Cadet Band Plays.

One of the most attractive features of the dedication of the Washington building was the presence of the cadet hand from the Washington Agricultural Col-lege, which furnished the music of the exeroises. National and popular aire were rendered to the simosi enjoyment of the crowd. Several times the pieces played were so well received that the band was compelled to render encores. The Wash-ington Agricultural College cadet band is one of the best musical organizations of the kind in the United States. The mem-bers of the organization have been play-ing together for several years, until they have reached such a high degree of per fection that they compare favorably with many professional bands.

IT IS BELLINGHAM WEEK

Mrs. Olive M. Leonard Acts as Hostess and Receives the Guests, Assisted by Nine Other Ladies of That City.

The reception and grand ball given Gov-ernor Athert E. Mead and staff at the Washington state building last night by the ladles of Bellingham was a social function of which the City of Bellingham. the County of Whatcom and the entire State of Washington may be proud. If the social affairs which follow by other Washington counties from week to week during the Fair equal the one given last night, that state will carry off all honors for dispensing hospitality at the Lewis and Clark Exposition. More than 1909 in-vitations were issued, and those who came vitations were issued, and those who came at the last minute and asked for cards of admission had them graciously accorded. While there was carefulness in distributing invitations and the line was properly drawn, the entire absence of anything bordering upon snobbishness was most noticeable. Washington is glad to be here and is glad to see her friends, She wants to show sister states and every other state in the Union that they are welcome to the best she has to give, and in this she is ably backed and assisted by her ladies.

Mrs. Olive M. Leonard, Hostess. At last night's ball Mrs Olive M Leon At last night's ball Mrs. Olive M. Leonard, official hostess for Beilingham week, received the guests, assisted by nine ladies of that city. Mrs. Albert E. Mead, wife of the Governor of Washington, and the most distinguished guest among the ladies, stood with the hostess and warmly welcomed the hundreds of visitors present. Mrs. Mead was gowned in a satin Melba of French gray with lace garnitures, Mrs. Leonard, true to the spirit of the Ori-ental Exposition, were an Oriental blue ental Exposition, were an Oriental blue Rajah silk gown. Bellingham's Week at the Fair.

For this event, and for all social events of the coming week, the entire city of Beilingham dissolved itself into a floral committee to furnish decorations for the state building. point, to be prepared for shipment to Portland, each doner paying his own expressage. Public spirit of this unusual kind cannot help but be contagious, and the appearance of a crowd of Washington College cadets at the state building yesterday afternoon, asking Mra Leonard if they might be of assistance in decorating, seemed only in keeping with the general idea of hospitality which pervades the Washington headquarters. A carload of flowers was sent for the first installment, and patriotic, public-spirited Bellingham promises more from day to day as needed to keep their headquarters looking as they would have it.

The programme mapped out by Mss. Leonard for the coming week contains many events which will be looked forward to with great pleasure both by Washingtonians and visitors from other states. It is Bellingham week, and every effort will be put forth to give the public an idea of the industrial, educational and social features of that enterprising city, which is Jocated on one of the most beautiful bays on the Pacific Coast.

CHEERED BY THE CROWDS

Parents are asked to send the children to the big building at all hours of the day, and they will be made welcome and treated as royally as any child could wish to be. Souvenirs Luncheon in City - Speaks at Washington Building Dedicatory Exercises. as any child could wish to be, Souvenits will be given each young visitor, and there has been something said about candy. handsome building and install beautiful exhibits, but it meant much more. It meant that the people of Washington were taking exactly the same interest in this Exposition that the people of Oregon were.

We naturally expect a very large proportion of our attendance from the State of Washington. The building of this magnificant home on the Fair grounds for the people of Washington, with its display of their own products of course, renders the place very attractive to them, but it also aids materially in enabling the visitors from the East to see the resources and opportunities as found in the States of Oregon and Washington.

We have always figured from the inception

states are exactly the same and if for no other purpose I think that all the money expended in the construction and opportunities as the people of this Coast.

I wish to compliment the State Commission on the wonderful work it has done in the erection of this magnificent palace in so short a time. As Governor Mead said, the work only started two or three months ago, and I must confess that even we, who were used to such things felt a little worried. But the commission was equal to the occasion and everything has been completed. I extend to you all a very cordial welcome.

