Next Wednesday night the eligibles for ward captains and precinct workers will attend another meeting at the same place and plans will be mapped out for the last week before the municipal election. Club members will place their instructions with the ward and precinct captains, giving them pointers as to how to line up the vote and get the best results.

"If you men will get out and work," said Pat Powers. "I can promise that you will see the nicest and cleanest election in years. The Republicans have not gut as much money this year as usual and they have not the available sources of revenue to which they resorted in times past. I freely say that there has not been an election in the past ten years in Portland where the Republican party has not bought outright from 1806 to 1860 votes. If they get money this year they will have to go down into their own pockets to get it. The machine will find itself crippied for lack of funds and when the election is over we will show that Dr. Harry Lane is elected Mayor of Portland."
