BANQUET TO THE

Two Hundred and Forty at Table With Vice-President Fairbanks.

RECEPTION THEN FOLLOWS

Two Thousand Pay Their Respects to the Vice-Presidential and Congressional Parties in New York Building.

Notable people of the city and state gathered at the banquet given the Vice-President in the New York State building in the early evening. Small tables were arranged on the porch overlooking the lake. Birch-bark canoes filled with flowers were placed at each plate. About 250 guests had been invited. Several informal short speeches were made. Those who attended were:

Reception to Governor Gooding in Idnho's Structure a Feature of the Day's Proceedings.

There was no formal opening in any of the state buildings. The doors were simply thrown open, and the crowds began to pour in. In the Idaho building there was an informal reception to Governor Gooding and his staff during the day, and a con-

The formal opening of the big white structure which bears the title "The State of Washington" will occur today when the building will be dedicated. ings were not open to the public. The fame of the beautiful New York building attracted swarms of people. The fact that Vice-Fresident Fairbanks was to be entertained there was another inducement. The building was closed into in the afternoon that the final arrangements for the hanquet might be made. A paragon of patience armed with a broom stood at the back door and politely teld would be visitors that he was very, very sorry but the building was temporarily closed. He said it five times a minute for an hour and a half and smiled every time he said it.

The cereal pictures in the Misseuri building wonderful as they are, are somewhat eclipsed by the claborate design which stretches across one side of the Idaho building, a master-piece of handlwork in grains. The Missouri building is complete, all but the educational exhibit. Samples of the work done by every school in the state, city and country, have been arranged in book form, and will be placed in a few days.

PRESIDENT OF EXPOSITION TO PRESIDENT OF UNITED STATES

"President Goode, of the Lewis and Clark Centennial Exposition. extends greeting to the President of the United States, and has the honor to announce that the Exposition management awaits President Roosevel.'s pleasure in transmitting the electrical energy to ring the chimes in the United States Government Building, and start the machinery of this Exposition."

PRESIDENT ROOSEVELT'S ANSWER.

"I congratulate you and those associated with you in commemorating this occasion. I hope and trust that the great enterprise you have undertaken will be a fitting memorial to the sturdy explorers, who, in the service of their country, faced the perils and hardships of a vast, unknown territory. I send greeting to the representatives of foreign countries who are co-operating with us in fittingly celebrating the 100th anniversary of this event, which meant so much for the extension of our country in the far Northwest.

"THEODORE ROOSEVELT."

NOTIFICATION TO THE PRESIDENT OF READINESS OF EXPOSITION.

"To the President of the United States: In response to your telegraphic signal the Lewis and Clark Centennial Exposition has been declared opened to a wast assemblage of distinguished and enthusiastic spectators from all parts of the globe. The prompt completion of the grounds and buildings, and correspondingly punctual installation of exhibits are not only a source of pride in promises fulfilled, but gratification as well in surpassing all Exposition records. The Exposition management desires me to express our heartiest appreciation of the honor conferred by the Chief Executive of the whole Nation in formally inaugurating this centennial celebration of the important historic achievement which resulted in our great country's remarkable continental development.

MOST NEARLY COMPLETE OF ALL

The Lewis and Clark Exposition claims precedence over all other expositions in the matter of completion at opening, according to an official bulletin issued fact

night. Careful review of the various exhibit buildings showed only nine exhibitors has hind with their booths and 22 behind with their installation work. The nine were promptly ruled out of any competition for prize awards and the 22 will be adversely reported upon to the Jury of Awards. Out of 2000 exhibitors this showing is re

garded as remarkable. Several Trail attractions were not ready for opening and these suffered from lack of patronage, which is an expensive experiment for the promoters and pro-prietors considering the number of people who were on the amusement street of

the Exposition resterday and last night. All of the State buildings were opened and most of their exhibits and decorations in place.

As for the Exposition's buildings and all parts of the work performed directly by the Exposition management, there were no deficiencies, this part of the work having been completed to the last detail before dark on Wednesday. Men Cured to Remain Cured

BY OUR WONDERFULLY SUCCESSFUL TREATMENT COMBINING THE FORCES OF NATURE

WEAK, DISEASED MEN, WE OFFER YOU A MODERN CURATIVE TREATMENT DIFFERENT FROM ANY OTHER YOU HAVE USED. It combines the great forces of nature, causing them to strike deep at the very sent of the disease. This wonderful New System Treatment cured over 1000 men last year, and most of them had failed to receive a cure elsewhere. We invite you to call sod investigate its merits.

