

PAT CROWE HAS COME TO FRONT

Walks Into Omaha Newspaper
Office and Tells Story of
Wanderings.

NEGOTIATES FOR IMMUNITY

Kidnap of Eddie Cudahy Served in
Boer War, Then Settled in Chi-
cago—Wishes to Reform
and Go Into Business.

OMAHA, Neb., May 5.—Pat Crowe, the alleged kidnap of Eddie Cudahy, son of the millionaire packer of Omaha, and for whose arrest rewards aggregating \$50,000 have at different times been offered, walked into the office of the World-Herald at 1 o'clock this morning, accompanied by Thomas O'Brien, proprietor of the Henshaw Hotel, of this city.

While there have been rumors of Crowe's being in the vicinity of Omaha for several days, they were taken by the public in a manner similar to former reports of his having been seen, and were given little credence.

Crowe telephoned the World-Herald office at midnight of his presence in the city, and stated that he would call at the newspaper office. A short time afterward he appeared in company with O'Brien. Crowe, O'Brien and a representative of the World-Herald were closeted for nearly an hour, during which time Crowe told of his wanderings since he left the city four years ago.

Served in Boer War.

Crowe stated he had served in the Boer War, fighting with the Boers. He returned to this country after the war and has lived continually, according to his statement, quietly in a South Side flat in Chicago. He says he has been in Chicago nearly three years, and that he has visited Omaha on three different occasions during that time.

He stated that he had been negotiating for several days for immunity from punishment, in case he should surrender himself to the authorities, although he declined to say with whom the negotiations were being held. He stated that he was living in isolation from his relatives and friends, and wishes to reform and get into business. He declared that he would ask for immunity from the penitentiary and stated that he was ready to accept the protection of the Omaha police. He said that, in case he was permitted to remain in Omaha and the indictments against him were quashed, he would get into business at once.

Crowe has been at the home of his brother, J. J. Crowe, who resides in Council Bluffs and runs a saloon in that city.

Does Not Admit Guilt.

He was asked if he had a hand in the famous Cudahy kidnaping, but declined either to deny or admit guilt. During the interview Crowe was apparently ill at ease.

The kidnaping of young Cudahy took place December 31, 1900. The kidnaper demanded a ransom of \$25,000 for the boy, but he was set free near his father's home by his captors, who got no money.

Following the kidnaping, Edward Cudahy, Sr., offered a reward of \$25,000 for the capture of Crowe and this offer was followed by another of a similar nature by the City Council and County Commission. Other rewards were also offered, bringing the aggregate amount up to \$50,000.

Following tonight's interview Crowe left for the home of his brother in Council Bluffs. What action, if any, will be taken by the authorities is not known.

HEAVY SNOW ON PRAIRIES

Draws Out Snowplows on Railroads,
Blessings From Farmers.

ST. PAUL, Minn., May 5.—Weather conditions in the Northwest, particularly in North Dakota, Montana and north to Winnipeg, have been very unusual during the past 24 hours. There was a heavy fall of wet snow in that section, ranging in depth from six inches to a foot. Rotary plows were used on some branches of the Northern Pacific to clear the tracks

of snow. The running of snow plows on these branches at this time of the year breaks all previous records.

The snow is considered by farmers as a great blessing, as the ground was very dry, and a crop is looked for.

CRISIS IN STRIKE TODAY

(Continued from First Page.)

Ohio and Kingsbury streets by a crowd which pursued them for more than half a mile, raining stones, bricks and bottles upon the police officers and the drivers. The mob was composed almost entirely of young men and women, the latter taking an active part in the rioting and urging the men to further violence.

Edward Lashem, president of the Lashem Teaming Company, was attacked by a crowd of union teamsters at Madison and Union streets and fearfully beaten. Lashem was driving one of his own wagons and was asked to show a union button. Before he was given a chance to explain that he was a teamowner and therefore ineligible as a member of the union he was pulled from his wagon, knocked down and kicked.

Among those seriously injured during the day's rioting are: Edward Lashem, team owner; Edward Johnson, colored porter; Amel Roust, driver; Harry Jamieson, Abraham Britts, Samuel Ralph, colored teamster; William Vogt, union teamster; Joseph Joanson, colored teamster; Paul Schaefer, nonunion teamster.

