Strike Leader Not Bound to Answer Questions.

By Greatly Increasing Police and Sheriff's Force, Chicago Keeps Teams Moving Without Riot. Fears of Building Tie-Up.

CHICAGO, May 25.-Cornellus P. Shea, president of the International Teamsiers' Union, was upheld today by Judge Kohlsaat, of the Federal Court, in his refusal to answer questions before Master in Chancery Sherman, which might tend to Incriminate him. Shea is now under indictment in the Criminal Court, and Judge Kohlsaut declared that answers to some of the questions put to him might prejudice the hearing of his case.

In the same decision which excused shea the court ruled that Bernard Mulligan president of the Express-Drivers' Union, and John Dorchus, a member of the court ruled that he court ruled that bernard Mulligan president of the Express-Drivers' Union, and John Dorchus, a member of the court ruled that he court ruled that

gan president of the Express-Drivers Union, and John Denchue, a member of the same union, had refused to answer questions which could not in any way connect them with any criminal proceed-ings, and they were therefore in con-tempt of court. He sentenced both men to jail, but allowed them to remain in nominal custody in the hands of United States Marchal Armes for five days in will be held in a note for the live days in charge of two Deputy Marshals. Arguments on the motion to commit the men were heard during the morning, and Judge Kohlsaat announced his decision late in the afternoon. The courtroom was crowded with labor leaders and members of the Teamsters Union, and many representatives of the smollovers.

Shea and Mayer Banter One Another.

At the conclusion of the hearing a large crowd gathered about Lovy Mayer, th attorney who had asked the court to con mit the men for contempt. President Shea edged his way through the crowd to the attorney and they shook hands. "Well. I got your co-conspirators," said

the lawyer, with a laugh. "Yes but you did not get me," answered Shea.

The hearing before Master in Chancery Sherman will be resumed at 10 o'clock to-morrow morning. Hugh McGee, another official of the local Teamsters' Union, will be one of the first witnesses. Jumes B. Barry, business agent of the same union, will also be called within the next few

A committee representing the teamsters was appointed tonight for the purpose of meeting representatives of the Teamowners' Association. The latter have made a request for the arbitration of the violation of contracts by the teamsters in reference to make deliveries of goods to box. fusing to make deliveries of goods to boy-cotted houses. The absence of any serious form of strike violence in all strike-affected portions of the city did much to keep up the spirits of the authorities.

Sheriff Barrett continued to swear in deputies today. The deputies aworn in since the beginning of the strike now live deputies assigned to protect nonunion drivers and wage-earners. Armed sentries guard the various armories boested in the city, and the officers expect a call to arms at any moment. Lumber Mills Shut Down.

The woodworking mills are already affected, F. D. Smith, of the hardwood lumber firm of F. R. Crane & Co., asserted already that 6000 lumber-yard workers \$1 have been laid off on account of luck of business. Fifty mills will be forced to shut down within a week. Lumber and sawmills in the Northwest are beginning to curtail operations. All orders for de-livery of lumber to Chicago have been

Mr. Shos did not agree with the prophecies of the lumber dealers. He said:

"All this talk of tying up the building industry is idiotic. The lumber jobbers can got all the union teamsters they want and can supply all the lumber that is required, and at lower prices than the Lumber Association dealers will sell. They outred, and at lower prices than the Lamber Association dealers will sell. They also have an advantage in the fact that they can have lumber delivered on any switch track, where the lumber yard is stationars."

Although President Shea, of the teamsters, made light of the fears of the em-ployers that the number tie-up would soon affect 100,000 men in the city's building trades, the impression prevailed that the action of the carpenters and other partisans in openly beycotting supplies from "struck" firms would eventually lead to an industrial paralysis that would make the situation too serious for the civil au-thorities to cope with.

Policy on Rates and Trusts.

Always supporting genuine progress, evo-lution not revolution, liberty not license, the Republican party continues to oppose every insidious device to undermine the stability of our institutions. President Rooseveit's comprehensive enforcement of the Repub-lican laws against monopolies, combines and trusts in restraint of trade, laws whose validity the Supreme Court of the United States has sustained, has our hearty encouragement and support. We also indorse every effort for the active enforcement of existing laws to stop all unjust discrimina-tions and special favors in the form of railway rebates, or by any other device, and we favor such further legislation on this subject, with adequate pensities, as may, after full investigation, seem to the Be-publican Congress and Administration wise and conservative, yet adequate to prevent unfair advantage to any, and to promote and insure the rights of all individuals in this and other localities.

No nation has ever known such widesprend prosperity as the United States has enjoyed since the restoration of the Re-publican party to power by McKinley's elecion. Wage-earners have had more work at better prices, farmers have had the best home markets, making the merchants pros-perous, the factories busy and all com-merce and transportation thrive. VITAL WEAKNESS

Above all other things, we strive to save the thousands of young and middle-aged men who are plunging toward the grave tortured by the woes of nervous debility. We have evolved a special treatment for Nervous Debility and special weakness that is uni-formly successful in cases where success was before formly successful in cases where success was before and by other doctors deemed impossible. It does not stimulate temporarily, but restores permanently. It allays irritations of the delicate tissues surrounding the lax and unity expanded glands, contracting them to their normal condition, which prevents lost vitality. It tones up and strengthens the blood vessels that carry nourishment. The patient realizes a great blight has been lifted from his life

We want all MEN WHO ARE SUFFERING from any disease or special weakness to feel that they can come to our office freely for examination and explanation of their condition FREE OF CHARGE, without being bound by any obligation whatever to take treatment unless they so desire. We cure

Stricture, Varicocele, Nervous Debility, Blood Poison, Rectal, Kidney and Urinary Diseases And all diseases and weaknesses due to inheritance, evil habits, excesses or the result of specific diseases.
