BUILDING SIX MORE

Gasoline Motor Cars for All Harriman Branches.

COMPETE WITH TROLLEYS

All Leading Cities on System Will Have Them in Suburbs-Revolution in Branch Line Business Expected.

OMAHA, Neb., May 11 .- (Special.) -- Six gasoline motor cars are now under con struction at the Union Pacific shops, and will be placed in operation as soon as completed on lines running out of Denver and between Omaha and Kansas City. In addition to handling the local passen ger traffic, they will be turned to account for the quick delivery of the daily papers to interior points in advance of the regular trains.

The new cars are on identically the same principle as the car now being exhibited throughout the West, but have double the capacity and four wheel trucks. Their length will be 55 feet.

It is the purpose of the Union Pacific to place these motor cars in service .as rapidly as possible wherever there is any empetition from trolley roads. Estimates are being prepared as to what it will require in the way of these cars to supply the branch lines of the entire system, as this is the ultimate object of the management. It is stated that the economy in handling, in addition to the lighter roadbed required, will cause a revolution in the branch-line business of all roads, and turn many a losing branch line into a paying portion of the system.

INQUIRY INTO EQUITABLE

While It Continues Hyde Turns Guns on Alexander.

NEW YORK, May 11.—H. R. Winthrep, financial secretary of the Equitable Lafe Assurance Society, was under examination again today in the inquiry of Super-intendent Hendricks, of the State Insurance Department, into the affairs of the society. Mr. Winthrep produced many y. Mr. Winthrop produced many and documents and was on the

It was reported tonight on apparently reliable authority that the complaint in the action to oust Mr. Alexander from the trusteeship of the Hyde stock would be served within the week, and that sworn affidavits would be included stating that no Equitable money went either di-rectly or indirectly toward paying for the new famous Hyde ball, that there was no unseemly action on the part of any person at the ball, and that false reports about these things were spread as part of an alleged conspiracy to injure Mr. Hyde in the eyes of the public and of the directors of the society.

Equitable Officers Are Summoned.

NEW YORK, May II .- A new order requiring President Alexander and Vi Presidents Hyde and Gage E. Tarbell, the Equitable Life Assurance Society, to appear in the New York State Supreme Court on Monday for examination, was on Monday for examination, was by Justice Bischoff in that court The Equitable officials had been ordered to appear in response to petition by Herbert G. Tull, a Philadelphia policyholder in the society, but an error in the legal papers made a new order necessary. The first order directed that the officials be examined as to the vote of the direc tors by which the Equitable amended charter was adopted, the number of shares ly by Vice-President Hyde.

LOOKS BAD FOR HOCH

Strong Evidence of Doctors and Druggists on Poisoning.

CHICAGO, May IL.-Testimony of a sensational character occupied the greater part of today's hearing in the trial of the multi-bigamist, Johann Hoch. Dr. Ludwig Hektoen told of pathological studies of the organs of the dead woman, and declared he found no condition of nephritis, such as would cause death. Among the witnesses of the day was Frederick O. Collins, a druggist of New Tork. Hoch declared, when arrested, that the poison found in his fountain "arsenic" was bought at Collins' store. The drug-

gist came to Chicago armed with the reg-ister book the laws of New York require all druggists to keep, in which to record the sale of poisons. This book does not show that arsenic was ever sold to Hoch on the date he mentions, or to any person answering his description.

The afternoon session was occupied by the examination of Dr. Hektoen, who as-sisted at the last examination of the body of Mrs. Welker-Hoch. He gave it as his opinion that death had been caused by arsenical poisoning. His cross-examination was long and tedlous, but Dr. Hektoen held firmly to this declaration.

BLACK MIKE SHOOTS FOUR

Deadly Fusiliade in Wyoming Sheep Camp to Avoid Arrest.

CASPER, Wyo., May II.—Frank Smith, allas Black Mike, while trying to avoid arrest at a sheep-shearing camp, near Wolton, today, shot four men, fatally wounding one. The wounded are: Carl Knudsen, shot through neck and

ill die. W. J. Norton, shot through arm.

