FAIR ANNOUNCED

Governor Ferguson Issues Official Edict Urging His People to Attend.

A TRIBUTE TO PORTLAND

June 27 Is Named as Territory Day and a Big Turnout Is Called For on That Occasion.

In a special proclamation Governor T. B. Ferguson, of Oklahoma, bids the people of his territory attend the Lewis and Clark Exposition. In his proclamation Governor Ferguson pays a strong tribute to Portland, to the Exposition enterprise Portland has fathered, and to the explorers Lewis and Clark, in honor of whose exploits the Exposition is held. All citizens and residents are urged to visit Port. zens and residents are urged to visit Port-land and the Exposition. Tuesday, June 27, is named a special Oklahoma day, on which occasion the Governor in his procla-mation earnestly solicits his people to make a big showing at the Fair.

Governor Ferguson's Proclamation The proclamation, in its essential parts, is as follows:

This year a great exposition will be held i Portland, Or., to commemorate the advent of Lewis and Clark upon the Pacific Const, after one of the most eventful journeys in the history of exploration ever made on land and river. Posts may recount in glowing terms the traditions of the deeds of chivalry of the "knights of the olden times"; historians may tell us of the iron will of the great explorers who have pushed their dimoveries into the heart of "Darkest Africa," but none of these nighty endeavors surpass in deeds of valor and loyalty of purpose the edventures and achievements of Lewis and Clark in "biazing the way" arross the continent guided as they ments of Lewis and Clark in "blazing the way" across the continent, guided as they often were by the native magacity and uncerting instincts of Sacaiawes, the Indian "birdweman." It is a fitting thing for a Centennial Exposition to be held upon the Pacific Coast to celebrate the success of that great journey which meant so much to our country. Again, it is proper that Oklahoma, the last commonwealth to be carved from the domain traversed by Lewis and Clark, should participate in that celebration.

that celebration.

There are now many former Oklahoma citizens residing upon the Pacific Coast. They very much desire that a day be set apart as Oklahoma day at the Exposition. Many editors and other citizens of Oklahoma will visit Portland in June next. The representatives of the Exposition management have elemined their desire to set apart a day for the benefit of Oklahoma.

re, by the authority vested in me as Governor, I respectfully proclaim Tuesday, June 27, 1900, as Oktahoma day at the Lewis and Clark Exposition at Portland, Or., and ask that the former citizens and friends of the Territory now residing upon the Pacific Company of the Company of th Coast, all editors and other citizens from Oklahoma and the indian Territory, join with

Oklahoms and the indian Territory, join with us in this enterprise.

A special livitation is extended to the members of the National Editorial Association to participate with us in this event.

Appropriate exercises will be held through the kindness of the Exposition management, and Oklahoms will be given an opportunity to proclaim her wanderful possibilities and demonstrate the achievements of her cosmopolitan citizenship. Oklahoms and the Indian Territory have by unpracedented development Territory have by unprecedented development and their wonderful resources attracted the attention of the entire country, and in the near future will be represented by the new morning star upon the azure field of the flag of our great republic.

BUILDING WILL BE READY

GOVERNMENT STRUCTURE MUST BE COMPLETED.

National Board Insists There Shall Be No Delay in the Construction Work.

OREGONIAN NEWS BUREAU, Washington, May 9.-Members of the Government Exposition Board announce that the Government exhibit at Portland will be complete in every detail by June 1. To that end explicit instruc-tions have been sent to the local men in charge to see to it that everything in the Government building is in read-iness before the Exposition opens. When news was received today that

J. E. Bennett, contractor for the Government Exposition building, was mak-ing slow progress in finishing off the building and its approaches, he was notified by telegraph that he must com-plete everything and be ready to turn over the building not later than May over the building not later that it is a later than practically complete, it is reported that there is still some painting and plaster work to be done and considerable grading about the building and its approaches, it is recognized that Mr. Bennett was seriously handicapped by reason of the strike, but since the building is o near completion the Govern-ment board intends it shall be turned over before the Exposition opens. It is believed that the notice today given will insure completion by the time

named.

When the last touches have been put on and the building is accepted, final payment of the contract price will be made to Mr. Bennett. His manner of erecting the building has been entirely satisfactory; the building is quite acceptable, as far as it goes, but the Government will insist upon entire completion before making the last nav. pletion before making the last pay-

To the failure of staff molds in reaching the grounds J. E. Bennett, the contractor, attributes part of the delay and he claims further that this dely was occasioned through no fault of his own since he requested of the Government that the molds be sent here in February, whereas they did not come until March. He says he has not doubts if he will be able to finish the building by May 17 as the notice is short. According to the terms of his contract with the Government he was to receive eight days' notice before being subject to any interference in his

That the building will be ready in plenty of time is assured by W. M. Geddes, secretary and disbursing officer of the United States Government Board. Mr. Geddes, who is supervising the placing of exhibits at the building. stated yesterday that he had not been advised of the Government's intention to take the contract out of Mr. Ben-

nett's hands. "I am confident," said Mr. Geddes, "that the building will be ready on time for the Government will not per mit of any delay. If the contractor does not finish it the Government will. At St. Louis the Government put on a force of 500 men at the last moment to finish the work there which had dragged to some extent and I believe whatever measures are necessary will be taken here.

Patterson denied all knowledge of the rings, and said he could not have placed them in the safe for the reason that he did not know the combination of the lock. Evidence was introduced showing that "Babe" Mansfield was arrested for stealing the rings, but no formal complaint was filed against her. She was filed for vagrancy, was released on bonds and ran away, going to Salt Lake. She was arrest-ed at Salt Lake, but was not extradited. Heels of New Rubber

It is mistaken economy—this waiting for leather heels to wear down before attaching rubber cushions.

Nothing is gained! Applied when new, an O'Sullivan Heel will outwear any shoe.

Waiting means so much comfort lost while wearing out the leather, and an nount of rubber heel service is lost which the shoes are incapable of consuming. New rubber is the only secret of rubber

There is just one way to get this-by saying "O'Sullivan's Heels." Dealers make more money by substi-tuting other kinds—and you get less

soc. pair, attached, all shoemen. Where dealers cannot supply, send out-line of heels and 35c. to O'Sullivan Bubber Co., Lowell, Mass.

"I have suffered for 25 years with
severe pains in my head, heart and
back, and have tried everything I
could get and could not find any relief
until I got a box of Dr. Miles' Ant.
Pain Pilis. I suffered as long as 12
hours at a time with such severe
pains that I feared I would lose my
mind. The Anti-Pain Pilis gave me
relief in from 16 to 29 minutes. I do
not have to use Morphine any more.
I wish you would publish this so that
other sufferers may find relief."
