Not Active.

SAN FEANCISCO, May 16.—(Special.)—Today's grain market was of a firm character but
tacked activity. May deliveries of wheat and
bartey are gradually hardening as the month
draws to a close. While the outstanding short
interest in both cereals is not very large, soot
etocks are small and prices likely to advance
further on the bears. Wheat is also kept in
a nervous and firm position by the strength of
distant markets. Stocks of oats are atracilly
devicelling and prices keep up well, though the
demand is limited. Choice hay is very firm.
Feedstuffe are quiet and steady.
A large decrease in receipts in cherries confirms reports that the crop of that fruit is a
short one. Prices rose sharply. No fancy
cherrife for shipping are obtainable under \$1

and the quality is monthy poor, causing lower
prices. Green acpies are slow at 26 cents.