W. J. Norton, shot through arm.
Deputy Sheriff Hoback, finger shot off.
Charles Skinner, scalp wound.
Information reached Casper tonight
from Wolton that the sheep-shearers were
preparing to lynch Smith, and Sheriff
Wells left Casper for the purpose of
bringing him to the County Jall at the
latter clare.

OPENED BY BISHOP CASTLE

United Brethren Conference Welcomed to Topeka by Local Clergy.

TOPEKA, Kan., May 11 .- The 34th gen eral conference of the United Brethren Church was formally opened at 2 c'clock this afternoon by the senior bishop, Nich-olas Castle. D. D., of Portland, Or. Two olas Castle. D. D., of Portland, Or. Two hundred and sixty-eight accredited dele-gates were present, of whom Ill are min-isters and IM laymen. Twenty-three wom-on delegates were in attendance. This isters and lie laymen. Twenty-three women delegates were in attendance. This evening George Hoch and Rev. Charles at Sheldon made addresses welcoming the visitors. Rev. H. S. Gabel and Rev. T. C. Carter responded in behalf of the church. Among the delegates are Rev. J. A. King, superintendent of the church's mission in West Africa, and Rev. H. Barketics.

Bishop E. P. Kephart, of Annyille, Pa-

SHORT NOTICE ON BIDS

Canal Commission Allows the Coast but a Few Days

SAN FRANCISCO, May IL-(Special.)-A great stir was created today among San Francisco merchants when it was ascertained, that the Isthmian Canal Commission will open bids May 15 and 19 for supplies. The contract prices for which will easily aggregate \$1,000,000. One commodity-lumber rough and dressed—will modity-lumber, rough and dressed-will, call for the expenditure of more than \$50,000 alone. In all, 25,000,000 feet of lum-ber are needed at once. The other suppiles range all through many lines, and in all instances the quantities demanded

For several days the wires between San Francisco and Washington have been kept busy carrying dispatches from San Francisco asking for blank proposals. Wednesday last there were no lumber posals in the city, and no one here w what the commission wished to but

could be framed. Local merchants say the entire Coast has been shabbily treated, and a foud wall has gone up. Today there was a rush for proposals to supply, among other commodities, steam pumps and pipes. hydrants and water meters, fire extinnyorants and water meters, are extin-guishers, linen hose and hose reels, equip-ments for bridge gangs, railroad tools and supplies, foundry supplies, belting, roofing, wagons and so on through a list of hundreds of articles.

Both the Chamber of Commerce and

the Manufacturers' and Producers' Assoclation have requested Major Gallagher, the purchasing agent at Washington, D. for the Canal Commission, to extend the date for making proposals, to the end that Pacific Coast merchants shall have a chance to compete to better advantage than can be done in the absence of early

KAISER'S BELLICOSE TALK

Says Germany May Have to Oppose Yellow Danger.

BERLIN, May II .- Emperor William. ddressing the higher officers during a review of troops at Strassburg today. said, according to the Strassburg Buefger Zeitung, whose statements may be taken with some reserve:

"The Russian army which fought at Mukden had become enervated by immorality and drunkenness. Only in this way can its defeat at Mukden be explained. As Russia has shown weakness in the presence of the 'yellow danger.' circumstances might arise which would place upon Germany the task of opposing this danger. Officers and men must spend their time well, so that they shall not fall into immorality and intemperance.

TWENTY DEAD IN WRECK

have not been able to identify positively any of the dead, with the exception of Mrs. Dougherty, of Philadelphia. Her death was fraught with harrowing circumstances. Her corpse was the first to be recovered, as she was buried away from the cepris, instead of into it, and her body was not burned.

"On the train were her husband and lit-e boy. They hunted for a long time in the dark with terrible forebodings until they were horrified to find that the loved mother and wife was dead." mother and wife was dead."

It has been stated that the express train

was 12 minutes late leaving Middletown, nine miles east of this city, and that it was moving at a great speed at the time

The exact time the wreck occurred is believed to be 1 o'clock, from the fact that the hands of the clock of the Paxtang electric plant, 20 yards from the exn, were stopped at that tim

Escape Without Clothing.

