The vote was lighter than it was expected to be, not more than 14,300 votes being cast, which was 38 per cent of that registered. The falling off was most noticeable in the North End pre-cincts. It was explained by North End politicians that many of the men registered there had moved away and their votes were not available. Democrats asserted that many North End voters were "scared out" by the threat made against illegel voting by

outmatched.

The returns at the Democratic head-quarters made it evident early in the evening that Lane was victorious, but the Republican headquarters held out stubbornly that the buttle had not yet been lost. Their hopes were vain and this was made evident to them as the hour passed midnight. At 2 A. M. Republican Chairman, Column refused to concede. Chairman Colwell refused to concede Laue's election by more than 106 votes, but Democratic Chairman Montague and others of the Democratic campaign committee were claiming a plurality of

The East Side, when all returns shall be in, will have given perhaps 1400 plurality for Lane, and the West Side more than 400 plurality for Williams. The surprise to the Williams people comes not so much from the big Lane plurality on the East Side as from the small Williams plurality on the West Side. The Williams supporters figured that the West Side would return between 2000 and 2000 plurality for Williams, and that he could stand as much as a 2000 reverse on the East Side. They were, therefore, deceived in the West Side more than in the East. The East Side, when all returns shall

Complete returns from 18 precincts at 3 A. M. this morning and incomplete returns from 20 precincts showed Lane to be leading Williams by 670 votes, but this lead will be increased in the complete returns today. Seventeen of the 26 incomplete precincts are on the East Side, and will perhaps swell Lane's plurality to 1809 votes. The number of votes yet to be returned from the 20 incomplete precincts will be probably 2508.

All five of the Republican nominees for Councilman-at-Large were elected by safe pluralities. But there was a close race for Ward Councilman in the case of Preston, Republican, against Concannon, Democrat. In the First Ward, where the returns early this morning appeared to put Preston in the lead by 16 votes. Up to an early hour it seemed that Concannon.

Another close fight was that of Wallace against Concannon.

Another close fight was that of Wallace against Sullivan in the Second Ward, where Wallace won by 13 votes, according to returns not entirely complete. In all the other wards the winners had asfe leads over their nearest competitors. The biggest lead of any was that of Masters, Republican, in the Fifth Ward.

Dr. Harry Lane was sleeping peacefully last night when he was routed out of bed by the diligent efforts of Central and called to the 'phone.

"If I am elected, it proves that the right-thinking element of the people is the powerful element when it awakes to the need of the hour. I do not want to take any of the glory of the election to myself personally, for I do not think it is due to me. I do not think that the people world for me as a man so much as recvoted for me as a man so much as a representative of a principle. GLOOM IN HEADQUARTERS.

Little Comfort Republicans Get as the Returns Come In.

At the Republican headquarters in the McKay building, the earlier reports in-dicated that Lane was winning, and there was corresponding gloom and sorrow among the faithful present. The returns were for the most part sent in by telephone, except in cases where the vote was complete, in which event the services of a messenger were brought into requi-

sition, and the returns totaled as rapidly

conspicuous at the headquarters of the local Republicans were Elmer R. Colwell, chairman of the City Central Committee; Al. Crofton, W. C. Hufford, Henry Belding, Jay Upton, Sig Sichel and W. M. Cake, who lingered anxiously about in the home of extraction areas comfurt from the

Cake, who lingered anxiously about in the hope of extracting some comfort from the slough of deapond into which the battle of ballots seemed to have plunged the bead of their ticket.

Others prominent in the councils of the party drifted in at stated intervals, but those referred to were more or less in evidence through good and evil report.

Here and there a glimpse of sunshine would show through the clouds, only to be eclipsed at the next turn of the political kaleidoscope by a deluge that seemed to sweep away every vestige of hope. Gradually Lane's plurality had increased until out of a total of 400 votes counted, he had attained a lead over Williams of St. At this juncture Sellwood was heard from, and the news from the precent up the river was sufficiently comforting to operate upon Chairman Colwell forting to operate upon Chairman Cotwell in the nature of an electric shock, causing him to leap spasmodically into the to-bacco-laden atmosphere and give vent to his feelings in wild, feroclous-like yells that would have made a Cayuse brave turn green with envy. Out of a total of 25 votes counted, the returns from that precinct indicated that Williams was more than 100 ahead, but the contagious to the country of Fast joy was short-lived, as a series of E Side districts came thundering throu the telephone like the deadly fusiliade a battery of rapid-fire guns, wiping out the temporary advantage, and causing the Republican chairman to col-lapse in Al. Crofton's tremulous arms. About midnight the local leaders ap-peared to concede Lane's election, although some of them still entertained a faint hope, doubtless fathered by the wish, that Williams might pull through.

WASHINGTON, June 5 .- "Japan will, believe, be entirely autisfied with Government's instructions that the Rus-'sian ships at Manila must intern or must put to sea," said Mr. Takahira tonight. The Minister, upon receiving from the State Department the official report of the action of the President regarding the disposition of the three Russian ships which have put into Manila, sent a long cablegram to Toklo on the subject. It is probable that a reply will reach Washington tomorrow or Wednesday, officially expressing the satisfaction of Japan with-

The developments of the day were the decision of the President on the subject after a conference with Secretaries Taft and Morton; cable instructions embodying the decision sent to Governor Wright and Admiral Train at Manila, and an exchange between the Japanese Minister and Acting Secretary of State Loomis, in which the former inquired what action this Government intends to take and the latter responded giving the Government's position as stated.

