SALEM, Or., May 17 .- (Special.)-Fri-SALEM, Or., May 11.—(special.)—Fri-day morning the laws passed by the Legislature will be in full force and effect and those who would avoid trouble will do well to inform themselves as to the new requirements and be careful not to violate the statutes. Many of the new laws are such as are not likely to be vio-lated very frequently, while others are laws for the prohibition of certain acts

That are committed daily.

The new automobile law, the pure-food law and the law forbidding the sale of liquor to minor females are among the new enactments that are likely to cause trouble unless carefully observed. The whipping-post law, the law for the punishment of macqueraux and the hunter's license law are others that are quite likely to be called to public attention by means of their enforcement.

Regulation of Automobiles.

The automobile law requires every and address in the office of the Secretary of State, together with a brief description of his vehicle, and to secure from the Secretary a certificate bearing a certain number. The fee for such certificate

The owner of the automobile must place upon the back of his vehicle in a con-spicuous place the number and the let-ters "Ore" Thus, if the number of his certificate be 27, he will have on the back of his auto, the characters "I-ORE." The characters must be light colored, on a dark background, and not less than three inches high. The purpose of this requirement is to furnish evidence with which to identify any machine that may be operated contrary to law.

The law further requires that each automust be provided with a lighted lamp at night, with the number painted on the glass of the lamp. Every suto must be provided with a "muffler" and with a provided with a "muffler" and with a good brake. Whenever an automobile approaches a vehicle drawn by a horse or horses, precaution must be taken not to scare the animals and if the horse or horses appear frightened the speed of the machine must be reduced until the driver has his team under control. If the driver so requests by means of signals, the auto

be stopped. The maximum speeds of automobiles in this State are as follows: In the in this State are as follows: In the thickly settled or business part of a city, eight miles an hour; within 100 yards of any vehicle drawn by a horse or horses, eight miles an hour; on the public highways outside a city or village, 23 miles an hour; over any city or village crosswalk when any person is upon the same, four miles an hour. At all times the research at any place must be treaspable. speed at any place must be reasonable, having due regard for the traffic and use of the road by others. Hunter's License. .

The hunter's Boense law requires that every person hunting in this state must secure an annual license from the County Clerk, paying therefor \$1. A license ex-pires at the end of the calendar year, regardless of the date of issue. Nonresidents must pay a fee of \$10 for a license.

No Liquor to Minor Females.

The law relating to the sale of liqu minor females provides a fine of \$100 to \$1000 as punishment for any person who shall sell or give intoxicating liquors to a female under Il years of age. The same penalty is provided for any proprietor or employe of any liquor-selling establish-ment who shall permit a minor female to remain in any place where intoxicating liquors are sold or served. This does no to a female accompanied by her t or husband or to any open and restaurant or dining-room.

The law for the punishment of macquereaux provides that if any person shall live with a prostitute or live wholly or in part off of her earnings or shall solicit for her, he shall be guilty of a felony and

He has lived in Scio, Or., the greater part of his life, having there received merely a public school education and later graduated from the Portland Business College. Mr. Johnson was in the mercantile, milling and banking business in Scio for several years, moving to this city two years ago, where he was elect-

It was shown conclusively that the rifle used was the property of Mrs. Riggs. The gun was found the next day in her house, and two of the shells fitted the weapon. These shells were picked up, one at what was the door to the burned cable. The other in the road in front of cabin, the other in the road in front of the place. No trace was found of the other five shells fired. The shells were old ones and had been releaded.

Ries owned no gun of his own. It was shown to have been possible for him to have reached Mrs. Riggs' place and re-

turned, by means of a by-path, so that he would not have been observed. In answer to the summons of the Court Mrs. Riggs came to The Dalles last night and registered at a hotel. This morning she went to her lawyer's office to consult him in regard to the claim on which she lived. This claim had been taken up by her husband, and there was some trou-her husband, and there was some trou-he about the title. Fors is said to have been in possession of information that was vital to Mrs. Riggs' title. Mrs. Riggs left her lawyer's office with the avowed intention of going to the District Attorney's office. HOOD RIVER, Or., May 17 .- (Special.)-To many people within the immediate neighborhood of the recent tragedy in which Poss lost his life and whose body was cremated for the purpose of hiding a crime, the reported disappearance of the Widow Riggs does not cause the sensation that it perhaps does to others. Since the arrest of Ries there have been murmurings that the affair would not end there.

Mrs. Riggs left here last night for The Dalles in company with eight other witnesses who had been subpensed by District Attorney Memefee to appear at the preliminary examination of Frank Ries whom the Coronor's jury charged with the death of Foss found burned in his cabin last Friday morning.

