Professors Are Poorest Paid.

Mr. Carnegie's letter to the trustees is dated April 18, and is as follows: dated April 18, and is as follows:

I have reached the conclusion that the least remarded of all the professions is that of the teacher in our higher educational institutions. New York (Ity generously and very wisely provides retiring pensions for teachers in her public schools and also for her policemen. Very few indeed of our colleges are able to do so. The consequences are grievous. Able men hesitate to adopt esaching as a career, and many old professors whose places should be occupied by younger men cannot be retired.

I have, therefore, transferred to you and your successors as trustees \$10,000,000 5 percent first mortgage bonds of the United States Steel Corporation, the returne from which is to provide retiring pensions for the teachers of universities, colleges and technical schools in our country, Canada

I cannot, therefore, presume to include them.

There is another class which states do not There is another class which states do not aid, their constitutions in some cases even forbidding it, viz. sectarian institutions. Many of these established long ago were truly sectarian, but today are free to all men of all creeds, or of none. None such are to be considered sectarian. SPECIAL CABLE STOCKHOLM, April 27 .- Public opini ere is almost unanimous in holding that he decision of Norway's mixed council rejecting the Prince Regent's conciliatory project leaves virtually no hope that the Swedish-Norwegian quarrel can be adjusted on the basis of maintenance of the union. It is considered that Norway's determination to assert its independence in

a manner puts effective political co-opera-tion out of the question. Sweden believes that Norway is making a mistake that may end in Jeopardizing the peninsula and distorbing European politics, but cherishes no thought of attempting to shape things by force.

In passing upon the case, the Secretary olds that Sand Island is distinctively the property of the United States, and not of the State of Washington, as had been implied by a telegram from Governor Mead. Furthermore, he points out that the fact that the fishermen are willing to pay \$5120 per year for the use of this island indicates its value. Under all the circumstances, the Secretary maintains that the Government must enforce its right to collect revenue for the use of this island, and will do so from this time on, Persons not holding leases from the Government will be prohibited from landing on Sand Island.

ONLY ASK FOR EQUAL RATES

Townsend Replies to Spencer on Railroad Rebates.

DETROIT, Mich. April 21 .- Congressman Charles E. Townsend, of Jackson, Mich., author of the Townsend-Esch railroad bill, spoke last night before a meet. ing of the Michigan Manufacturers' Asso-ciation. Mr. Townsend took up the speech delivered by President Spencer, of the Southern Railroad, at Pittsburg,

"We do not ask wholesale reduction of rates," said Mr. Townsend. "We want the Commission to have power to decide what is a just rate when the rates have been challenged. Secret rebates mean the loss of millions by the railroads, but the railroads are most arrant cowards. Traffic men do not know the cost of the transportation of a given article a given distance, and admit they cannot find out. How, then, do they fix the rates—by put-ting on all the traffic will stand.

"We are asking nothing more than, as President Rooseveit expressed it in his message, to 'Keep the highways open to

all on equal terms.

"President Spencer says he agrees with the President's sentiment, and yet he attacks the bill which seeks to bring this about. The same arguments are now used against the original interstate commerce bill, and yet Mr. Spencer says the original law is a good one and adequate to doal with all abuses which may arise."

Still Holds Out for Philippine Duty. WASHINGTON, April 27.-The Secretary of War has written a letter in reply to a claim against the Government of the United States for duty collected at the

port of Manila between April 11, 1829, and October 25, 1901, the claim being based on the recent decision of the Supreme Court of the United States in the case of War-per, Barnes & Co., and Peabody & Co., vz. the United States, in which he says:

His candidacy is at the urgent solicitation of some of the most prominent and substantial business men of Portland, and he has the indersement of two of the Republican clubs of the city. Mr. Barry has been a resident of Portland for the past 16 years and is especially well known in fraternal societies and printing circles, being at present connected with the firm of Bushong & Co. His condensed platform reads: "Advocate of common-sense administration of city affairs and civic improvement." When questioned further as to his position, Mr. Barry said: "What do you really mean by a 'closed' town or an 'open town? If you mean that Portland should be more 'open' than it is at present, I say no. If you mean that it should be more of a 'closed' town. than It now is, I answer no. From what I hear from the business men of Portland and a great majority of the people generally, no change is desired—they are satisfiel with prevailing conditions—for this Exposition year, at any rate. However, there is room for great improvement along other lines. Corporations and contractors should not be permitted to tear up improved atreets at will-not without an adequate guarantee to the city for the proper repair of the same; there should be greater publicity in the awarding of city contracts; no bidder should be permitted to withdraw his certified check after bids are opened, thereby permitting collusion and compromise. These are a few of many needed improvements."
