of a paper on "What is Oddfellowship" written by W. L. Ridgely, past secretary of the Sovereign Grand Lodge.

TOOK CITY MONEY. San Francisco Tax Collector a Fugitive From Justice.

SHORTAGE ABOUT \$50,000. Southern Pacific Payment Did Not Show on the Books. But Railroad People Hold Certificates of Payment.

SAN FRANCISCO, April 26.—Edward J. Smith, the collector of this city and county, has been officially declared to be a heavy defaulter. The police authorities sent broadcast telegrams telling of his disappearance and asking for a receipt for the amount of his alleged embezzlement, said to be at least between \$45,000 and \$60,000, but the actual condition of the financial affairs of his office is as yet unknown, owing to the shortage of time the experts have been working on the books.

Six days ago Smith announced that he was going on a vacation, and stated that he intended visiting the southern part of the state. No return was made to his departure until this forenoon, when John Smith, cashier of the office, who is a brother of the tax collector, found an entry in the delinquent tax account, which it was made to appear that the Southern Pacific Company had failed to pay \$30,000 within the legal time.

Cashier Smith once telephoned to the company and was informed that the money had been recently paid to Tax Collector Smith personally in two installments, and that the company held a receipt for the amount. After conferring with Chief Deputy McCabe, reported the matter to Mayor Schmitt, who immediately formally suspended the Tax collector from office and appointed McCabe as temporary Tax Collector. The police authorities were also notified and all important points throughout the country were furnished with information concerning the case and requested to arrest the tax collector.

Reports from the grand jury and the finance committee of the Supervisors, aided by a committee of the city, are expected that a report will be made tomorrow at the special meeting of the Supervisors that will to some extent show the financial situation of the Tax Collector's office.

Soon after the Mayor's announcement that Smith was short in his accounts came the statement that the absent man had two weeks ago secured \$15,000 from Chief Deputy City and County Treasurer Devoto. Smith, by virtue of his position, had had many financial transactions with the Treasurer's office, and, according to Devoto, had often given his personal check to cover withdrawals of money, particularly in the case of changing into gold the great amount of silver collected by the United Railways.

It appears, according to Devoto's story, that Smith accommodated the United Railways by means of his personal checks, and that he had probably altogether given Smith \$25,000, while only personal checks were given for the balance. Smith was only from day to day, and Smith always made good his checks, except in the last instance of the \$15,000.

It was reported tonight that an additional shortage of \$15,000 has been discovered in Smith's office. With the suspension of Smith came to light the statement that two years ago he had spent over \$100,000, the \$15,000 of the city's money and that his brother, James B. Smith, had made good the shortage. Mayor Schmitt was authorized for this purpose to order that following this discovery Smith's family decided to put him under surveillance and his brother John was made cashier in order to protect the funds.

Smith is a married man and a druggist by profession. He is in his early 40s. He was very popular and when he ran for Supervisor several years ago he received the highest vote of the candidates at the election. He was subsequently elected Tax Collector by a great majority. Since the announcement of the shortage in his accounts he has been talking about his interest in race-track matters. It is alleged that he was a heavy bettor at the Emeryville track, but did not personally gamble, all of his money being handled by an agent.

The police force is hopeful of securing his arrest, although admitting that his six days' start would greatly handicap them.

ULTIMATUM OF THE BREWERS Hiring and Release of Employees to Be Vested in Employers. SEATTLE, Wash., April 26.—A sharp conflict between the Northwest Brewers' Association, representing every brewery in Western Washington, and their employees, aggregating between 1500 and 2000 men, has arisen. May 1 is the date on which the scale of wages and agreement is to be signed. The latter demand an increase of wages for engineers and firemen and insist on the old agreement, by which the brewers cannot employ or discharge a union employee without the sanction of the union.

The brewers today sent an ultimatum to their employees to the effect that the agreement must be changed so that the brewers should be allowed to hire only union men. The employees are to reply Friday, Seattle, Tacoma, Aberdeen, Everett, Bellingham and Roslyn brewers were present at today's meeting.

VEGETABLES WERE NIPPED. Heavy Frost Gives Eugene Growers a Fright. EUGENE, Or., April 26.—(Special.)—Some alarm was experienced by many this morning on account of a sharp frost which prevailed. Heavy white frost covered the ground and was severe enough to nip tender vegetables. It is not believed, however, that fruit has been injured to any great extent.