This will include the Chamber of Commerce, the Commercial Club, the Board of Trade, the Mayor and Council and other city officials. Educa-tional Day is set for Saturday, when the State of Washington will be at home to school bodies, church dignitaries and members, philanthropic bodies and others. On Saturday evening a grand patriotic concert will be given in the building by De Caprio's Band.

Other Washington Functions.

In addition to this elaborate programme Mrs. Leonard has several informal din-ners and luncheons arranged for the Washington Commissioners and their friends, as the ladies of Bellingham are particularly anxious to express their ap-preciation of finding the state headquar-ters in readiness for the oppning yesterday. Commissioner Johnston's work in this regard was especially effective, and there is a general expression of grateful-ness and appreciation of it. The plan of the State of Washington to

give the largest town or city in each give the largest town or city in each county a week's conduct of the social department at the Exposition headquarters is a happy one, for each county will turn out, as its ladies are serving as official hostesses, and the attendance from the state will thus be materially enlarged. The idea was suggested by Mrs. Charles f. Both, who is a daughter of Captain Henry Roeder, one of the best-known pioneers in that state. Aberdeen would have been the first city to be represented, as the list is alphabetical, but Bellingham took the first week for the reason that Governor Mead was to be here, and he is from that city. Other cities which will be represented are: Chehalis, Contralia, Dayton, Davenport, Ellensburg, Everett, Goldsmale, Mount Vernon, North Yakima, Olympia, Port Townsend, Seattle, South Bend, Spokane, Tacoma, Vancouver, Walla, Walla, Wenatchee.

After this formal opening the huilding will be open to the public every day, and beginning Tuesday morning meals can be had and rest rooms enjoyed. The meals will be served both to men and women, and the ladies of the board are of the opinion that the cooking will excel-that of any other restaurant, as it will be on purely domestic science lines. Goes to the Exposition.

After luncheon Mr. Fairbanks and his party went to the Fair Grounds, and the Vice-President was shown about by President Goode.

Last night the official party was escorted from Mr. Goode's residence to the Union Station by two troops of cavalry. Here a private car was attached to the O. R. & N. train scheduled to leave at \$15. The Vice-President stood on the rear platform bowing to the crowd until the train slowly pulled out from the de-pot, amid the cheers of those who were

waiting for their trains.

The Vice-President's train will arrive in Omaha on Monday at 5:10 P. M., and Chicago on Tuesday morning at 7:20. From Chicago the party will go to Flint. Mich., where Mr. Fairbanks will participate in some dedicatory exercises.

Cannon Goes to Seattle.

Speaker Cannon left last night for Seattle on the 11:45 Northern Pacific. He will remain in the Puget Sound City for a few days, and will then go north for a short visit in Southern Alaska. Efforts were made to have the distinguished offi-cials remain to attend the dedication of the Cellio Canal, but this was found to be

impossible.

Those who will accompany Speaker Cannon North are: Senator Hemenway, son and daughter; J. A. Tawney, wife and daughter; C. A. Bartlett and wife; H. B. Adams, H. C. Loudenslauger and wife, W. E. Rodenberg and wife, A. A. Beidler, J. McAndrews, W. F. Busbee and wife, Henry Casson and wife, Alex-

CALIFORNIA AT THE FAIR

ATTRACTIVE DISPLAYS DRAW LARGE CROWDS.

In Horticulture, Forestry and in Minerals Golden State Has Remarkable Exhibits.

Those in charge of the California building at the Exposition are greatly pleased over the way in which their displays have attracted the Fair visitors. On the opening day the building was packed all day, and the number of people who have inspected the exhibits since that time have been very large.

California has one of the largest state buildings on the grounds, and her state commission has made every effort to collect an interesting display. It is thought by many who visited the Louisiana Pur-chase Exposition that the present exhibit of the Golden State is superior to the one made in St. Louis. The building is larger

made th St. Louis. The building is larger and the dispinys themselves cover a wider range and are better installed.

The building itself is located near the west of the Palace of Griental Exhibits, and is constructed in the old Mission style. All the furniture is of massive design, and even the door catches have been removed from some old Southern California building, for they are of iron, hand wrought.

The mining exhibit is the first to greet The mining exhibit is the first to greet the eye. On the second floor is a series of displays in the line of education, including many hundreds of photographs of public achools and specimens of work from everycity and town of the state. On the large wall are a hundred large transparencies showing scenes at the University of California at Berkeley.

The rooms of Governor Pardee and his family are on the north side of the second floor, and have been elaborately fitted up for the comfort of the official guests.

