# Your Nerves need "toning up" in the Spring

When you over-work, your nerves are overworked. Then

you "live on your nerves."
You can "live on your nerves" only just so long—then comes the nervous break-down. Nervous breaktdown is the protest of tired nerves against over-work. You need new power for your nerves.

Paine's Celery Compound gives you just the strength you

need by feeding new power to your nerves. It builds your nerves back to healthy strength.

For 18 years, Paine's Celery Compound has been the one great accepted tonic for the nerves, and it is used more universally than any other tonic in the world.

Paine's Celery Compound is the prescription of one of the most famous physicians in the annals of American medicine - Prof. E. E. Phelps, of Dartmouth University. Its formula has been sent to every registered physician in the United States, and it is constantly prescribed by them.

Got Back the Old Vigor

Got Back the Old VIgor

Feb. 1, 1904, Osterburg, Pa.—"I one you an apology for not replying sooner to your inquiry. I wish to say that Paine's Celery Compound still holds a high place in my esteem. And why shouldn't it! In the summer of 1892, when I was reduced to a state of collapse and despair—a total physical wreck—I began using Celery Compound. Before I used one bottle of it I felt much better, and after using a few bottles I was entirely restored. Since then my health has been better than ever before. We always keep it on hand in the family and when anyone feels bad from any cause, a dose or two usually fixes us all up again. I firmly believe that no better medicine was ever made for nervousness, indigestion, derangement of the liver, rheumatism, loss of appetite, sleeplessness. I usually use a bottle each spring as a tonic. We think it has saved us many dollars in doctors' bills, as we have only called in a physician once or twice in the last eight or ten years. If people generally only knew the real value of it as a medicine, more of it would be used."—Mrs. George W. Oster, Osterburg, Penna.

Try one bottle—see how much better you feel

## The celebrated nerve vitalizer and tonic.

If you ask a druggist for a bottle of Paine's Celery Compound and he sells you a counterfeit and an imitation and tells you it is just as good or better, he is trying to deceive you. He is trying to substitute an unknown article for a known product because he will make a few cents more out of your innocence. In his mind the question of real merit does not enter into the transaction-but the question of a few cents does.

When you ask for Paine's Celery Compound see that you get the real Paine's Celery Compound, with the picture of the bunch of celery on the bottle.
