Valley, which offers several attractive projects, now under examination.

RENEW THE FIGHT ON SMOOT

Dubois Lays Plans and Thinks He Will Be Unseated.

OREGONIAN NEWS BUREAU, Washington, May 1.—Senator Dubois had a conference in Philadelphia yesterday with ex-Senator Frank Cannon and Mrs. Frederick Schott, of the National League, a women's organization, relative to plans for a further fight on the Mormon church and Senator Smoot. On his return, Mr. Dubois said he thought, in the light of the recent acts of the Mormons, Mr. Smoot will be unseated early next session, since he has broken faith with the committee which has his case in charge, and because his church, by sustaining the two apostates who have taken plural wives since 1890, returns to the same position it occupied before the Woodruff manifesto. Mr. Dubois says, if Smoot is not unseated, the way will be open to the election of Mormon Senators from Utah, Idaho, Wyoming, Oregon, Nevada and Montana.

VIEWS IN WARSAW, THE SCENE OF YESTERDAY'S BLOODSHED

THE GOVERNOR'S RESIDENCE.

ALL SAINTS' CHURCH.

ALL SAINTS' CHURCH—It is situated in the densely populated Jewish quarter of Warsaw, and the scene of sanguinary disturbances on Sunday, December 12, last, when 19 persons were killed, some of them on the steps of the church. The troubles began at the moment the congregation was coming out from mass, and was started by some unknown person displaying a red flag. Instantly the crowd began to sing "The Red Standard," a Socialist song which is always heard on the occasion of popular demonstra-

tions in Warsaw. The police were soon on the spot and were shortly followed by Cossacks and Dragoon regiments who fired the first shot. The police accuse the mob and the mob charges the police with opening fire. THE GOVERNOR'S RESIDENCE—This was formerly one of the palaces of the wealthy Prince Radzivil, a family which owns vast estates in Poland. It was bought by the Russian government for state purposes and is now chiefly occupied by the Governor-General as a winter residence.

connection with the Klamath irrigation project in Oregon. The government had previously secured options on these irrigation systems, and the action of the Secretary provides for their purchase as soon as the final plans of the engineers for the construction of the large project have been accepted. The government will pay \$100,000 for the Adams canal and \$50,000 for the Ankeny.

The Secretary has also approved, subject to future determination, to construct the project, the purchase of 15,000 acres of land belonging to the J. D. Carr Land & Livestock Company, at Clear Lake, California. The purchase price is \$157,500, and includes the riparian rights of the company in the Clear Lake reservoir site and along the Tule Lake, besides canals now constructed on the lands of the company. These lands and rights constitute an essential item and a valuable concession in the Klamath project.

CELEBRATION OF YALU BATTLE

Kuroki's Army Has Spectacular Fetes at the Front.

HEADQUARTERS GENERAL KUROKI'S ARMY, via Fusan, May 1.—The anniversary of the battle at Yalu was celebrated by General Kuroki's army today with spectacular fetes. Soldiers representing all military organizations managed the day with a switchman's lantern yesterday, blew up and burned 12 merchandise cars, causing a loss of \$50,000. The valley in which the headquarters is situated was transformed into a park by utilizing streams, grass plots and hillsides for the reproduction of Japanese scenery. An altar with a tablet in memory of the army's dead was erected on the summit of a hill. The approach to the altar was a wide avenue through a grove of trees studded with artificial cherry blossoms and crossed by triumphal arches. Other features of the decorations were an equestrian statue, representing General Kuroki, and a reproduction of the Yalu battlefield. Shinto Buddhist services in memory of the dead soldiers were held at the altar, with the troops massed at the foot of the hill. Race tracks, theaters and a profusion of unique decorations were laid out on the plain. Several hundred officers lunched at tables spread under the trees, and the amusement which included a procession, representing the Samurai warriors and followers of feudal times. Horse-racing, theatricals and wrestling completed the day's program.

CLOSE ALLIANCE WITH BRITAIN

Present Aim of Japan—Togo Will Delay Battle.

NEW YORK, May 1.—Kurekigo Takahashi, financial agent of the Japanese government, who arrived from London yesterday, after negotiating the recent Japanese loan, said today that Admiral Togo would not offer battle to the Russian fleet, because he had too much at stake and was not willing to risk all on the first throw of the dice. In his opinion, the most important matter under consideration by the Japanese statesmen is the enlarging of the scope of the alliance now existing between Japan and Great Britain. He considers that Russia will be so weakened by the war that her influence in the Far East will not be seriously considered for ten years. When he was asked if he thought there was any possibility of an alliance between Russia and Japan for the imposing of a Monroe Doctrine in the Far East, he said: "That is a French idea, which has been given birth owing to the alarm the French have felt over the encroachment of the Emperor of Germany in China. Of course, there is nothing preposterous about the idea of such an alliance, but at the present the Japanese statesmen are considering ways and means of effecting a great offensive and defensive alliance with Great Britain."

Arrivals at New York This Week Will Total 25,000.

NEW YORK, May 1.—On 22 steamships due to arrive at this port this week from Great Britain and the Continent is the highest number of immigrants ever scheduled to enter during such a period of time. The hordes reaches nearly 25,000. At Ellis Island arrangements have been made for their prompt handling, because the detention of any part would at once tax the facilities of the emigration station far beyond its limits. Figures for the week that has just closed were close to 22,000, showing that the rush has been kept up for a longer period than ever before, and it is likely that the total immigration for the Spring will far exceed any previous year.

ALLEGED NON-OBSERVANCE OF NEUTRALITY

attracts attention here, but the Foreign Office says no further official consideration of the subject has occurred and France has given ample assurances that she intends to observe neutrality, and these are being fully carried out. Consequently the governmental view is that the question is closed, so far as France is concerned, as she has done everything within her power to secure the observance of neutrality. This doubtless will be the response if Japan makes further representations, which, however, has not been indicated by any action on the part of Dr. Motono, the Japanese Minister.

THE SUICIDE THEORY

The suicide theory was strongly emphasized by Mr. Levy, who contended that the powder stains on Young's finger proved that he had shot himself. He scouted the idea that a girl would be able to make such a result on a trained athlete like Young. He also ridiculed the idea that Miss Patterson should have chosen a crowded public street as a place for murder when she had so many opportunities to attack Young where the odds would have been little danger of detection. Assistant District Attorney Rand will close for the people, and it is possible the case will go to the jury tomorrow afternoon.

LEVY CALLS RAND OFF.

When the trial was resumed, Mr. Levy formally announced that the defense would rest on the state's case, and then began his closing argument for the prosecutor. Mr. Levy warned the jury that circumstantial evidence must be considered with the greatest care, and continued: "I must call your attention to the pawn tickets by which Mr. Rand sought to delude, that they were dated June 3, when, as a matter of fact, they bore date of October 1, had them put in so as to show you as an object lesson the unfair tactics resorted to by the prosecutor. He also told you about the \$50,000, which, he says, was lavished by Young where the odds were against him when he knew the case was barren of evidence of any money, excepting \$500."

VICTIM OF YOUNG'S BLANDISHMENTS.

Mr. Levy argued that Nan Patterson was the victim of her own weakness and the blandishments of Caesar Young. It was admitted that she was the mistress of Young, he said, but before that she was as loyal to Young as if she had truly been his wife. Young was the master; she was the weakling. He would have the jury not accept the letter written to Leslie Coggins as showing that she was devoted to Young. The letter was not dated and the only way to fix the time it was written was to go back to when Miss Patterson was in a California hospital. That, he said, was 2 1/2 years ago, before Caesar Young came into her life. It had been shown by the prosecution, he said, that Young saw the Coggins let-
