SPECULATION IN BUTTER.

Eastern Operators Warned of Danger by Trade Paper.

The Chicago Dutter trade has issued a warning to Middle Weet speculators to go slow, as the storage proposition is considered unsafe. Under the heading "Butter a Puxile," the Chicago Packer of May 27 said:

Just now there is a great deal of speculation as to what the butter deal will develop. Many dealers believe it will be the seg deal right over again. Last year was no exceptionally good until it is thought the memories of big profits will set everybody huying, and that eccurage butter will again be a high class article in point of price.

It seems from the present outlook that the make will be a record breaker. All indications are favorable for a great deal more butter this year than last, and it is admitted on all gides that the season is from two to three weeks earlier than it was in 1964.

Sentiment is becoming congressed, and the market is getting flow on the present outlook that the make will be a record breaker. All indications are favorable for a great deal more butter will again be a high class article in point of price.

There is some feeling prevalent that the Equitable incident, coupled with a number of recent bank fall-was, has had the effect of prompting to a course of house cleaning among financial institutions generally and to an overhauling of resources and their standing. The desire to know the results of such a process may very probably have its part in the waiting attitude which is now pronounced in financial circles.

The day's news from the crops did not throw any very definite light on their prospects, but the feverjeh movement in the grain markets was significant of the problems still to be settled out of the outcome of the crops. The money market was slightly firmer than The money market was slightly firmer than during the recent past, owing to the operations in connection with financing a purchase concerned in the organization of the new Smelters Securities Company, but not much significance was attached to this and the weakness of stocks was not connected in any way with the conditions in the money market. The continued pressure on the United States Steel stocks was of large sympathetic effect and considerable resisting in Reading and in Union Pacific was connected with the charging views of a prospect of dividend increases which were considered good in connection with yesterday's buying. The market made no effective recovery and closed casy.

The Congressional Irrigation Party Yields to Jones' Urging.

KANSAS CITY. Mo., June 1 -- (Special.) -The Congressional irrigation party, which left Kansas City tonight on a tour of the Western States, has made a change

of the Western States, has made a change in its itinerary to include a visit to North Takima and Spokane. By reason of its change, the party will arrive in Portland at 7:15 A. M., June 2, and leave for Puget Sound at 11:25 on the evening of June 2. This is one day earlier than the visit originally planned for Portland.

Representative Jones, who is a member of the party, was insistent that some time be spent in studying irrigation conditions in his state, and it was at his request that Washington was recognized. All dehave not been arranged, but it is probabl that the Congressional party will run from Seattle to North Yakims, and from North Yakims to Spokane by special Figur-Steady.