Rich Rock From New District in Baker County.

NEAR OLD PLACER GROUND

Locators Have Delved Beneath the Surface and Find the Values Increase With Depth of the Vein,

BAKER CITY, Or., May 17 .- (Special.) News has been brought to town of an important discovery in an entirely new ection, and one that is apt to cause quite a ripple of excitement among the mining men in this district. Bert Caviness, who is one of the discoverers, with L. B. Akers, was brought to Baker City for medical treatment at the hospital. He says they have developed a ledge of a width of 4½ feet, which gives an assay of

width of \$\frac{4}{2}\$ feet, which gives an assay of \$\frac{188}{2}\$ per ton. The rock is very free and shows gold visible to the naked eye throughout the whole extent.

The locators have exploited the ledge with surface work, with open cuts for over 700 feet, and also with a tunnel, which intersects the vein at a depth of 108 feet. The tunnel is 140 feet in length. and where the tunnel cuts the vein the ore shows values running higher than that found upon the surface. This vein lies just a little above the old places diggings which were all worked out over

30 years ago.

The location of this new find may be The location of this new find may be described as being distant from Baker City about 50 miles, nearly south in Baker County, and about 3½ miles from the Maiheur County line. It is six miles from the Mount Rastus discovery and about 3½ miles from the town of Unity. The vein lies right on the slope of Bull Run Mountain, a point well known to all prospectors in that region.

The celebrated Eldorado ditch runs near the new discovery, and will be used to furnish water for milling purposes. Both Bert Caviness and Akers are well known all over Eastern Oregon as persistent and hardworking prospectors and no one will begrudge them any good fortune.

GAMBLING IN CLACKAMAS

OREGON CITY MAYOR PASSES IT UP TO COUNTY AUTHORITIES.

If Games Are Allowed Elsewhere They Will Be Permitted in Town.

OREGON CITY, Or., May 17 .- (Special.) "If the county authorities permit the operation of a gambling-house at Milwaukie, gambling will be allowed right here in Oregon City." stated Mayor E. A. Sommer today in discussing the situation in Clackamas County. "So far as the report that 'Frenchy' Gratten intends start a gambling-house in Oregon City is concerned, I will state that no such intention has been indicated on the part of Mr. Gratton, nor would such a preposal considered from Mr. Gratton or any

"On two occasions I have interviewed Deputy Prosecuting Attorney Schuebel, and he assured me that there would not be tolerated in Clackamas County any gambling institutions whatever. I told him that if he adhered to that policy that there would be no gambling in Clackamas County, for the city authorities would not

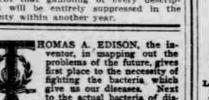

countenance anything of the kind. "But if a gambling-house is started in Milwaukle or any other place so conveni-ently located to Oregon City by men who have been driven out of Portland, or by any other persons, we will make Oregon City an open town in the true sense of the term. And what is more, gambling will be licensed and the proceeds will be turned into the city treasury. Games will

also be under police regulation."

Mayor Sommer was not slected on a Mayor Sommer was not elected on a closed-town platform, neither did he promise any radical reforms. The only pledge he made was the strict enforcement of city ordinances respecting the relations of the saloons and minors, and he has vigorously pursued that course. Other than for poker playing, Oregon City has been a closed town for a year, and during the last for works the saloons. and during the last few weeks this game has been driven from the ground fi

upstairs rooms.

It is generally believed that a strict enforcement of this policy on the part of Mayor Sommer will so arouse public sen-timent that gambling of every descripsambling of every descrip-entirely suppressed in the n will be entirely supported within another year.

HOMAS A. EDISON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which give us our diseases. Next to the actual bacteria of disease, the mosquitos and files are the most dangerous enemies of man. The mosquito with its bite injects into our veins maiaria, yellow fever, and other fatal troubles. The fly, with spongy feet, collects the invisible germs of diseases, spreads them over our food and poisons us with typhoid, cholers and other plagues of the human race.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammamition in the shape of good red blood, he will be able to overcome the enemy in these germs of disease." Every healthy man has five million red blood corpuscles to every square millimeter of blood. The best tonic for increasing the red blood corpuscles and building up healthy tissue is no doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousand.

Many popular patent medicines or tonics are made up largely of alcohol and will shrink the corpuscles of the blood and make them weaker for resistance. What is needed is an alterative extract, like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking from the food such elements as are required for the blood, also an alterative that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate, or where semilight and good air do not penetrate.

The air arising from low, marshy places, damp cellars, staguant ponds and pools and from decaying vegetable matter, as well as the gases from sewers, is loaded with germs of maiarial poison.