Lost Vigor Restored

Are you less vigorous than you once were? Do you notice a gradual decline of sexual strength at times? Do you have lame back, loss of energy, failing memory, loss of ambition, etc.? Do you have difficulty, in concentrating your thoughts, a desire to shun society, feeling of despondency, etc.? If you have any or all of the above symptoms there is not a day to lose before securing reliable treatment that will make a man of you. Don't forget that the above weaknesses cause more domestic unhappiness and discontent, more suiciles and livorces, than all other diseases combined.

If suffering from this weakness you should not marry. You owe it to your future wife as well as to yourself to be made sound and well in every respect before taking that most important step that will either make or mar your whole future. It is your duty to yourself also to be cured as soon as possible, and with the return of your strength will come that pride and confidence that comes to every man with the restoration of his physical, mental and sexual powers. You will feel yourself to be a true man in every sense, well fitted in every way to perform the duties and enjoy the blessings of life. Why suffer longer? Now is the time to be cured.

Specific Blood Poison

Is the most terrible of all Blood Diseases. It may be either hereditary or acquired. When hereditary it causes eczema, rheumatic palms, swollen joints, eruptions on the skin, etc. When hereditary it causes eczema, rheumatic palms, swollen form is a small pimple or ulcer, followed by sore mouth and tongue, awollen tonalla, failing hair and eyebrows, enlarged glands, bone palms, copper-colored spots on the body, and later, if the poison is allowed to continue its deadly work in the system, such symptoms as Paralysis of Locomotor Ataxia, loss of voice or sight, cancerous growths, decayed bones and flesh result, and make you an object to be shunned like a leper by even your Jearest friends. Remember the truth of the old saying, "a stitch in time saves nine," and have the poison driven from your system forever. Don't waste your time and money taking mercury and todides, which merely suppress the symptoms while you are using them, only to break out again with renewed force after the treatment is alsocutinued and you believe your-from the blood for life. All symptoms are overcome by our treatment in from one to three weeks, and a permanent cure effected in from 30 to 90 days. After we treat a case of Blood Poison and dismiss it as cured the patient is never again afficted with any of the symptoms. He is cured to remain cured. We have cured thousands of men who had failed to receive a cure either from other Physicians or by going to Hot Springs. We can do the same for you. Call today and have a friendly talk with us. It will cost you nothing, and may be the means of saving years of suffering as well as money. Don't delay a single day longer. Call today.

ALL CASES TAKEN WE GUARANTEE TO CURE VARICOCELE STRICTURE

Is an abnormal growth of tissue narrowing one or more points of the Urethral Passage, sometimes causing a complete closure of the canal. It may
be congenital or acquired. If the latter, it is usually due to some of the
following causes: Strains, blows, strong injections, and very frequently
from the injudicious use of instruments such as sounds, etc. The symptoms are: Burning sensation, retention of urine, twisting, lack of force, and
there is always more or less inflammation along the Urethral Canal, and
this extends in many cases into the Prostate Gland and Bladder, thus causing serious complications, which many times result fatally.

We can point with pride to hundreds we have CURED, after many specialists had falled to give even the alightest relief, if painful, or if not, were
unable to effect the elightest improvement in the condition after months of
continuous treatment at the cost of the poor sufferer, both physically and
financially. Don't be experimented on any longer. We can cure you with
our guaranteed cure.

Is an enlarged condition of the veins, due to many causes. The principal ones are strains, early follies, sexual excesses, horseback and bicycle riding and private diseases. The enlarged veins being filled with impure and stagnant blood, the nerves and muscles either shrink or un luty expand with impure blood and diseased tissues, resembling or feeling like a bunch of earth worms. Unless it be cured in time the victim will suffer loss of sexual power, and thereby be unfitted for marriage, with a risk of insanity. Then what a curse is this disease! By our method of treatment the poisoned, stagnant blood is driven from the weakened, dilated veins, and a normal circulation of pure, healthy blood is established in the Sexual System. This being done, the weakened system is supplied with proper nourishment, and soon regains its lost power and firmness, and the patient feels aimself to be once more a true man in every wespect.
