# NEW RULES BY STATE LAND BOARD

Fraudulent Applications Are Made a Matter of Difficulty Hereafter.

#### DUMMIES CANNOT BE USED

Close Scrutiny Will Be Made of All Sales Reported by the Grand Jury as Irregular-Deces May Be Refused.

SALEM. Or., May 18.—(Special.)—The State Land Board has established a number of new rules regarding the purchase of state lands, which rules are designed to prevent a repetition of the irregularities which have prevailed in the past.

One of the most important of these new resulting the most resul

regulations is that governing the man-ner of making applications. Heretofore the applicant has merely been required to make affidavit that he was a citizen to make affidavit that he was a citizen of the United States over the age of 18 years, that he wanted the land for his own use and benefit and that he had made no agreement express or implied, to sell or convey the land to any other person. This affidavit could be made before a notary public. Recent developments have indicated that many fictitious parties were sirred to applications and names were signed to applications and that sales were made to persons who had no existence except in the mind of a notary public who was willing to create imaginary people and affix his notarial seal to papers bearing their supposed sig-

any ristle by residents of any state, and the formalities required were few, a dishonest notary public could make an endless number of fraudulent applications with but little danger of detection. It is to remove this opportunity for fraud that the board has ordered new rules and regulations and new forms. One of the future requirements will be

that the applicant shall give his postoffice address. Another will be that his signature to the application must be written in the presence of two witnesses, who must subscribe their names as such. It is also probable that the form of notary's certificate will be changed to read somewhat like the form of seknowl-edgment of a deed, so that the notary

must certify that the applicant is per-sonally known to him. Under the present regulations a notary who forges a name can say that the person who came before him was a stranger, and thereby escape responsibility and avoid detection. While it will be possible to commit fraud under the new regulations, it will be much more difficult. It will be remembered that in the fa-

ous 7-II cases a County Clerk and United tates Commissioner certified that per-ons appeared before them, though those some appeared before them, though those persons had no existence, and agents of the Department of the Interior certified to the existence of houses and improvements that did not exist. In the same way a notary could take the acknowledgment of an imaginary person and forge not only the signature of the applicant, but the names of witnesses also, but there would be more denser of de-

plicant, but the names of witnesses also, but there would be more danger of detection in fraud so extensive.

The board has also made an order directing that close scrutiny be given all future proceedings relative to sales that were reported by the grand jury as ir-regular and the board will probably re-fuse to insue deeds or accept further payments unless satisfied that the application to purchase was in good faith and not in violation of law.

TALKING OF A CREAMERY.

#### Cottage Grove Commercial Club Takes Up Project.

COTTAGE GROVE, Or., May 16.—(Special.)—The Commercial Club, of Cottage Grove, met tonight to consider the advisability of establishing a creamery at this place. The movement has been talked of for some months past, but no definite action taken previous to this time. M. B. Stone, of Lorane, Or., who established a creamery at that place about two years ago, was present and offered the entire plant and fixtures for sale at \$5 per cent of the original cost. Operation was discontinued some time

ago on account of lack of milk.

A committee of three was appointed to solicit funds for the establishing of a stock company here to own and operate a creamery and to secure an estimate of the cost of erecting and furnishing the same. It is thought that at least 200 or 600 cows can be secured to begin with on this undertaking.

Rodgers is said to have attacked his suspension of several months. An agree

Do you remember the little things that gave us so much pleasure when we were young? With what test did we sit down to the table after our play was over and eat the mush and milk our mother put before us. But as we get older it takes more to give us pleasure. Mush and milk no longer tastes good to us, and our digestion may be impaired. The best advice we can give to such a person is to tone up the stomach with Dr. Pierce's Golden Medical Discovery. It is nature's most valuable and health-giving agent—made without the use of alcohol. It contains roots, herbs and barks, and is the concentration of nature's vitality as found in the fields and woods. This remedy has a history which speaks well for it because it was given to the public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago, and has since been sold by druggists in ever increasing quantities. Some medicines, tonics or compounds, enjoy a large sale for a few years, then disappear from the public attention, but Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy and tonic that it often enjoys the confidence of several generations in a family, and its increased sales year by year coming from the recommendations of those who have tried it, prove its lasting merit, so that every bottle bears the stamp of public approval. Every other blood-maker and tonic for the stomach that we know of contains alcohol but Dr. Pierce guarantees that no alcohol is contained in his "Medical Discovery."

Skin Diseases speak for the blood and tell of the acid-laden, poison-us condition of that vital fluid, and of its effort to throw off and rid the system of the poisons and waste matters that have accumulated in it. Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type are all caused by a weakened and polluted blood circulation, and though they may have lain dormant in the system during the cold weather, at the coming

of Spring and Summer, when the blood is reacting and makclog the pores and glands, and

the blood is reacting and making extra efforts to expel all morbid and poisonous matter, they make their appearance. External remedies cannot cure; they soothe and give temporary relief, but often clos the pores and clands, and

the poison causing the trouble is thus shut up in the system to break out afresh later on. S. S. S., a purely vegetable blood remedy, cures all skin diseases by going down into the circulation, driving out all poisons and waste matters, strengthening the blood, leaving the skin soft and smooth, and building up the entire system by its tonic effect. S. S. S. cures Nettle Rash, Poison Oak and all skin diseases that enter the system through the pores and glands, as well as those that have their origin in the blood.