Strawberries Frozen at Chemawa. CHEMAWA, Or., April 26.—(Special.)—There was a very heavy frost here last night, and the strawberry crop of this vicinity was nearly totally destroyed. This will work quite a hardship on the small growers of this locality, as they usually realize from \$100 to \$200 each from their strawberry patches each year.

A Most Excellent Remedy for Whooping Cough. (From Miner County Democrat, Howard, S. D.) It is often that the Democrat takes any stock in proprietary preparations, but having had occasion to use Chamberlain's Cough Remedy in a recent case of whooping cough, we can truly say it is a most excellent remedy, and one that gives the child immediate relief. Be sure to get Chamberlain's Cough Remedy, not object to taking it, and it keeps the cough loose, and it gives freely and does not irritate the throat. It is a danger whatever from the disease. For sale by all druggists.

Four Lodges United. MEDFORD, Or., April 26.—(Special.)—Representatives from I. O. O. F. and Rebekah Lodges of Ashland, Jacksonville and Gold Hill united with Medford Lodge, I. O. O. F., today in celebrating the 86th anniversary of the birth of Oddfellowship in America. About 150 members of the two orders were in line when the procession started from the Oddfellows' Hall to the opera-house for the exercises.

The address of the day was given by Professor B. F. Mulkey, of the Ashland Normal School. Celebration at Salem. SALEM, Or., April 26.—(Special.)—The local lodges of Oddfellows celebrated the anniversary of the founding of the order this evening with appropriate exercises at the Opera-House. The principal address was delivered by Past Grand Master T. C. Deplin, of Portland, and other speakers were Grand Master J. A. Miller and Past Grand James Waitman. Miss Edna Harris gave a reading, and vocal music was furnished by the "Stalwart Quartet and Miss Vera Byars."

ARTIST SKETCHES BONTOC. Englishman Says Igorrotes Present a Most Interesting Study. SEATTLE, Wash., April 26.—L. C. Mulgard, a sketch artist of London, England, is engaged at a series of crayon studies of the Bontoc Igorrotes, the people who inhabit the mountain regions of Northern Luzon, Philippine Islands. He is touring the world in the interest of his art, and ever since the arrival of T. R. Huut with his party of 50 Igorrotes, he has spent several hours daily in studying the faces with a view to producing truthful sketches in the composition of his art. In his rooms at the Hotel Washington today, he said:

"These people present the most interesting study of any I have ever seen. From the time I saw the arrival of the true children of Nature, without any of the taints of hereditary incident to civilization. I have engagements at Portland, Vancouver and Los Angeles, and had intended leaving for those points tonight, but I became so engrossed in the study of Igorrotes types that, in justice to myself, I am compelled to delay my departure until I have completed several sketches already commenced. I intend to spend several weeks, if possible, during the summer, gaining a more complete insight into their many interesting characteristics."

"I understand that the Igorrotes are not to be a feature of the Portland Exposition. I am surprised at this, and sorry for it may hinder my plans. I intend to study. I believe that many people will be disappointed for they are a people of such pronounced characteristics that for a primitive people, they are marvelous to the artist and are of great value to the novelist."

Some of their dances remind me of the dances of the Eskimos and the Eskimo flagstaff's books, people that I had believed had no existence except in the brain of that eminent story writer. To my mind they present a rare opportunity for interesting study, and I believe, reveal many treasures that would excel the most vivid imagination."

BAY CITY MAN PRESIDENT. Western Bowling Congress Elects Full List of Officers. SPOKANE, April 26.—A. W. Martin, of San Francisco, was elected the president of the Western Bowling Congress tonight. Other officers elected were: A. W. Williamson, of Portland, Or., first vice-president; W. S. Zehender, of Salt Lake, second vice-president; A. J. Jenkins, of Seattle, secretary; A. H. Harrison, of Seattle, treasurer.

