SEATTLE, Wash., May 1.-Roach and Essick had a great pitchers battle of it today for 14 innings, and young Essick had to see his game tossed away by Van Buren, who threw badly to first in an en-deavor to head off Dashwood. The bad toss allowed Lefty Houtz to scamper across the rubber with the only run of the afternoon.

A more experienced first baseman than Van Buren would have made the out himself. That would have made two outs, with Houtz on third and McHale up. Essick had pulled out of just such holes about five times before, but Van made the toss to Essick, who covered the bag, and he threw the ball out of the pitcher's

Three times, he robbed Giant McLean of line smaches that would have been good for extra bases, taking one chance with one hand while backed up against the fence. Kane also played sensational ball around third, but Essick had the Indian sign on him at the bat.

BIPPOWAM'S RECOMPENSE, OWNED BY H. P. STRICKLAND, OF SEATTLE.

Rippowam's Recompense, owned by H. P. Strickland, of Seattle, is attracting more attention and arousing more admiration than any other entry at the Bench Show. Although only 22 months old, she has a record of 18 firsts and nine silver cups. She is perfect in every way and has won the cup in every bench show in which she has been entered. Competent critics pronounce her to be the most beautiful Collie in her class

visitor at the entrance and continued to be the paramount impression.

The sixth annual bench show of the Portland Kennel Club opened yesterday with 250 entries and 275 dogs shown. The

types represented ranged all the way from mighty bloodhounds and St. Bernards to dainty little Japanese spaniels. All of them are aristocrats and being apart from the dogs of the street they command the respect due their position. Many people strends y controller and the street of respect due their position. Many people attended yesterday, some of them anxious exhibitors, others, fanatics who know the whole history of dogs from the time those of Egypt barked at the newly-crected pyramids, and others who went in the simple capacity of friend and fellow. WHY WE DO IT

To Introduce Our Line of Ladies' Silk Shirtwaist Suits For it is well known that in the past we have not handled this line of ladies' wear, and to let everyone in Portland know that we have added this popular line of garments to our Ladies' Suit and Cloak Business. What we lose during this mile would be a handsome profit for any store. But it's not lost, it's advertising—the most expensive in the world, the best in the world. We have been here for years, and our old reliable motto is still in force, "It shall not cost you one cent if you are not satisfied."

A Tremendous Stock of Woolens for Gents' Merchant Tailoring Our old customers, when they come in now, say, "My but you have increased your stock." So we have. It is double that of any concern in Portland. That means you can find what you want, from the lower and medium grade of cloth to the finest. We ask you to take nothing for granted—all linings, trimmings, etc., will be exhibited for your inspection. No dissatisfaction will be tolerated. "It shall not cost you one cent if you are not satisfied"—that is our rule; we will not break it with anyone. Store open evenings till 8 o'clock.

OUTING

EDITED BY CASPAR WHITNEY APPEALS TO EVERY OUTDOOR

PHASE OF HUMAN INTEREST No matter what your work, or play or interests, there is something helpful for YOU in Outing because the field it covers

is as broad as modern life. Jack London, Alfred Henry Lewis, John Burroughs, Chas. G. D. Roberts; can you imagine greater contrasts in modern literature? Yet each one, in his own way, sounds the deep

human note that makes his work appropriate to Outing. Thus, whether publishing practical articles on the little everyday problems that confront the average country householder, or sending a second expedition into Labrador, or securing the photographs-which have made the magazine famous-Outing is always a helpful magazine of wide and real appeal; for the finger of the editor is ever on the pulse of human in-