Taft's Instructions Positive. Secretary Taft's instructions were that

time cannot be given for the repairs of the injuries received in battle and that the vessels therefore cannot be repaired unless interned until the war is over. It is fully expected here that Admiral Enquist will decide to intern his ships, and orders have been issued for Admiraj Train to take charge of the

Big happiness and big heads reign to-day. Democracy is triumphant, and it began to sing last night when the East Side returns first began to be brought in. Here and there were a few flat notes, but most of them were sharp, and by midnight the party fiddle had been strung to high "G" and every man had a bow and was hard at work.

"We have waited 30 years for this, and have worked all the time." said one of the faithful swinging his hat, as he yelled at the good news brought by a breathless meascager.

"Oh, my," gurgled Judge O'Day, his face beaming and wreathing with smiles of patriotic and democratic joy. "They sent the Williams ballots to Albins by freight, and the train got wrecked. They haven't got there yet. Oh my." Oh, my," That is the way it went until the (Concluded on Page &)

Can't Repair Damage of Battle.

It was stated that if the Russian ves sels agreed to leave Manila in their present condition they are welcome to do so, but as it does not appear that they suffered from any damage by the sea of storm this Government will be obliged to take the position as outlined.

The decision of the President was an-nounced after conferences with Secretaries Morton and Taft. As soon as Secretary Taft returned to the War Depart ment, he made public the substance of his instructions to Governor Wright, who is the medium of communication between the Washington Government and Admiral Enquist. Rear-Admiral Converse, chief of the Bureau of Navigation, personally took charge of the preparation of instructions to Rear-Admiral Train, who is to be in supreme charge of the details of internment, this being the practice followed when the Lena put into port at San Francisco, and was interned under the direction of the commandant of the Mare Island Navy-Yard. It is expected that Admiral Enquist will forthwith decide to intern, in view of the bad condition of his vessels.

Ukase. Instigated by Aged Procurator, May Be Precursor of National Assembly - Revolt May Be Answer of People.

ST. PETERSBURG, June 8.-(3:00 A. M.) -Emperor Nicholas' ukase virtually creating Governor-General Trepoff dictator has given rise to a mighty sensation. It is the imperial recognition of the crisis in the internal affairs of Russia and instinctively recalls the step taken by the Emperor's grandfather, Alexander II, immediately after the attempt to blow up pointed a Commission of Public Safety headed by General Loris Melikoff, except that the position of General Trepost will be more analogous to that occupied by Loris Melfkoff when, later in the same year, he was appointed Minister of the Interior with full control of the police.

"Reaction and suppression" doubtless will be the quick interpretation put upon the Emperor's act as soon as it become would be off Corregidor Island waiting to many believed to be his dying hed last Thursday and went to Tearskoe-Selo, The Admiralty has given out a cabled where he spent almost the entire day with

Ministers Resign in Chagrin.

M. Bouligan, Minister of the Interior, could not face the humiliation and immediately resigned, and it is believed other ministers will follow suit. Count Lamsderff has also placed his resignation in the hands of the Emperor, it is said, and he will be succeeded by M. Muravlef, Ex-Minister of Justice, and now Ambaseador at Rome. Admiral Alexieff has also demanded the acceptance of his demission To find a precedent for the resignation of a minister as a protest against imperial action it is necessary to go back to the resignations of Ministers Loris Melikoff, Milutin and Ignatieff, when, after the assassination of Alexander II, Alexander III repudiated the liberal policy of his father by issuing his famous manifesto, affirm can crisis will not go before congress ing the maintenance of the autocracy and of orthodoxy, which stirred the chancellories of Europe to their depths and which has lasted until the present liberal agita-

May Be Preface to Reforms.

In spite of the popular interpretation, however, that Trepoff's appointment means repression and reaction to the bitter end, the latter conclusion by no means follows, as it was under Loris Melikoff's dictatorship that the reform programme of Alexander II was worked The same thing may prove true in this case. Indeed, among the contradictory rumors which are current in the city, one is that the ukase will be coupled with the immediate calling of a Zemsky Sobor, but nothing is definitely known and the Emperor's most influential friends are not aware what stand he will take. Whatever he may do, it is now apparent that the Emperor has decided that the hands of the government shall no longer be forced by political agitation, and that the legislative assembly shall bear the ball mark of imperial fashioning and not that of popular

The decision of the Emperor was undoubtedly precipitated by the Russian disaster in the Sea of Japan. as Liberals and Radicals everywhere were preparing to make the best possible use of it in furthering their wishes. The government also will be threatened with peace demonstrations, the first of which was to be a big meeting of Zemstvoists at Moscow today, which General Trepoff as his first act prohibited.

On the surface of things, therefore, it looks ominously like the placing of Trepoff at the belm to deal with the internal crisis which the determination