The congress convened at 8 o'clock and the executive committee was instructed to prepare a report for the holding of the next meet, which probably means that Salt Lake will secure it. The executive committee, which included: E. H. Rothrock, of Spokane; M. J. Sheehan, of Butte; Charles Tietje, of Tacoma; Samuel Dyringer, of Los Angeles; F. J. McGrath, of San Francisco; A. H. Devoto, of Seattle; W. H. Merrill, of Oakland, and C. W. McMenomy, Portland.

Van de Vanter Is Mending. SEATTLE, Wash., April 26.—(Special.)—State Senator A. T. Van de Vanter today returned home from a brief absence. He merely sat out doors for a few minutes and the first group of friends was permitted to see him. For the first time he has been seen since he left for the late legislative action, and state appointments.

No Saloons Will Close in Coos. MARSHFIELD, Or., April 26.—(Special.)—It is the general opinion of business men that no saloons in Coos County will close May 8, the date set in the County Court to give notice to the saloons to close. The Coos County field hopes that she is exempt from the provision of the local option law under her special charter passed last winter. But after the case is heard in court, a fight before closing and the matter will undoubtedly be carried to the Supreme Court.

Requisition Is Honored. SALEM, Or., April 26.—(Special.)—Governor Chamberlain today honored a requisition from the Governor of Washington for James Shuck, under arrest at Pennington, and wanted in Lincoln County, Washington, to answer a charge of horse-stealing.

The Governor issued a requisition upon the Governor of Pennsylvania for the extradition of Andrew Jensen, wanted in Portland to answer a charge of obtaining money under false pretenses.

Pritchard Given Entire Amount. HELENA, Mont., April 26.—The jury in the case of R. C. Pritchard vs. Spokane, against various defendants, involving the \$2000 reward offered for the arrest and conviction of Hammon, the "Beardmouth" man, today brought in a verdict in favor of Pritchard, awarding him the entire amount.

A Most Excellent Remedy for Whooping Cough. (From Miner County Democrat, Howard, S. D.) It is often that the Democrat takes any stock in proprietary preparations, but having had occasion to use Chamberlain's Cough Remedy in a recent case of whooping cough, we can truly say it is a most excellent remedy, and one that gives the child immediate relief. Be sure to get Chamberlain's Cough Remedy, not object to taking it, and it keeps the cough loose, and it gives freely and does not irritate the throat. It is a danger whatever from the disease. For sale by all druggists.

The Electro-Radiator Has Won Its Way to the People's Hearts. It Is Coming Our Way Now! The public has learned that it cures all kinds of rheumatism, neuralgia, sciatica, weak stomach, asthma, all chronic diseases—that it is a rejuvenator of the human system—that it actually renews youth and vitality.

A Healer Without Drugs! And that it has not an equal on earth for any disease of man. We are treating a great many patients now, and many are buying the Radiators for private use. This is the proper thing to do. They will cure whole families as readily as a single individual. 12 Treatments . . . \$10.00 5 Treatments . . . 5.00 THE FIRST TREATMENT IS ALWAYS FREE. PROF. WM. RICKARDS Inventor, Patentee and Sole Manufacturer, Portland, Oregon. AGENTS WANTED

CRIES OUT IN PAIN. Brown Was Shown No Mercy by His Son.

DELIBERATE IN SHOOTING. Uncle of Youth on Trial for His Life Tells the Story as Related to Him by the Accused.

CHEHALIS, Wash., April 26.—(Special.)—A jury was secured at noon today in the Brown murder case after two and one-half days spent in the effort. The 12 men are: Charles Gessell, N. Bennett, V. Temple, A. W. Taylor, Frank Montgomery, William Wanch, J. C. McElfresh, J. O. Elliott, J. W. Downing, Martin Hogan, John Finst and Walter Flanagan.

A. J. Fainor, Assistant Attorney-General, made the opening statement of the case on behalf of the state and the prosecution placed Walter Blake, an uncle of the boy, on the witness stand as the first witness. Blake testified that he met Tom Brown a quarter of a mile from the latter's home after the shooting occurred and asked him why he had killed his father. The boy replied that he had to do it, that if he had not he would have had to kill him at some other time.

The boy showed Blake where he stood on the embankment about five feet above the roadway and fired the first shot and told him that after the shot his father shouted the word "Oh, Tom for God's sake, don't shoot me no more."