When daylight broke on Market street this morning the pedestrians on the Capital City's principal thoroughfare presented a grotesque appearance. In the districts where the hotels are located, men who had passed through the wreck without injury, or merely slightly hurt, and who had declined to take rooms in the hotels because there were wearied women who needed the rooms, waiked around with wagons would be moved at a pace that needed the rooms, walked around with wagons would be moved at a pace that nothing on save rainceats and bedroom would preclude the possibility of the poslippers, and a few of them had merely lice keeping up with them on foot. He nothing on save raincoats and bedroom slippers, and a few of them had merely bath robes and overshoes.

sleeping city began to learn of the catastrophe, that everyone was amply provided for.

One man was kept busy at a tele-phone sending out messages from the injured and dying at the hospital. To clear the tracks the wreckage crews threw the debris over the bank into the Susquehanna River.

Bodies Burned With Cars.

The fire in the last two Pullman cars was finally extinguished this morning. The contents of these, where it is be-lieved a number of bodies were burned, are so completely burned that it was not possible to tell whether there were any bodies in them or not. If there were, they were reduced to powdered

It is unofficially estimated that the financial loss will amount to \$390,000. This includes \$15,000 for cash, jewelry and other personal effects of the pas-sengers that were destroyed.

The passenger train of nine cars and locomotive was totally destroyed.

The force of the explosion isset a lamp in the residence of T. P. Martin, of this city, starting a fire that destroyed three

houses.

The lifeless body of Engineer Thomas, with the head almost severed, was found lying over an embankment.

Albert J. Barr, of the Pittsburg Post, arrived this afternoon from Philadelphia. Mrs. Barr and her daughter will remain here until tomorrow night. Aside from cuts on her feet, caused by walking on the railroad tracks, and injuries from flying glass, Mrs. Tindell was uninjured.

Conductor Dies of Burns.

Affred Crisby, of Philadelphia, the conductor of the Cleveland express, who was terribly burned in the wreck, died late tonight at the Harrisburg hospital, making the total number of deaths 26.

Wind and Rain Drive Chicago Strikers to Cover.

ONLY ONE MAN IS INJURED

Lawyers Wrangle About Compelling Express-Driver to Testify--Mayor **Dunne Rebuffs Committee**

of Labor Leaders.

CHICAGO, May IL-The teamsters strike today was practically without incident. Driving storms of wind and rain, which swept the etreets at frequent intervals, had the effect of driving the majority of the pickets from their posts, and there were practically no disturbances of any kind. On the outskirts, however, were a few attacks upon the driv ers of delivery wagons, but with the ex-ception of one colored man, who was knocked senseless by a stone, nobody was

The most important part of the strike developments was the examination of witnesses this afternoon before Master in Chancery Sherman, who is taking testimony relative to the alleged violation of the Federal injunctions granted in favor of the Employers' Association and of the seven express companies.

Wrangle in Court.

Adolph Pheil, for 11 years an employe of the United States Express Company, but now a striker, refused to answer questions on the ground that he might incriminate himself. The queries put to him by the attorney for the Employers' Amociation covered the ground of the cause of the strike and whether or not the officials of his union ordered or advised but to strike. To all of these means vised him to strike. To all of these ques-tions Mr. Leboskey, attorney for the de-fendants, made strenuous objections, with the result that there occurred betwee him and Mr. Mayer, acting for the plain tiffs, numerous altercations, in which Mayer declared that, in stating matters

to the Master, Leboskey had been unfair almost to the point of dishonesty. The wrangles were finally terminated by the statement of the Master that the matter would be certified to the Federal Court as to whether or not the witness had proper grounds on which to base his refusal to answer questions. Mayer said that he would not take the matter before the court right away because he expected more occurrences in the future. Two nonunion drivers testified concerning assaults and threats by strikers. The hearing will be continued tomorrow.

Feed-Drivers Refuse to Strike

A break in the ranks of the striker today is alleged to have occurred in refusal of the Hayes feed drivers to ob serve the boycott. Deliveries are being made by union drivers to all the "struck" firms on the ground that humanity de-mands it. The feed drivers say they do not wish to stand by and see the horse starve to death. It is declared by others however, that this is merely a subterfug to cover the real attitude of the drivers who are anxious to go on with their work. A number of teamsters were dis-

work. A number of teamsters were dis-charged today for refusing to make de-liveries to the boycotted stores.

