BEGINS TRIAL OF R. M. RINER

First Defendant in Tanner-Creek Sewer Scandal Is Before Jury.

DEFENSE SHOWS ITS HAND

Attorney Declares That No Contract Existed Between His Client and the City and That the Indictment Is Defective.

A man with scant gray hair, nervously chewing a quid of tobacco in a manner bob up and down like a shuttle, sat in Judge George's courtroom yesterday afternoon vainly trying to catch what was going on before him with the aid of an ancient and much-used ear trumpet. Eighty years had passed over his shoulders, and 40 of those years had passed and had been registered on the calendar of time as a resident of Portland. He was R. M. Riner, who, with his son, E. M. Riner, W. C. Elilott, ex-City Engineer: Henry Chandler, who was a surveyor in Mr. Elliott's office and J. M. Chywood, a sewer and street inspector, were indicted in connection with the Tanner-Creek

This little gray man, with his four-score years that have passed irrevocably, to-gether with his son, were the contractors that congructed the now justly famous that constructed the now justly famous Tanner-Creek sewer, a contract that the state, through District Attorney John Manning, will attempt to prove was a steal. The indictment under which R. M. Riper will be tried says that Riper made and filed certificates that he had completed the work on the sewer, following out the provisions of his contract; that out the provisions of his contract; that these certificates were faise, and that he tried to obtain money by faise pretenses. Like the rest of the defendants who were indicted. Riner demanded a separate trial, and his case is the first to be taken up by the court in connection with this scandal, and Riner's trial, and in fact all of the others will be watched with considerable interest by the taxpayers. The construc-tion of the Tanner-Creek sewer was a no-toriously bad piece of work. W. C. Elilott, Chandler and Caywood passed on the job and it was accepted.

Rumors of "Graft."

Even before it was accepted, there were all sorts of stories floating around about the way the work was done. The rumors of "graft" in connection with this sewer finally became so warm that an investi-gation resulted and the exposure was complete. City Engineer Elliott was complete. City Engineer Enforce was forced to resign and there was a general clearing out of his office. The result of the investigation of the construction of this bit of city sanitation did not stop with the retirement of Elliott, and those who were with him in the passing upon and acceptance of this work. While the and acceptance of this work. While the investigation was going on, that Multnomah County grand jury which became famous for its promiscuous indictments was in session. It hardly took an invitation to get this grand jury busy with the Tanner-Creek sewer scandal, nor was it long before it handed out indictments against all who had to do with the building of this city drainage. As a result of these indictments, each man, in turn, will come up for trial, and as each case is unraveled before the jurors who will hear the evi-dence, the taxpayers will learn just for what and how their money has been

Mendenhall, is defending Riner. As opponents to these clever two lawyers in the legal arenn are District Attorney John Manning and his deputy, Gus Moser. The prosecution, in outlining its defense, con-tended that it would prove that Riner had attempted to obtain money by false pretenses when he filed certificates that he had completed the work in accordance with the terms of his contract. For Riner, Attorney Mendenhall contended that the prosecution could not prove any of the allegations in the indictment. Before the trial had got fairly under way, it was clear what Attorney Mendenhall's attitude would be, that of not admitting the ex-istence of a contract beween the city and his client Riner. The attorney for the defense argued long and carnestly, first against the statute under which the in-slictment was drawn, alleging that it was framed to punish city and county officials, and that his client was not a city official. Another ground of the defense's conten-tion was that the wording of the indictment was not specific in its language, because it did not contain the wording of the contract. A number of authorities were offered by Attorney Mendenhall.