Sheriff Barrett tonight took a more hopeful view of the situation than he had held at any time during the day. He expressed the belief that the crisis of the strike was over and its backbone broken.

"I do not believe that conditions will develop in such a manner that troops will be found necessary," said he.

Recruits to Employers' Ranks.

The Hide and Leather Association, one of the members of the Teamowners' Association, at a meeting of its officials today, decided to make deliveries to all firms regardless of whether they were involved in the strike or not. This firm handles all the merchandise of the greater number of the druggists and boot and shoe manufacturers throughout the city and, should the teamsters decide to call out the union drivers employed by the firm, it would affect \$500 men.

At a meeting of the Furniture Manufacturers' Association this afternoon it was resolved that all teamsters employed by the firms represented should make deliveries or be discharged.

Employers Condemn Police.

The executive committee of the Employers' Association has issued a statement declaring that the police in many cases have not endeavored to suppress rioting, but on the contrary have shielded strikers guilty of disorderly conduct. The Employers' Association also declares that Mayor Dunne has not performed his duty properly handled the police.

FIRE IN PEABODY COALYARD

Police Say It Was Incendiary, as
Firm Fights Union.

CHICAGO, May 5.—Fire tonight broke out in the coalyard of the Peabody Coal Company, at the intersection of Twenty-eighth street and the Pennsylvania road. The damage done was but slight, however, the total loss being not over \$200. The flames were discovered by the engineer of a passing locomotive, who sounded the alarm.

A large crowd soon gathered, but none of the people would turn in an alarm through a firebox because of the feeling against the Peabody company, which is a strong factor in the teamsters' strike. The blaze was seen from a distance by a policeman, who notified the fire department.

The police declared that the fire was caused by an incendiary, but they had no direct proof to offer of that fact.

TWO THOUSAND LAW OFFICERS

By Constant Vigilance They Succeeded
in Reducing Mob Violence.

CHICAGO, May 5.—Two thousand men constituted the police force available for strike duty today. With this number the police officials expected to guard 120

wagons—a decided increase over yesterday's total.

Bricks and baseball bats were used with telling effect today in Dwarborn street, near Nineteenth, when a score of negroes, all nonunion men, preparing to take out wagons to transfer goods for various establishments, were attacked by a mob. Several men were hurt. Harry Jamieson, a bystander, whose head was cut open with a baseball bat, will probably die. A squad of police, with swimming clubs, dispersed the rioters, after beating many men over the head.

In defiance of Chief O'Neill's order issued today that all persons found following wagons owned by the Employers' Teaming Company would be arrested, a large crowd surrounded a caravan of wagons that conveyed 100 negro drivers and guards from lodging-houses in Central House Court to the Peabody Coal Company's yards, at Canal and West Twenty-sixth streets. The 50 police who served as an escort were unable to follow the order regarding arrests, but did succeed in forcing the passage of the caravan. A number of bricks were thrown, but did no severe injury.

For possibly the first time since the strike began a caravan of coal wagons manned by nonunion colored teamsters traversed the center of the city today absolutely unopposed. The caravan consisted of 15 wagons. Not a Jew was heard as the wagons moved along the streets.

Delivery of goods in the residence district, though much enlarged today, was not all smooth sailing by any means. At Forty-eighth street and St. Lawrence avenue, 100 persons attempted to assault a nonunion driver. Using a heavy whip desperately upon his assailants and aided by two policemen, the driver saved himself from being beaten, although showered with stones, sticks and tin cans. A patrol wagonload of police dispersed the crowd, after making four arrests.

Following a walkout of teamsters of Heath & Mulligan, paint manufacturers, the drivers of the National Lead Company became involved in the strike. The Lead Company drivers refused to deliver goods to houses under the strikers' ban. Similar instances of relatively minor additions to the idle thousands continued to be reported.

Mahon Opposes Street-Car Strike.