A squad of police had to be sent to the Hendricks School, where 700 children struck because a coal firm under the ban was delivering coal to the school building. About half she boys and girls were induced to resume their studies, but the other were bornes. the others went home.

Mayor Snubs Labor Leaders.

A joint committee representing the Chi-cago Federation of Labor, the United Garment Workers of America, the International Brotherhood of Teamsters, the Printing Trades Council, the Building Ma-terial Trades Council and the Associated Very few of the passengers that escaped had any clothing to speak of.
Most of them had been in their berths an order permitting policemen to ride on the time of the explosion and escaped that the committee white the time of the explosion and escaped the firms against which the time of the explosion and escaped the firms against which the time of the explosion and escaped the firms against which the time of the explosion and escaped the firms against which the time of the explosion and escaped the firms against which the explosion are the explosion and escaped the firms against which the explosion are the explosion and escaped the explosion and explosion and explosion and explosion and explosion and explosion are explosion and explosion and explosion and explosion are explosion. the time of the explosion and es-appeared only in pajamas or other light appared.

strike issued a statement today that committee had decided to suspend until further notice all sessions, because of lack of power to compel the attendance of new witnesses.

f new witnesses. General Manager Roach, of the Unio Traction Company, denied that the Trac-tion Company would use oil instead of coal, and had canceled contracts with the coal company or intended to do so, as re-

On testimony by Rev. W. K. Weaver, o the Ninth Presoyterian Church, Joseph Blau was held in the criminal court to-day under bonds of \$1998. The minister testified that Blau had been one of three men who assaulted him two weeks ago, believing him to be a strike-breaker. Mr. Weaver said he had no vindictive feeling against Blau, but considered it a duty to see that the assallant was pr

Negro Shoots Union Picket.

John Bernard, a union teamster, was shot in the hand and thigh tonight by a colored man employed as a driver at the store where Bernard was employed before the strike. Since the commencement of the trouble Bernard has been a picket around the place and, when several of the negroes who now drive wagons for the department store met Bernard and some of his friends tonight, they offered to fight. The invitation was declined and one of the colored men, drawing a revolver, fired at Bernard. He was taken to the hospital, where his condition is said to be serious. His assailant escaped. Cabmen today added a new annoyance to the list of discomforts suffered by women as a result of the strike. While torrents of rain deluged the streets, women passengers in order to reach the larger retail stores were forced to leave filtred conveyances, in some cases a block away, pickets warning all union drivers not to approach the carriage entrance.

EUROPE CAN GIVE HINTS

German Ambassador Offers Them to America on Railroad Ownership.

WASHINGTON, May 11.-The International Railway Congress today unani-mously adopted resolutions expressing sympathy for the injured, the families of the deceased, the railroad company and the employes involved in the railway accident this morning at Harrisburg.
The American Railway Association was the guest at a banquet tonight at the New Willard, at which over 200 delegates

were guests.
Emperor William sent the following message through Baron von Sternberg: measage through Baron von Sternberg:

I send my greeting to the International Railway Congress, in which for the first time German delegates are participating. May the personal exchange of ideas among the most prominent railroad men of the world, assembled in Washington, be of lasting benefit to international traffic, the prosperous development of which is the most effective way of fostering mutual understanding and the peaceful bringing together of nations.—William I. R.

The German Ambassador in his aresech

The German Ambassador in his speech paid a glowing tribute to the United States for fraternizing the nations of the world. Discussing government ownership of railroads, he said:

of railroads, he said:

The question of public ownership of public utilities is one which now stands in the foreground. I have no doubt the experience of Germany in national ownership of railroads aiready has received your attention. We do not recommend that you follow our example. We simply say we will be glad to contribute to your knowledge on this subject by opening our doors to your inspection. Europe constructed her roads to provide better facilities of transportation for traffic which had existed since the dark ages. American roads, on the contrary, were mostly built to create traffic.

Section five of the congress today reached the conclusion that government and local authorities should accord to light railways the support which they need for construc-tion and operation, either in the form of direct subscriptions, relaxation of re-
