# **WILL PITCH HUGHES**

McCredie Determined to Add Him to the Team.

### GIANTS ARE PICKING UP

Pass Through Portland on Their Way to Sun Francisco to Play the Southern Teams in the League.

Manager McCredie and his crew of Giants arrived from Tacoma yesterday morning and last night left for San Franclaco. The team is a bit out of condition, but at that Manager McCredie feels that it will only take about another week before he will have it in shape. He is before he will have it in shape. He is going to order Jay Hughes to report on his arrival in San Francisco, and unless President Bert steps in and prohibits Hughes from playing, he will pitch his first game for the Glants next Sunday. Hughes is determined to sue the Seattle club for keeping him out of the game. Manager McCredle is going to try to persuade him from dolor this.

uade him from doing this.
Minnager McCredie would have had Jay
lughes in uniform long before this but
or one of the Siwash moguls. Phil P. Kelley, who seems to be the Scattle lighting magnate, and has been blocking the Hughes deal for all he is worth. McCredie says that Cohen and Agnew McCredie says that Cohen and Agnew have been willing to settle the Hughes matter, but that Kelley has held out for more money than McCredie feels that he can afford to pay for the big twirler. McCredie is dickering for a third baseman. He has three in sight and just as soon as he and the managers of any of these three men can come to terms he will have a new thirdsacker. Runkle, owing to the fact that things have been owing to the fact that things have been breaking bad for him at the bat, has sort of lost his grip and has not been playing the game that he is capable of putting up. Runkle's slump in batting has affected his fielding and he has got to the point now where he is afraid to take a

# French Getting in Condition.

Win French, since he nitched one whole e, has found that his arm is round-into shape. McCredie is greatly pleased over this fact and hopes that he pleased over this fact and hopes that he will be able to pitch him in a couple of games while at San Francisco. Bert Jones wrenched his back in one of the Seattle games, and although he pitched one game against Tacoma, his back is still bothering him a great deal. Ely Cates' tilness was one of the things which crippled the team on its recent trip away from home, more than any of the local from home, more than any of the local fans know. Cates is still in the hospital and it is a question whether he will be of any use to the team again this seaof any use to the team again this season. Manager McCredie is not taking
any chance either on having Hughes or
of having Cates back in the game and
has his wires out for some more nitchers.
The other day he received a telegram
from Hickey, who was one of Dagdale's
star box artists. Hickey is pitching for
Cleveland and is dissatisfied. He wrote
to Manager McCredie, saying that he
would like to be given a chance to play would like to be given a chance to play with Portland, and McCredie has wired or his terms.

With the rest of the team Manager McCredie seems satisfied. He believes that when he has third base strengthened he will have an infield that is as atrong as any in the league. The Gant manager is delighted with the game that lakey Atz is putting up at short, and declares him to be the fastest shortstop in the league. Atz work has demanded very favorable notices from the baseball critics both at Seattle and Tacoma, and they cannot understand why it is that Jakey is at the bottom of the list of shortstops. This is easily explained. Atz This is easily explained. Atz never loafs while he is in a game. He is after everything that comes his way. An error to him does not keep him from An error to him does not keep him from going after the next ball that is hit in his territory. He is not looking after his individual average. He's out to win games. He has been compelled to cover a great deal more territory than any shortstop in the league, more especially since Runkle has been so sadly off in own

# Schlafly Nearly Well.

Larry Schlafly has his bruises and cut Larry Schlafty has his bruises and cut about cured, and both at bat and at the keystone sack is beginning to play up to his last year's form. Hig McLean is still playing the same brilliant game behind the bat as he did while here. He has been hitting the ball as hard as ever, but has been robbed-sof many a long drive by some great fielding on the part of the opposing teams. Manager McCredie says that Mitchell, if he keeps on improving as he has during the past week, will do. He is still hobbling about first base on one leg, but McCredie says he has been fielding his position, in spite of this handifielding his position, in spite of this handi-cap, in grand style. He has also been hitting the ball well, considering that he has to stand on one peg while swinging

at the ball.

The Glants are still laughing at the home run Garvin made at Tacoma. When Marse Garvin kited the ball over the garden wall he was the most surprised man on the grounds. After lamming the ball Virgil dashed into first base with the speed of a man fleeing from a collector. Just as he struck the bag, Nordyke cooly remarked. "She's over the fence. Garve." The information so shocked the lanky Texan that he looked in the direction the ball bad gone and just saw it as it was dipping over the in the direction the hall had gone and just eaw it as it was disping over the tence. Then he stopped dead still. His mouth opened so wide that a green botue of a cide fly fell into the opening and Garvin swallowed it just as he would a cherry. When he started again he almost fell down for sheer joy of knocking out a home run. The wallop pleased Garvin so much that he offered Mique Fisher is for the bail. Fisher wanted K.73 and Garvin wouldn't come through with the bargain-counter price. Both Van Buren and Eddy Householder have been playing good hall, and McCredie thinks that if he

can do as well down South as he did at Seattle and Tacome, he will, when he gets his new third baseman, still have a chance to get into the first division. On the same train that brought the Glants to Portland was the Tacoma team. They go to Los Angeles for a series with the Angels.

Everybody's.

In the last week of March the Salvation Army celebrated the twenty-fifth anniversary of its establishment. It has outlived most or much of the prejudice originally felt against it. "By their fruits ye shall know them." The success of its American 'arm-colonies has brought Mr. Rider Haggard to the United States to study its methods. It provides 2,000,000 beds a year for the poor. In the cities it reaches and relieves portions of the population that hardly anybody else seems to be able to deal with. It inculcates self-support, self-control, and hopefulness, physical and moral cleanness. It "gets right bold" of people and tries to lift them up. The suspicion or contempt with which it was looked upon has passed away. The work of its more than 3600 workers speaks for itself. People know it is no humbug. Its success is something that all of us without distinction of religion or irreligion ought to be glad of.