The boy followed his father about 50 yards down the road before firing the second shot. Witness took Tom to Adna and turned him over to the constable for delivery to the Sheriff. On the way the boy showed him where the quarrel first occurred and where he pulled up the satchel so his father could not follow him so rapidly on horseback and he could get home and get the rifle to come back and meet him.

On a cross-examination of the defense brought out the statement from witness that there had been enmity between himself and his sister and her husband, dating back to the time of the foreclosing of a mortgage for which he blamed the Browns. Witness alleged that the estrangement between the families was over the failure of the Browns to teach their children proper morals and admitted that he felt ill will towards his sister, but said this did not extend to Tom.

Dr. George H. Dow, Dr. J. T. Coleman, County Surveyor Geiger, Sam Blake, son of Walter Blake, and two other witnesses, were examined.

Fine Place for Oregon Student. UNIVERSITY OF OREGON, Eugene, April 26.—(Special.)—John R. Cain, who was graduated from the State University last June, has just received an appointment in the bureau of standards, which he has accepted, and to begin in July of this year. The appointment of Mr. Cain is another instance of the recognition that Oregon students receive in the East.

While in attendance at Oregon, Mr. Cain directed most of his efforts in the line of chemistry, physics and engineering. The work he is to do places him in one of the best laboratories in the United States and under the direct supervision of able teachers.

Keep your blood clean as you keep your body clean. You don't wait until your blood is foul before you clean it. It is a matter of surprise to many people who are so careful to have clean bodies make no effort to keep the blood clean. Everyone knows that unclean blood breeds disease, and that those who do not keep their bodies in a wholesome condition and who dwell in filthy surroundings are the first to suffer from some epidemic disease sweeping the country. For this reason, it is dangerous to the individual than a foul body. An unclean body is rather a passive than an active hindrance to health. But unclean blood is an active threat to the very life—it makes the body a prepared breeding place for disease.

It is part of Nature's plan for human safety that in many cases where the blood is impure or corrupt she acts a sign on the body in proof of the corrupt current that is flowing through the veins. Scrofula with its disgusting sores and scabs, eczema with its irritating, salt-rheum, tetters, erysipelas, boils, pimples and other eruptions are only the outward signs of the impurity of the blood. But often the earlier and simpler stages of the blood's impurity show no outward signs of this condition; only dull, languid, sluggish feelings, which are commonly attributed solely to the sluggishness of the liver.

Of all preparations for purifying the blood Dr. Pierce's Golden Medical Discovery is the best. It cleanses the blood, purifies it from the blood the elements which clog and corrupt it, and which breed and feed disease. It acts directly on the blood-making glands, increasing their activity, and so increasing the blood's purity, rich, pure blood which is the life of the body.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs. Dr. Pierce's Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Prof. Wm. Rickards. Office and Residence, 533 FIFTH ST. COR. LINCOLN. Telephone Main 3502.

GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or acquired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

What is CASTORIA. Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Watson and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

GENUINE CASTORIA ALWAYS Bears the Signature of Dr. J. C. Watson. The Kind You Have Always Bought In Use For Over 30 Years.

VITAL WEAKNESS. Above all other things, we strive to save the thousands of young and middle-aged men who are plunging toward the grave, tortured by the woes of nervous debility. We have evolved a special treatment for Nervous Debility and special weakness that is uniformly successful in cases where success was before and by other doctors deemed impossible. It does not stimulate temporarily, but restores permanently. It allays irritation of the delicate tissues surrounding the brain and unduly expanded glands, contracting them to their normal condition, which prevents loss of vitality. It tones up and strengthens the blood vessels that carry nourishment. The patient realizes a great benefit has been lifted from his life.

We want all MEN WHO ARE SUFFERING from any disease or special weakness to feel that they can come to our office freely for examination and explanation of their condition FREE OF CHARGE, without being bound by any obligation whatever to take treatment unless they so desire. We cure.

Stricture, Varicocele, Nervous Debility, Blood Poison, Rectal, Kidney and Urinary Diseases. And all diseases and weaknesses due to inheritance, evil habits, excesses or the result of specific diseases. CONSULTATION AND EXAMINATION FREE. Write for Symptom Blank and Booklet. Office Hours: 9 A. M. to 9 P. M.; Sundays, 10 to 12 only.