City Auditor Is a Witness.

ity Auditor T. C. Devlin was the only witness called. He was called to testify and to identify the contract for the Tan-her-Creek sewer, the certificates which were alleged to have been filed by Riner and other documents in the case. It was while the prosecution was trying to offer these documents as evidence that the attorney for the defense entered his vigorous protest. Judge George overruled all story, and lastly by the Postoffice Defendance of the control of th attorney for the defense entered his vig-orous protest. Judge George overruled all of Attorney Mendenhall's objections. The court ruled that the contract, the certificourt ruled that the contract, the certifi-cates and plans and specifications and other documents offered by the prosecu-tion be recorded as exhibits. On the point raised by Attorney Mendenhall regarding the indictment, His Honor called for the books containing the citations and ruled that he would allow the indictment to stand until he had time to road further on the case and until the case was farther

With this out of the way, the examinawith this out of the way, the examina-tion of Auditor Devlin proceeded. He was still on the stand when court was ad-journed at 5 o'clock. Just before adjourn-ment, and just as Mr. Devlin had in a measure identified the signature of R. M. Riner on the certificates. Attorney Men-denhall caused a flurry. While Mr. Devlin was testifying regarding the signature, Mr. Mendenhall had R. M. Riner sign his name with pen and ink, and also the son, E. M. Riner, sign another paper. There was a hurried consultation between the legal brothers as they compared the sig-natures of father and sen, then Attorney lid Mendenhall carried the paper on which E. M. Riner had written his name to Mr. Devlin and asked if that was R. M. Riner's signature. Mr. Deviln said that to the best of his belief it was. Mr. Men-denhall then passed the paper among the jurors and offered it as testimony.

Jury Which Tries Case.

The jury selected to try the case is made up of the following men. S. B. McBride, blacksmith, 208 Broadway; C. H. Thompton, broker, 128 Third; Samuel Strauss, restaurant proprietor, 229 Washington; William M. Cake, Sr., physician, Chamber of Commerce building; Cari Abendroth, laborer, 168 Caruthers; William Price, engineer, 161 Knott; H. J. Scherner, groceryman, 633 Fourth; August Carlson, manufacturer, 345 East Second; C. O. Signar, retired business man, 681 Lovejoy;

Fred Nevergold, proprietor mining smel-ter, 50 Nineteenth; James Shannassy, re-tired mechanic, 99 Bussell; R. A. Stringer, artiet, 129 Bancroft.

CIVIL SERVICE IN DISPUTE

Engineer's Action.

In September, 1903, John Rankin passed the municipal civil service examination for class 19, grade C, of division C, Engineering Department, and was certified by the commission to the City Auditor as a classified employe under the civil service rules of this city at \$75 a month. In a recent petition to the Civil Service Commission as sets up that he was constantly employed until last March when City Engineer Wanzer is alleged to have arbitrarily laid him off at \$2.50 a day and appointed A. S. Gross in his place. Rankin charges that he is allowed

spent.

The time in yesterday's trial was principally spent in obtaining a jury and a lot of preliminary legal sparring by Ed Mendenhall, who, with his brother, A. R. Mendenhall is defaulted. The product of the per diem only on days that he is employed and that they are likely to become few and far between. On the other hand Engineer Wanzer says that Ing force of his Jepartment, and violated no civil service rule when he laid Rankin off temporarily. He explains his reason for employing Gross by the statement that both took the examinations the same day, that there was no priority of your forth of your forth in a blaze of light until the night.

Monday night at 8 o'clock, the Lewis and Clark Exposition grounds will be completely illuminated for the first time, and when, after an hour's test, the lights are turned off, they will not again burst forth in a blaze of light until the night. ations toe same day, that there was forth in a blaze of light until the night of no priority of rank involved in that June 1, when the Exposition will have respect, and that Gross had a higher been formally opened. percentage than Rankin,

percentage than Rankin,

The Municipal Commission investigated the matter yesterday afternoon,
and sustained City Engineer Wanzer
on all the points at issue. John F.
Logan, attorney for Rankin, says that
he proposes to mandamus the City Engineer, and Civil Service. Commission to

offices into the new Federal building. The railway mail service, United States Civil Service Commission, United States District Attorney, and other offices intended for the upper story will go first, to be followed by the United States Circuit and District Judges, Marpartment which will take all the ground floor and a goodly portion of the barement and other sections of the building. This order of removal has been adopted for the purpose of avoid-

one adopted for the purpose of avoiding as much confusion as possible, the idea being to have a clear field for the Postoffice.