The building is on one of the main thoroughfares, and is constantly thronged with visitors. The state display is practically complete in every part, which in a measure accounts for its popularity.

One of the results of the Fair will be the bringing closer together of the people. Our states are exactly the same and if for no other purpose I think that all the money expended and to be expended in the construction and operation of this Exposition will be well repaid many times by the good feeling that will be created among all the people of this Coast. Great Laughing Success at the Empire Tomorrow.

The Empire Stock Company will open the new week tomorrow afternoon, pre-senting for the first time here the cele-brated farce-comedy, "Racket's Wife." The plot deals with the great mistake a foolish old bachelor makes by sending his dashing young nephew to plead marriage for him with a charming young styl for him with a charming young girl whose photo he had fallen in love with. young man naturally falls in love her himself, and, after getting married, they try every desperate means to pull the wool over the older gentleman's eyes. The play is very funny, and will score a big success at the Empire all next week.

Bertha Creighton Next Week.

No student of American history or lover of his country can afford to miss "A Ro-mance of "%," the beautiful revolutionary play in which Miss Bertha Creighton will be seen at the Marquam Grand Theater next week, beginning Monday, June 5. It is full of "the spirit of independence," as the original article itself. The patriotic the original article itself. The patriotic feeling of the children at that time is brought out in a beautiful touch where the grandson of one of the American patriots has organized a regiment of his little playmates and is drilling them on the green at the Battery Park, much to the disgust of the British officers quartered nearby. Miss Creighton's supporting company has been specially engaged. ing company has been specially engaged with a view to their peculiar fitness for these historical characters.

PAID ADMISSIONS 1994.

At the close of the gates at the Exposition last night at II o'clock, F. B. Davidson, chief of the department, announced that there were 1934 paid admissions. The threatening weather in a measure kept many persons from visiting the Pair, who otherwise would

The attendance at the Exposition yes-terday surpassed what had been expected, and at no time were there any parts of the grounds that were not liberally dot-ted with people. Some came early and brought their luncheon. Others came in after working hours and a considerable addition to the crowd came with the turning on of the lights, undaunted by the brisk shower. For the weather, too, suf-fered a reaction from the balmy opening

day, and there was considerable of a wind throughout the afternoon. The feature of the second day was the opening of the Washington State building. The exercises here were held in the fore-noon and were well attended. They took place directly in front of the imposing Washington building—beyond doubt one of the very finest buildings at the Fair. The different exhibit palaces and buildings were all liberally patronized. Very few booths were found incomplete yes-terday, and exhibitors had put the fulshing touches on in many places, making the interiors much more attractive than on opening day. By the end of the week

on opening day. By the end of the week it is believed every exhibitor will have finished his labors and there will be no detail great or small lacking. Early in the afternoon the delightful strains of Innes' Band attracted nearly every visitor at the Fair. The seats on the terraces above the bandstand were well filled. Fully 2009 persons at through the excellent programme that was given. The Trail got nearly every visitor at one time or other during the day. The attractions did only a fair business, but

the old-time concessionaires said they had encountered second days of expositions before, and were entirely satisfied with the showing yesterday.

Today's attendance will undoubtedly be reserved. greater. It is Rose day, and many thousands of the city's most beautiful roses will be exhibited in the Auditorium all the afternoon and evening.

cially for those living west of the Rocky Mountains, which De Tooqueville at one time predicted as the probable limit of the American Union. Forty-five years ago, a time and fact within the easy memory of many here today, the great State of Washington, with its now more than 800,000 people, had a projudation of less than 12,000, and an assessed valuation of property too inconsiderable to be compared with its present wealth.

My friends, surely, surely we live in a great ngd Tou who only a few years ago were ploneers on the frontier, now stand at the threshold of the ultimate greatness of the Oregon country, which possesses more infinitely more, than the combined attempts of New Tork and Pennsylvania, not alone in its hidden treasure, but in all that goes to make material wealth and happiness, and to which may be added a climate ungurpassed and unsurpassable in all the favored lands of the searth. Here, my friends—here on the Pacific Coast—is the future front door of the world's commerce. And in lendering washington's tribute to the Oregon country and in dedicating that tribute to those who found and held it, we join our wiser states in opening that door, not only to the world's commerce, but to all the citizens of our common country, and but them some and join us in the development and enloyment of the great heritage which has descended unto us,
