Councilmen Vote for the Bitulithic Proposition.

MALARKEY OBJECTS

Attorney Declares That the City Fathers Should Ask for Competitive Bids and Not Help Foster a Monopoly.

The fight for the improvement of Second street took another turn yesterday, at the meeting of the street committee of the City Council. At the last meeting of the committee, there was a difference of opinion between affected property-owners us to whether the street should be improved with stone blocks or with the bitu-lithic or some other smooth surface pavement. When the matter of paving Se street was taken up by the committee yesterday afternoon the only petition prewas that of Frank Kiernan and others calling for Warren's bitulithic pavement. Chairman Rumelin asked what had been done by those wanting the street paved with the Belgian blocks, and W. F. White stated that the property-owners standing out for a stone pavement had decided to make no further efforts to se

Malarkey Enters Protest.

As soon as this statement was made a motion was introduced for the granting a of the Kiernan petition, but before it could be put to a vote Attorney Dan Malarkey asked to be heard. He entered a protest against the granting of the petition on the grounds that it was unfair, illegal and examiners, this man would have gone to impolitic for the City Council to order a work, to the harm of his patrons." street paved with a pavement that could be furnished by one firm only. He con-tended that the word "bitulithic" was an arbitrary word or trademark adopted by the Warren Company for the purpose of securing a monopoly, and that by adopting that word and providing in the specilications for the pavement for the use of Warren's brand of cement and other ma-terials, the city authorities were promoting that monopoly and preventing honest competition in public work.

He said that it was not necessary to use the word "bitulithic" or provide for the use of any one man's material to secure a so-called bitulithic payement. He Birected attention to the fact that there was attached to the petition before the amittee a letter from the Warren Company to Frank Kiernan, stating the price which it would lay its bitulithic pave ment on Second street, and said it was a waste of money and a farce to advertise known in advance that there could and would be only one bidder. He contended that the proposed procedure put it in the power of what he called "the bitu-lithic paving monopoly" to charge what it pleased for grading, curbing, drains and other items that entered into street

He Favors Competition.

Mr. Malarkey said that the Warren Company was not the only person who could lay a so-called bitulithic pavement. He urged that the fair and proper course to pursue was to leave out of the resolution, specifications and ordinance for reach the main office, making a savi the proposed improvement the words and of time of one to two hours in the mor terials, so that anyone in the paving busi-ness could bid on the work.

9 o'clock, all of which will give East P. land first-class mail service. Every of

bitulithic or specify Warren's brand of ment. Let the city officials prepare full and accurate specifications of the meth ods and materials to be used in laying the pavement, and then, no matter to whom the contract is awarded, insist on a strict compliance therewith. I maintain that neither this committee nor the City Council has a right to foster a monopoly with a certain kind of pavement that it is alleged has been patented. Other firms can put down the same pavement as Warren's bitulithic if you will call it by some has to do is to change the wording of the resolution for the pavement of a street in such a manner that others can bid and therefore carry out to the letter the pro-visions of the city charter, which says every particular, that all contracts for the improvement of the city's streets shall be let to the low-

Pointed in His Remarks.

bally Metroreological report

portianne No. 14.23, of the City of Portland, which relates to the improvement of streets. In section 21 warren's alleged patented method of paying streets is described as the only smooth payement of that character sanction by the Council.

Chairmen.

Chairman Rumelin stated that it was his understanding that all the propertyowners had practically agreed at the last meeting of the committee to consent whatever pavement a majority ther petitioned for; but Mr. Malarkey insisted that the only question at issue at the former meeting was stone block or a smooth-surface pavement, and that the property-owners, who had favored the stone blocks, had in no way committed themselves to shutting out competition in any event, and he urged that, inasmi as the petition was only filed after the meting commenced, no action should be taken until the other property-owners were given a chance to be heard from on

Interested property-owners answered Mr. Malarkey by saying that they had asked for the bitulithic pavement because they wanted that kind, and they had understood that the committee would grant whatever pavement the majority of the property-owners wanted. "It is not a ling in the North Pacific States, with temquestion of a pavement as good," said one of the property-owners, "but of the bitu-lithic pavement. The property-owners of the pavement. The property-owners of the reserved. hithic pavement. The property-owners of Portland have had some experience with the Trinidad Asphalt Paving Company, and Second street does not care to take another chance. To this Mr. Malarkey replied that the Trinidad company had as replied that the Trinidad company had as much right to do business in Portland as the Warren company, and that competition between two trusts was better than no competition at all.