The bench in Judge Bellinger's department was demolished yesterday, the records and books of the Clerk, Marshal and District Altoracy models and shal and District Attorney packed, and in a few days the old biscult factory at Sixth and Burnside will be only an expensive memory so far as 'the Gov-

Three Engage in Fight.

James and David Roach and James O'Hare were arrested at Second and Alder streets yesterday afternoon by Patrolman Quinton, and were booked at police head-quarters on charges of fighting. Later Quinton, and were booked at police head quarters on charges of fighting. Later the Roaches were released on ball. They claim O'Hare, who is their brother-inlaw, started the trouble. He is divorced from his wife and is said to have been causing considerable trouble of inte because of this. He is the man who was recently severely lectured by Circuit Jbdge Frazer, at the time of the trial of the divorce case.

Civil Service Examinations.

An examination will be held in this

Employe Questions Right of City Grounds Will Be Illuminated for an Hour.

FAIR IN BLAZE OF GLORY

On Monday Evening the Lewis and Clark Exposition Will Be Outlined in Electric Lights for the First Time.

been formally opened.

It is expected that many thousand persons will witness this first illumination. Heretofore only buildings have been illuminated, but on Monday night all the buildings, as well as the Trail, the bajustrade and the towers on Government Island, will be illuminated. The electric displays arranged beneath the surface of the possible works in the state under

may be said to be in a completed condi-tion. The effect of the lights shining on the water of Guild's Lake, with the Government buildings on the one side and the principal exhibit palaces on the other, will be well worth seeing.

NEBRASKA EXHIBIT SHIPPED

Famous Steer Challenger and Moving Pictures of State Industries.

OMAHA, Neb., May II .- (Special.)-Two arlouds of exhibits are tonight on the way to Portland for installation as a part of Nebraska's display at the Lewis and

Clark Exposition.
The shipment includes the famous mounted steer Challenger, which was one of the sensations of the St. Louis agricultural exhibit. The steer was purchased by the Nebraska Experimental Station, for the purpose of being fattened on a specially prepared ration of corn and alfalfa and other products, with a view to capturing fire prize at the Chicago cattle show, in which it was successful.

The exhibit also contains 500 bushels of the finest corn of the state of the 1804 crop, also 30 cases of the best sheaf and threshed grain. This is all in fine condi-tion, and will be used until samples of the new crop can be substituted during the Surger.

blacksmith, 38 Broadway; C. H. Thompton, broker, 18 Third; Samuel Strauss, restaurant proprietor, 22 Washington; william M. Cake, Sr., physician, Chambers of Commerce building; Carl Abendroth, laborer, 16 Caruthers; William Price, engineer, 16 Caruthers; William Price, engineer, 16 Knott; H. J. Scherner, groceryman, 63 Fourth; August Carlson, manufacturer, 36 East Second; C. O. Signal, retired business man, 38 Lovejoy; office, Portland,

state will attract as much attention at Portland as it did at St. Louis.

The Commissioners, with William James. Superintendent of Agriculture, who is looking after the shipment of exhibits, will leave shortly for Portland to superintend the installation and superintend the installation, and be pres-ent at the opening ceremonies of the Ex-

Indian Institute at the Fair.

CHEMAWA, Or., May 11 .- (Special.) -The preliminary programme of the Pa-cific Coast Indian Institute, to be held at Portland, in the Auditorium on the Fair grounds, was issued today by Superin-tendent Edwin L. Chalcraft, who is the president of this year's institute. The programme covers a wide range of sub-jects bearing on the education and civllization of the American Indian and will be participated in by superin-tendents and others from all over the United States.

Superintendent of Indian Schools Miss Estelle Reel will be present, as well as many other general officers of the Indian Department from Washing-ton and in the field.

