Warsaw Again Staggered by Terrorist's Mishap, Which Saves Maximovitch's Life-Street Is

Strewn With Injured.

ST. PETERSBURG, May 20-(2:10 A. M.)-According to the Novoe Vremya, Emperor Nicholas yesterday signalized his birthday by signing a manifesto fixing the date for the con-vocation of the Zemsky Souvet or Council of the People as October 17, making his action known to his Min-isters when they met at Taarskor-Seio

The manifesto will be gazetted May 27, the anniversary of the coronation.

WARSAW, Russian Poland, May 19,-A. workman who was trying to avoid the observation of two detectives on Midowa street at noon today stumbled on the curb of the sidewalk and a bomb which he was carrying in his pocket exploded, killing the workman and both the detectives and injuring several persons who were pass-ing by. It is believed the bomb was in-tended for Governor-General Maximovitch, who was expected to pass the spot on his way to the Cathedral to attend the serv-ices in honor of the Czar's birthday.

The bodies of the victims were literally blown to pieces. A cafe near the scene of the explosion was entirely demolished, all the windows in the neighborhood were smashed and a lamp post was torn out of the ground.
The first report was to the effect that

a bomb had been thrown among local of-ficials who were on their way or returning from the Cathedral and caused intense ex-

When a correspondent of the Associated Press reached the scene the mutilated remains were still lying in the roadway, portions of them being on the sidewalks 20 yards distant. The roadway was covcred with debris.

Bomb Intended for Governor.

The authorities are convinced that the bomb was intended for the Governor-General. It now develops that he was deneral. It now develops that he was attending the services at the Cathedral, which is situated a few yards from the scene of the explosion. All the high officials and members of Russian society here also were present. The Governor-General had recently been threatened with a bomb attack, particularly since the May day disturbances. The police accordingly exercise the greatest vigilance whenever he leaves the Castle.

he leaves the Castle.

After the officials had entered the Cathedral detectives observed a poorly dressed man loitering near-by. When the man saw the detectives he ran toward the entrance of a confectionery store, where he either tripped or threw the bomb backwards at the detectives. The explosion occurred only a moment before the people commenced to pour out of the Cathedral. Three minutes later the Governor-General would have passed the

Cossacks who were hastily summoned soon cleared the streets, and the Gov-ernor-General drove by another route to the castle. In all nine persons were

One of the latter is detained at the police station, having been noticed warning people against go-ing into Miodowa street. Many reports are in circulation of strangers having stopped poorly dressed persons going in that direction. Shopkeepers assert that the street was unusually empty at the

Poday's outrage is the sixth of a similar character in Warsaw since the January character in Warsaw since the January disturbances. The editors of Polish papers here have decided to publish tomorrow, if the censor will permit it, strong articles denouncing such attacks. Governor-General Maximovitch sent his adjutant to the hospital this afternoon with a message of sympathy to the wounded and an offer to take care of the injured.

The man who was carrying the homb maker named Dobrowolski, a member of the violent section of the Socialists. Lat-est reports state that the detectives were in the act of arresting Dobrowolski when in the act of arresting Dobrowolski when the bomb exploded and all three were killed. A revolver and a bundle of papers were found in Dobrowolski's pocket. Many arrests have been made since the explosition, and the police are now busy making domiciliary searches. It is stated that Governor-General Maximovitch recently received an anonymous letter threatening that, as he had allowed men, women and children to be shot down on May day, so he would be killed with his wife and children, the writer adding that even remaining with

possible settlement of the teamsters' strike in this city. After a night spent in conference the members of the Employers' Association and the executive of the International Brotherhood of Teamsters reached an agreement upon all points except the re-instancement of the drivers of the seven express companies. When these men went out they were warned by the local managers that if they went on strike without grievances of their own, not one of them would ever again be employed by the express companies. Tonight, after extended conferences between the two sides of the strike, the following terms were announced by the Employers' As-sociation, and, with the exception of that relating to the express drivers, accepted

Terms Given by Employers.

That the teamsters should recognize the integrity and permanency of the Em-ployers' Teaming Company, which is to employ norunion men and remain pledged to the policy of the open shop. That the drivers for the express companies abide by the declarations of the companies for the forfeiture of their po-sitions when they struck. That all desirable nonunion men shall

Do You Want New Vitality?

Do you feel the need of a good spring tonic-a medicine to purify the blood-to give you vitality-to strengthen you -to make your entire system well, active, and vigorous?

If your tired and worn out nerves must have a tonic, then use a prescription that has proved its curing qualities in over a million cases—a remedy that has had steadfact friends nearly a score of years in every city and village in

No medicine, no prescription, no treatment has ever been discovered that has the marvelous, positive and direct power of cure that Paine's Celery Compound has for nervous results or nervous diseases. Its formula has been sent to every registered physician in the United States, it is constantly prescribed by them. They know that it is the pre-scription of one of the most famous physicians known in the annals of American medicine-Prof. E. E. Phelps, of Dartmouth University.

Shea and Mayer Confer.

At 8 o'clock tonight President Shea, of the Teamsters Union and Mr. A. Mayer, who has full authority to set-tle with the strikers for the Employers' Association, were locked together in a room at the Auditorium Annex. They refused to state what matters were under consideration, but from other sources it was learned that Mr. Shea was making an effort to secure the best terms possible for his men before consenting to recommend that

the strike be called off.

After the meeting between Messrs.
Shea and Mayer, the former reported directly to the teamsters joint coun-cil, which met at the union headquar-ters, and conducted its deliberations until a late hour. The sole power calling off the strike rests in this body, and it was freely predicted on all sides during the early part of the night that it would at some time before tomor-row noon announce that the end had

STRIKE SPREADING AT TROY

Starchers Make 2000 Idle and Team-

TROY, N. Y., May 19 .- A general shut-TROY. N. Y., May 19.—A general shut-down of the extensive shirt, collar and cuff factories here is feared, owing to the trouble which has existed for a fort-night between the starchers and em-ployers. Nine of the large factories hav-ing laundry plants are now affected and no work is being laundered in those shops because the starchers refuse to handle the work. If the work cannot be laun-dered, business in the factories is likely dered, business in the factories is likely to halt, unless the manufacturers decide to utilize nonunion help, of which there is no indication.

is no indication.

The trouble started in the laundry department of the Cluett, Peabody & Company, said to be the largest plant of the kind in the world. The employes demanded higher wages, which they said had been cut down; also the reinstatement of discharged employes. The firm refused, and the starchers quit, together with those in the Ide plant. Material from these two was offered in other plants, but the starchers refused to have plants, but the starchers refused to handle trouble spread, and as goods cannot be handled except through the laundering departments, about 2000 hands, many of them girls, are now without work. If the strike continues, many thousands more will be involved.

The strike is size extending along other troubles as the continues of the strike is size extending along other troubles. The strike is size extending along other troubles and the strike is size extending along other troubles.

The strike is also extending along other lines. Teamsters are refusing to handle goods from the shops while the manufacturers have been notified by the express companies' agents that they did not care to take the goods from the fas-

tories and endanger the men working on their wagons. Many cases that were packed for the expressmen to take away remain unmoved.