International President Mahon, of the Street-Railway Men's Union, today continued his probing into the street-car company phase of the situation. "He is not for a strike,"

"I don't deny," said he, "that there seems to be considerable sentiment among the rank and file for a strike, a sympathetic walk-out and the tying up of the Union Traction lines. I have been through a lot of strikes in the last 20 years, and I do not want to see these men strike. If municipal ownership is to be installed here, these employees would go in under civil service regulations. What would it avail them to strike now and lose the chance for civil service? No, sir; the conductors, gripmen and motormen cannot strike on a sympathetic issue."

Mr. Mahon admitted, however, that if the firemen and engineers go out and deliveries of coal by nonunion teamsters continue, the leaders may not be able to hold the Street-Car Employees' Union in check. Aggravating the situation today there was a general report that the Union Traction Company would make a positive refusal to renew agreements with the union on the basis of a reduced schedule of hours of employment.

As a result of the boycott placed on boycotted department stores, more than 400 clerks are idle.

milian Canal Commission has approved the estimates submitted by Colonel Gorgas of the Army Medical Corps, chief sanitary officer of the isthmus, allotting \$456,444 for the fiscal year beginning July 1, 1905, for the health department.

DAVIS MUST COME HOME

Taft Issues Order—New Commission Going to Isthmus.

WASHINGTON, May 5.—Secretary Taft today cabled Governor Davis, at Panama, to return at once to the United States, placing Colonel Gorgas in charge of the administration of the Canal Zone until the arrival there of Governor Magoon. Governor Davis is suffering from malaria, and his physicians advised him to leave the isthmus to recuperate. He has resented the advice, however, fearing that his sudden departure at a time when the health conditions on the isthmus are adverse would be misunderstood.

The Secretary plans to have the executive committee of the Canal Commission, consisting of Chairman Shonts, Governor Magoon and Chief Engineer Wallace, sail for the isthmus on May 16. It will be followed by the remaining members of the commission July 1 and the entire body will make a thorough examination of conditions on the isthmus, with particular reference to the formation of plans for canal construction. It will consider the important question of tide level or lock canal. These plans will be submitted through Mr. Taft to the Board of Consulting Engineers, which will be called in session for the first time in Washington, September 1 or 15 next.

Mr. Taft feels that two months will be sufficient to enable the Board to form final plans upon which can be based a Presidential recommendation to Congress at the next session.

ZEMSTVOISTS IN SESSION

Demand Election of Popular Members on Bouligan Commission.

MOSCOW, May 5.—The most ambitious and thorough project of the new governmental organization contemplated by the rescript of March 2, namely, a popular assembly, is being discussed by the second great Zemstvo convention, which opened here today. The first day was devoted to explanations and familiarizing members with the various details of the programme, making clear points in doubt. The project was exceedingly well received by the delegates and probably will be adopted in its main lines by the congress. It is noticeable that the programme confines itself entirely to the proposed representative assembly, not mentioning the executive. The intention being to avoid any attempt at definition or limitation of the powers of the Emperor.

Before beginning the discussion of the project, the members adopted a resolution favoring participation by the people in the work of the Bouligan commission, only if the popular representatives are elected, and not selected, and are given an equal voice with the government representatives. It was also resolved that the deliberations of the commission should be subject to the broadest publicity and that, as a necessary preliminary to any satisfactory result, the abolition of martial law and the establishment of the right of assembly and free expression of thought by word and press should be declared.

Cable-Car Strikes Hearse.

TACOMA, Wash., May 5.—(Special.)—A cable car on a heavy down grade at Thirtieth street and Tacoma avenue struck a hearse containing the body of H. W. Williams today. The hearse was overturned and the casket was thrown about 20 feet, breaking open. The undertaker's assistant had a hip broken.

Railway Congress at White House. WASHINGTON, May 5.—After three hours of discussion this morning the International Railway Congress, which is working in five sections, adjourned to the White House, where Vice-President Fairbanks in the east room received the members in behalf of President Roosevelt.

No conclusions resulted from the discussion today. The first section considered wooden sleepers, or cross-ties. The second and third met together and considered great-power locomotives; the fourth debated slow freight rates and the fifth light railways and their effect on trunk lines.

Scrofula is eradicated and all kindred diseases are cured by Hood's Sarsaparilla.