OREGONIAN NEWS BUREAU, Wash-

Logan, attorney for Rankih, says that he proposes to mandamus the City Engineer and Civil Service Commission to compel men to certify to the correctness of a client's monthly salary claim of \$75, unless they keep him employed the inke will be tested, all the searchlights that will be in use during the Exposition will be turned on, and the grounds and Centennial Park will be a blaze of light. It will be the first chance for Portlanders to see how the Fair will actually look at night when in full operation.

Moving Federal Offices.

Yesterday marked the first step in the direction of moving the different offices into the new Federal Null-lie.

The office of the completed condition of the state until the applicant therefore to the direction of moving the different offices into the new Federal Null-lie.

The office of the state of the provisions of the construction of any Irrigation works in the state under the provisions of the provisions of the state under the provisions of the provisions of the state under the provisions of the state provision of the state under the provisions of the state provision of the state provision of the state

About 7000 acres of state lands are situnted under the gravity system which will soon be constructed at Minidoka and under the provisions of this act can only be sold in conformity with the rules and regulations prescribed by the Recismation Act.

In compliance with the Idaho statute In compliance with the idaho statute D. W. Ross, engineer in charge of the Reclamation Service in that state, has been directed by the Director of the United States Geological Survey to officially notify Governor Gooding that the Secretary of the Interior has authorized the construction of irrigation works which will reclaim these lands, and has set saids from the reclamation, they the set aside from the reclamation fund the necessary money therefor.

Japanese as Census Enumerator.

County Assessor Sigler yesterday appointed Y. Matsui as a deputy to take the census of the Japanese popula-tion of Multnomah County. Consid-crable difficulty has heretofore been pointed Y. Matsul as a deputy to take the census of the Japanese population of Multnomah County. Considerable difficulty has heretofore been experienced in connection with obtaining accurate data relating to the Japanese inhabitants of this county, and the Assessor has sought to avoid this by sending one of their own race among them for the Jesired information. The new appointee comes highly recommended from Vice-Consul Alba, and Sigler feels certain that he has solved a problem that has been an eyesore ever since the state law went into lee and plantation singers on fluats, nuller and the county of the fact that it is of such expense. In direct contrast with this idea, the Norris and Rowe people present this year a parade more expensive than usual. There are many novel features, including liamas bears, eik and deer in harness, a score of pretty Japanese girls drawn in their jinrikshas by coolles, jubiler and plantation singers on fluats, nuller and problem that has been an eyesore ever since the state law went into effect concerning the taking of the census every ten years.

Work of the Grand Jury.

There was a luil in the investigation of the Multnomah County grand jury yesterday in the municipal scandals. The jurora, however, were not idle, for their time was taken up in hearing testimony in several criminal cases. It is understood that a true bill will be found against John T. Coleman, who murdered Edna Hoffman. Indications are that the grand jury will not make a report on the municipal scandals until just before time for its adjournment.

Lower River Man Petitions Port of Portland.

Commissioners Say Engineers Who Operated the Columbia, Are Responsible for Obstruction. Open Lighthouse Bids.

It was announced at the meeting of the

It was announced at the meeting of the Port of Portland Commission yesterday that the big dredge Columbia will be fully repaired and ready for business before May 20. Some few repairs will be made after she resumes work.

Albert Meyer petitioned that the commission remove the bar, which he says has formed in front of Hunter's Point, on the Columbia River. This bar, he stated in his letter, was caused by the dumpings from the dredge Columbia. It prevents steamers from stopping at his Sand Bar landing, and is a great inconvenience to him. The Commissioners thought the United States Engineers were the proper authorities to appeal to for a removal of the bar.

Colonel D. M. Dunne was present to

Colonel D. M. Dunne was present to colone: D. M. Dunne was present to present proposals for furnishing oil to the commission, but as a representative of the Standard Oil Company, who was not present, had promised to make an offer, the matter was laid over.

WIDE RANGE OF BIDS.

Tenders Opened for Construction of Burrows Island Lighthouse.

