## crates Will Effect Reforms.

ST. PETERSBURG, May 15 .- The only ace whence acute disorder was reported sterday was Kishinef, and that was in no sense attributable to the revolutionists. Apparently a crowd of soldiers off duty got out of hand, pillaged shops and even government buildings, and created a reign of terror among the inhabitants until sur-rounded and arrested by their comrades. It is now evident that while Social

Democrate and Social Revolutionists made a lot of noise, they had neither organization nor real leadership behind them. Even the Terrorists held aloof them. Even the Terrorists held aloot while waiting for bigger game. These two parties, which have already forfeit-ed sympathy of the major perion of the Liberals, now stand discredited by their failure with the working classes generally. The attempt to retrieve their less prestige in St. Petersburg by pro-claiming a general strike for today also has broken down, the workmen refusing to follow their landership. A method of to follow their leadership. A period of calm is now to supervene, in which the telligent elements of reform which are neitigent compathy with violence will devote hemselves, as they are doing, to discuss and elaborate ideas of the form which

the promised popular representation should take to meet their views. Everything now depends on Vice-Ad-miral Rojestvensky, but cool observers are more and more convinced that the reforms of the Russian state, like all items constructed will come from abuse their predecessors, will come from above and not from below. The people are not ripe for physical revolution. In the mean-time reforms in all directions are being time reforms in all directions are being Wa worked out, although the Liberals are too impatient to approplate properly the great changes which are gradually being effected.