After listening to the argument of both sides for some time, Councilman Bentley suggested that the matter be referred to the City Attorney for solution, but At-torney McNary stated that, though it was not within his province to give an opinion as to the wisdom of inviting bids in such nner as would prevent competit was satisfied that a contract could be entered into with the Warren Construction involving the city in legal difficulties. uncilman Bentley then withdrew his

for the bitulithic pavement was put to a vote and carried by the following vote: Ayes, Zimmerman, Bentley and Rumelin; nays, Sharkey and Merrill. Councilman Sharkey explained his vote by stating that he believed in competition and that several Second-street property-owners had asked him to vote for competitive bidding on the proposed Second-street

FOR CLEAN BARBER-SHOPS

State Board of Examiners Will Take Special Precautions.

From now on an active crusade will be pened by the Barbers' State Board of Examiners for Oregon, to insist that clean barbers and clean barber-shops shall be the rule and not the exception in the city. in view of the crowd of barbers from other cities, working here during the Lewis and Clark Exposition. The Board has just finished a tour of Southern Oregon shops where fairly satisfactory trade conditions were found, and yesterday the officers were busy renewing barbers' cer-tificates expiring May 1 each year. Outside inspection work will be resumed again Tuesday and Wednesday, and the officials will then leave for inspection work in Eastern Oregon towns. Cole & Hawarth, proprietors of the barbers' col-lege, still defy the authority of the Board of Examiners and insist that all the usual sanitary rules are being observed at their place of business.

"Some people-there's no need to mention any names—seem to take a pleasure in finding fault with the Barbers' State Board of Examiners," said a "bose" barber, last night. "It does not seem to be known that the State of Oregon does not pay one cent to our board. All salaries are paid by the barbers themselves, out of their earnings. We insist on cleanti-ness in person and shop, and our work in this regard is conducive to public health. The other day a barber from another state came to Portland to begin business here, as he thought he would make money with the increased travel to the Exposition, and when he applied for a permit from the Board to begin work, one of the examiners noticed that the man was suffering from a skin diseas of course the application was refused. In other days when there was no board of

STATION A OPENS MAY 1

W. S. Halvor Will Be Appointed the Superintendent.

While not officially announced, it is un derstood that W. S. Halvor will be su-perintendent of the new East Portland Postoffice, and that the station will open on or about May 1. The appointment of Mr. Halvor will be satisfactory to the people of East Portland, as he has had extensive experience in the postoffice and mail business. While in name the station will be Station A, in reality it will be a fully equipped postoffice and will do all the business that is done in a postoffice.

The room at Union avenue and East Alder street is being fitted up with new and modern furniture. There will be more than 100 mail boxes for people who want to get their mail that way. For the Sun-day delivery, between 10 and 11 A. M., a special window is being provided. Mail will be taken through a door opening from East Alder street, leaving the front to the public. Extra windows have beer cut in the south wall.

At the start there will be eight carriers which number will soon be increased to ten. Malls from the Southern Pacific and O. R. & N. trains in the morning will be made up in pouches on the incoming trains and delivered directly to the East Portland station, and the carriers will be delivering this mall before it could reach the main office, making a saving private brands of materials that pre-vented competition and substitute there-for generic terms and descriptions of ma-er up the mail in East Portland at 5, 6 and "It is not necessary," said Attorney Ma-larkey, "to use this trade-marked name tion by May 1.

Regarding the Ferry Contract.

Regarding the Ferry Contract.

PORTLAND, Or., April 28.—(To the Editor.)

—Wednesslay's Oregonian says the new Albins ferry will be accepted by the county, although it does not seem to be satisfactory. Presuming that the ferry was constructed from definite plans and specifications and under a contract that calls for certain requirements, why is it necessary to accept this boat before the builders complete the same according to contract, thus threwing the cost of siterations or additions upon the county? Upon what hases was the contract let? Is the county letting contracts in asch a vague and slivehald manner that the commissioners must take what is turned over to them and have no opportunity for redress? If this is the case, it is high time contracts at this kind be drawn up at the proper period so this kind be drawn up at the proper period so this kind be drawn up at the proper period so this kind be drawn up at the proper period so this time County Judge and the commissioners may not find it necessary to accept and pay for a boat that is not complete and satisfactory in every particular.