Major W. S. Langfitt, United States Engineers, yesterday opened bids for the construction of Burrows Island light sta-tion, on the west side of Burrows Island, Rosario Strait, Puget Sound. The bids

The specifications call for the building of a fog signal atructure, with light tower attached, an oil and coal house and a

Solace Off for Naval Stations.

GIVE BIG CIRCUS PARADE

Norris & Rowe Will Make This a Great Feature.

drawn in their jinrikshas by coolles, jubilee and plantation singers on fluats, numerous open dens of wild beasts, a bord
of elephants and one of camein, a hand
of pure white Arabian horses, beautiful
charlots, tableaux floats, equestrians,
five bands of music and the inevitable
calliope. The costumes adopted by the
Japanese girls are correct in detail, and
this feature of the parade has proved of
great interest during the present season.
The idea of wild beasts broken to harness
parading the streets has also proved attractive. The Norris & Rowe show of this
season is the greatest and most successful they have ever put on the road. Exhibitions will be given at Mulinomah
Field, Friday and Saturday, May 12
and 13.

Reception to New Members. The Calvary Baptist Church. Eighth and Grant streets, save a r

ant reception last night to the 52 new members received since September, 1904, when Rev. A. L. Black became its pastor. After a short programme J. W. Howell. Sunday-school superintendent, gave a talk on the importance of the Sunday-school, urging the members, new and old, to support this feature. The pastor followed with an address to the new members, bidding them to feel at home and find something to do. At the close, \$20 was pledged toward repairing and improving the interior of the church, after which light refreshments were served and a social hour was enjoyed.

ANTAL-MIDY

QUICKER THAN DOCTOR'S TONICS SAYS TYPHOID PATIENT.

Young Lady Left by Pever in Very Weak State Uses Dr. Williams' Pink Pills with Gratifying Results.

After a fever, such as typhoid or scar-let, has run its full course there remains the recovery of strength. The tonic that will most rapidly increase the red cor-puscles in the blood is the one that will most quickly restore color to the pale cheeks, strength to the weak muscles, and elasticity to the sluggish nerves. So far nothing has ever been produced superior to Dr. Williams' Pink Pills for

this purpose.

Miss Midendorf had been ill with typhoid fever for fourteen weeks. She had a good physician who carreid her safely through the critical stages. When he left, nothing remained to be done ex-cept to build up her strength, which was very feeble, and he gave her some preecriptions for that purpose. Here, however, she met with disappointment.

"I took the doctor's tonics," she says, for two months after I had recovered from the fever, but they did not do me the good I looked for. My strength came back so slowly that I surrosly seemed to be making any progress at all. Just then I read in a book thrown in our yard some striking testimorials showing what wonderful blood-builders and strength-givers Dr. Williams' Pink Pills are. I got a box of them soon after this and after I had taken only about half of them I could see a very great improvement in my condition. When I had used up two boxes, I felt that I did not need any more medicine. I have

not need any more medicine. I have remained strong ever since."

Miss E. B. Midendorf lives at No. 1801 Park street, Quincy, Ill. Br. Wil-liams' Pink Pills are the best remedy to use in all cases of weakness, from what-ever cause the system may be run down. In cases of debility due to overwork they In cases of debility due to overwork they minister fresh strength and overcome nervous symptoms. They are a specific for ansemis or bloodlessness. They are particularly helpful to girls on the verge of womanhood. They meet all the requirements of the period known as the change of life. They correct spring languor. They strengthen weak digestion and rouse up sluggish organs. No other tonic combines so many virtues. All druggists sell them.

Arrested for Drunkenness.

U. O. Hickel was arrested by Deputy Sheriff Word and Chief of Detectives Don-ahue, in the Lewis and Clark Exposition grounds, yesterday, and turned over to the police on a charge of being drunk. He was released on bail of \$10, and will have a hearing in the Municipal Court this morning. Hickel was smoking in the grounds, and refused to cease when noti-fied to do so. He claims the reason he declined to quit was that others near him were smoking without interference.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored. We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless

suffering. "I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so had that we sent him to Longchif hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 30, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 5 to 16 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a changs for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."
